For that purpose no formalities will be required other than establishing the authority of the officer and the identity of the person to be retaken. All legal requirements to obtain extradition of fugitives from justice are hereby expressly waived on the part of states party hereto, as to such persons. The decision of the sending state to retake a person on probation or parole shall be conclusive upon and not reviewable within the receiving state; provided, however, that if at the time when a state seeks to retake a probationer or parolee there should be pending against him within the receiving state any criminal charge, or he should be suspected of having committed within such state a criminal offense, he shall not be retaken without the consent of the receiving state until discharged from prosecution or from imprisonment for such offense.

IV. That the duly accredited officers of the sending state will be permitted to transport prisoners being retaken through any and all states parties to this compact, without interference.

V. That the governor of each state may designate an officer who, acting jointly with like officers of other contracting states, if and when appointed, shall promulgate such rules and regulations as may be deemed necessary to more effectively carry out the terms of this compact.

VI. That this compact shall become operative immediately upon its execution by any state as between it and any other state or states so executing. When executed it shall have the full force and effect of law within such state, the form of execution to be in accordance with the laws of the executing state.

VII. That this compact shall continue in force and remain binding upon each executing state until renounced by it.

The duties and obligations hereunder of a renouncing state shall continue as to parolees or probationers residing therein at the time of withdrawal until retaken or finally discharged by the sending state. Renunciation of this compact shall be by the same authority which executed it, by sending six months' notice in writing of its intention to withdraw from the compact to the other states party hereto.

2. Separability Clause. If any section, sentence, subdivision or clause of this act is for any reason held invalid or to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act.

3. Takes Effect. Whereas an emergency exists for the immediate taking effect of this act, the same shall become effective immediately upon its passage.

4. Title. This act may be cited as the "Uniform Act for Out-of-State Parolee Supervision."

CHAPTER 65.

AN ACT TO SECURE THE ATTENDANCE OF WITNESSES FROM WITH- OUT A STATE IN CRIMINAL PROCEEDINGS.

SECTION

1. Definitions.
2. Summoning witness in this state to testify in another state.
3. Witness from another state summoned to testify in this state.

SECTION

4. Exemption from arrest and service of process.
5. Uniformity of interpretation.
6. Short title.
7. Inconsistent laws repealed.
8. Constitutionality.
9. Takes effect.

*Be it enacted by the Senate and House of Representatives in
General Court convened:*

1. Definitions. "Witness" as used in this act shall include a person whose testimony is desired in any proceeding or investigation by a grand jury or in a criminal action, prosecution or proceeding.

The word "state" shall include any territory of the United States and District of Columbia.

The word "summons" shall include a subpoena, order or other notice requiring the appearance of a witness.

2. Summoning Witness in this State to Testify in Another State. If a judge of a court of record in any state which by

its laws has made provision for commanding persons within that state to attend and testify in this state certifies under the seal of such court that there is a criminal prosecution pending in such court, or that a grand jury investigation has commenced or is about to commence, that a person being within this state is a material witness in such prosecution, or grand jury investigation, and that his presence will be required for a specified number of days, upon presentation of such certificate to any judge of a court of record in the county in which such person is, such judge shall fix a time and place for a hearing, and shall make an order directing the witness to appear at a time and place certain for the hearing.

If at a hearing the judge determines that the witness is material and necessary, that it will not cause undue hardship to the witness to be compelled to attend and testify in the prosecution or a grand jury investigation in the other state, and that the laws of the state in which the prosecution is pending or grand jury investigation has commenced or is about to commence and of any other state through which the witness may be required to pass by ordinary course of travel, will give to him protection from arrest and the service of civil and criminal process, he shall issue a summons, with a copy of the certificate attached, directing the witness to attend and testify in the court where the prosecution is pending, or where a grand jury investigation has commenced or is about to commence at a time and place specified in the summons. In any such hearing the certificate shall be *prima facie* evidence of all the facts stated therein.

If said certificate recommends that the witness be taken into immediate custody and delivered to an officer of the requesting state to assure his attendance in the requesting state, such judge may, in lieu of notification of the hearing, direct that such witness be forthwith brought before him for said hearing; and the judge at the hearing being satisfied of the desirability of such custody and delivery, for which determination the certificate shall be *prima facie* proof of such desirability may, in lieu of issuing subpoena or summons, order that said witness be forthwith taken into custody and delivered to an officer of the requesting state.

If the witness, who is summoned as above provided, after being paid or tendered by some properly authorized person the

sum of ten cents a mile for each mile by the ordinary traveled route to and from the court where the prosecution is pending and five dollars for each day, that he is required to travel and attend as a witness, fails without good cause to attend and testify as directed in the summons, he shall be punished in the manner provided for the punishment of any witness who disobeys a summons issued from a court of record in this state.

3. Witness from Another State Summoned to Testify in this State. If a person in any state, which by its laws has made provision for commanding persons within its borders to attend and testify in criminal prosecutions, or grand jury investigations commenced or about to commence, in this state, is a material witness in a prosecution pending in a court of record in this state, or in a grand jury investigation which has commenced or is about to commence, a judge of such court may issue a certificate under the seal of the court stating these facts and specifying the number of days the witness will be required. Said certificate may include a recommendation that the witness be taken into immediate custody and delivered to an officer of this state to assure his attendance in this state. This certificate shall be presented to a judge of a court of record in the county in which the witness is found.

If the witness is summoned to attend and testify in this state he shall be tendered the sum of ten cents a mile for each mile by the ordinary traveled route to and from the court where the prosecution is pending, and five dollars for each day that he is required to travel and attend as a witness. A witness who has appeared in accordance with the provisions of the summons shall not be required to remain within this state a longer period of time than the period mentioned in the certificate, unless otherwise ordered by the court. If such witness, after coming into this state, fails without good cause to attend and testify as directed in the summons, he shall be punished in the manner provided for the punishment of any witness who disobeys a summons issued from a court of record in this state.

4. Exemption from Arrest and Service of Process. If a person comes into this state in obedience to a summons directing him to attend and testify in this state he shall not while in this state pursuant to such summons be subject to arrest or the service of process, civil or criminal, in connection with

matters which arose before his entrance into this state under the summons.

If a person passes through this state while going to another state in obedience to a summons to attend and testify in that state or while returning therefrom, he shall not while so passing through this state be subject to arrest or the service of process, civil or criminal, in connection with matters which arose before his entrance into this state under the summons.

5. Uniformity of Interpretation. This act shall be so interpreted and construed as to effectuate its general purpose to make uniform the law of the states which enact it.

6. Short Title. This act may be cited as "Uniform Act to Secure the Attendance of Witnesses from Without a State in Criminal Proceedings."

7. Inconsistent Laws Repealed. All acts or parts of acts inconsistent with this act are hereby repealed.

8. Constitutionality. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared to be severable.

9. Takes Effect. This act shall take effect upon its passage.

7. Maintenance. All highways and bridges constructed under the provisions of this act shall be maintained by the state or by the town in which such highway or bridge is located in accordance with the designation as to maintenance shown on said map.

Be it enacted by the Senate and House of Representatives in General Court convened:

1. **Interstate Extradition.** Amend chapter 377 of the

Public Laws by striking out the entire chapter and inserting in place thereof the following:

CHAPTER 377

1. Definitions. Where appearing in this act, the term "governor" includes any person performing the functions of governor by authority of the law of this state. The term "executive authority" includes the governor, and any person performing the functions of governor in a state other than this state. The term "state," referring to a state other than this state, includes any other state or territory, organized or unorganized, of the United States of America.

2. Fugitives from Justice; Duty of Governor. Subject to the provisions of this act, the provisions of the Constitution of the United States controlling, and any and all acts of Congress enacted in pursuance thereof, it is the duty of the governor of this state to have arrested and delivered up to the executive authority of any other state of the United States any person charged in that state with treason, felony, or other crime, who has fled from justice and is found in this state.

3. Form of Demand. No demand for the extradition of a person charged with crime in another state shall be recognized by the governor unless in writing alleging, except in cases arising under section 6, that the accused was present in the demanding state at the time of the commission of the alleged crime, and that thereafter he fled from the state, and accompanied by a copy of an indictment found or by information supported by affidavit in the state having jurisdiction of the crime, or by a copy of an affidavit made before a magistrate there, together with a copy of any warrant which was issued thereupon; or by a copy of a judgment of conviction or of a sentence imposed in execution thereof, together with a statement by the executive authority of the demanding state that the person claimed has escaped from confinement or has broken the terms of his bail, probation or parole. The indictment, information, or affidavit made before the magistrate must substantially charge the person demanded with having committed a crime under the law of that state; and the copy of indictment, information, affidavit, judgment of conviction or sentence must be authenticated by the executive authority making the demand.

4. Governor May Investigate Case. When a demand shall be made upon the governor of this state by the executive authority of another state for the surrender of a person so charged with crime, the governor may call upon the attorney-general or any prosecuting officer in this state to investigate or assist in investigating the demand, and to report to him the situation and circumstances of the person so demanded, and whether he ought to be surrendered.

5. Extradition of Persons Imprisoned or Awaiting Trial in Another State or Who Have Left the Demanding State Under Compulsion. When it is desired to have returned to this state a person charged in this state with a crime, and such person is imprisoned or is held under criminal proceedings then pending against him in another state, the governor of this state may agree with the executive authority of such other state for the extradition of such person before the conclusion of such proceedings or his term of sentence in such other state, upon condition that such person be returned to such other state at the expense of this state as soon as the prosecution in this state is terminated. The governor of this state may also surrender on demand of the executive authority of any other state any person in this state who is charged in the manner provided in section 23 of this act with having violated the laws of the state whose executive authority is making the demand, even though such person left the demanding state involuntarily.

6. Extradition of Persons Not Present in Demanding State at Time of Commission of Crime. The governor of this state may also surrender, or demand of the executive authority of any other state, any person in this state charged in such other state in the manner provided in section 3 with committing an act in this state, or in a third state, intentionally resulting in a crime in the state whose executive authority is making the demand, and the provisions of this act not otherwise inconsistent, shall apply to such cases, even though the accused was not in that state at the time of the commission of the crime, and has not fled therefrom.

7. Issue of Governor's Warrant of Arrest; its Recitals. If the governor decides that the demand should be complied with, he shall sign a warrant of arrest, which shall be sealed with the state seal, and be directed to any peace officer or other person whom he may think fit to entrust with the execution thereof.

The warrant must substantially recite the facts necessary to the validity of its issuance.

8. Manner and Place of Execution. Such warrant shall authorize the peace officer or other person to whom directed to arrest the accused at any time and any place where he may be found within the state and to command the aid of all peace officers or other persons in the execution of the warrant, and to deliver the accused, subject to the provisions of this act to the duly authorized agent of the demanding state.

9. Authority of Arresting Officer. Every such peace officer or other person empowered to make the arrest, shall have the same authority in arresting the accused, to command assistance therein, as peace officers have by law in the execution of any criminal process directed to them, with like penalties against those who refuse their assistance.

10. Rights of Accused Person; Application for Writ of Habeas Corpus. No person arrested upon such warrant shall be delivered over to the agent whom the executive authority demanding him shall have appointed to receive him unless he shall first be taken forthwith before a judge of a court of record in this state, who shall inform him of the demand made for his surrender and of the crime with which he is charged, and that he has the right to demand and procure legal counsel; and if the prisoner or his counsel shall state that he or they desire to test the legality of his arrest, the judge of such court of record shall fix a reasonable time to be allowed him within which to apply for a writ of *habeas corpus*. When such writ is applied for, notice thereof, and of the time and place of hearing thereon, shall be given to the prosecuting officer of the county in which the arrest is made and in which the accused is in custody, and to the said agent of the demanding state.

11. Penalty for Non-compliance with Preceding Section. Any officer who shall deliver to the agent for extradition of the demanding state a person in his custody under the governor's warrant, in wilful disobedience to the last section, shall be guilty of a misdemeanor and, on conviction, shall be fined not more than one thousand dollars or be imprisoned not more than six months, or both.

12. Confinement in Jail When Necessary. The officer or person executing the governor's warrant of arrest, or the agent of the demanding state to whom the prisoner may have been

delivered, may, when necessary, confine the prisoner in the jail of any county or city through which he may pass; and the keeper of such jail must receive and safely keep the prisoner until the officer or person having charge of him is ready to proceed on his route, such officer or person being chargeable with the expense of keeping. The officer or agent of a demanding state to whom a prisoner may have been delivered following extradition proceedings in another state, or to whom a prisoner may have been delivered after waiving extradition in such other state, and who is passing through this state with such a prisoner for the purpose of immediately returning such prisoner to the demanding state may, when necessary, confine the prisoner in the jail of any county or city through which he may pass; and the keeper of such jail must receive and safely keep the prisoner until the officer or agent, having charge of him is ready to proceed on his route, such officer or agent, however, being chargeable with the expense of keeping; provided, however, that such officer or agent shall produce and show to the keeper of such jail satisfactory written evidence of the fact that he is actually transporting such prisoner to the demanding state after a requisition by the executive authority of such demanding state. Such prisoner shall not be entitled to demand a new requisition while in this state.

13. Arrest Prior to Requisition. Whenever any person within this state shall be charged on the oath of any credible person before any judge or magistrate of this state with the commission of any crime in any other state and, except in cases arising under section 6 with having fled from justice, or with having been convicted of a crime in that state and having escaped from confinement, or having broken the terms of his bail, probation or parole, or whenever complaint shall have been made before any judge or magistrate in this state setting forth on the affidavit of any credible person in another state that a crime has been committed in such other state and that the accused has been charged in such state with the commission of the crime, and, except in cases arising under section 6, has fled from justice, or with having been convicted of a crime in that state and having escaped from confinement, or having broken the terms of his bail, probation or parole, and is believed to be in this state, the judge or magistrate shall issue a warrant directed to any peace officer commanding him to ap-

prehend the person named therein, wherever he may be found in this state, and to bring him before the same or any other judge, magistrate or court who or which may be available in or convenient of access to the place where the arrest may be made, to answer the charge or complaint and affidavit, and a certified copy of the sworn charge or complaint and affidavit upon which the warrant is issued shall be attached to the warrant.

14. Arrest Without a Warrant. The arrest of a person may be lawfully made also by any peace officer or a private person, without a warrant upon reasonable information that the accused stands charged in the courts of a state with a crime punishable by death or imprisonment for a term exceeding one year, but when so arrested the accused must be taken before a judge or magistrate with all practicable speed and complaint must be made against him under oath setting forth the ground for the arrest as in the preceding section; and thereafter his answer shall be heard as if he had been arrested on a warrant.

15. Commitment to Await Requisition; Bail. If from the examination before the judge or magistrate it appears that the person held is the person charged with having committed the crime alleged and, except in cases arising under section 6, that he has fled from justice, the judge or magistrate must, by a warrant reciting the accusation, commit him to the county jail for such a time not exceeding thirty days and specified in the warrant, as will enable the arrest of the accused to be made under a warrant of the governor on a requisition of the executive authority of the state having jurisdiction of the offense, unless the accused give bail as provided in the next section, or until he shall be legally discharged.

16. Bail; in What Cases; Conditions of Bond. Unless the offense with which the prisoner is charged is shown to be an offense punishable by death or life imprisonment under the laws of the state in which it was committed, a judge or magistrate in this state may admit the person arrested to bail by bond, with sufficient sureties, and in such sum as he deems proper, conditioned for his appearance before him at a time specified in such bond, and for his surrender, to be arrested upon the warrant of the governor of this state.

17. Extension of Time of Commitment, Adjournment. If the accused is not arrested under warrant of the governor by

the expiration of the time specified in the warrant or bond, a judge or magistrate may discharge him or may recommit him for a further period not to exceed sixty days, or a judge or magistrate judge may again take bail for his appearance and surrender, as provided in section 16, but within a period not to exceed sixty days after the date of such new bond.

18. Forfeiture of Bail. If the prisoner is admitted to bail, and fails to appear and surrender himself according to the conditions of his bond, the judge, or magistrate by proper order, shall declare the bond forfeited and order his immediate arrest without warrant if he be within this state. Recovery may be had on such bond in the name of the state as in the case of other bonds given by the accused in criminal proceedings within this state.

19. Persons Under Criminal Prosecution in This State at Time of Requisition. If a criminal prosecution has been instituted against such person under the laws of this state and is still pending, the governor, in his discretion, either may surrender him on demand of the executive authority of another state or hold him until he has been tried and discharged or convicted and punished in this state.

20. Guilt or Innocence of Accused, When Inquired Into. The guilt or innocence of the accused as to the crime of which he is charged may not be inquired into by the governor or in any proceeding after the demand for extradition accompanied by a charge of crime in legal form as above provided shall have been presented to the governor, except as it may be involved in identifying the person held as the person charged with the crime.

21. Governor May Recall Warrant or Issue Alias. The governor may recall his warrant of arrest or may issue another warrant whenever he deems proper.

22. Fugitives from This State; Duty of Governors. Whenever the governor of this state shall demand a person charged with crime or with escaping from confinement or breaking the terms of his bail, probation or parole in this state, from the executive authority of any other state, or from the chief justice or an associate justice of the supreme court of the District of Columbia authorized to receive such demand under the laws of the United States, he shall issue a warrant under the seal of this state, to some agent, commanding him to receive the

person so charged if delivered to him and convey him to the proper officer of the county in this state in which the offense was committed.

23. Application for Issuance of Requisition; By Whom Made; Contents.

I. When the return to this state of a person charged with crime in this state is required, the prosecuting attorney shall present to the governor his written application for a requisition for the return of the person charged, in which application shall be stated the name of the person so charged, the crime charged against him, the approximate time, place and circumstances of its commission, the state in which he is believed to be, including the location of the accused therein, at the time the application is made and certifying that, in the opinion of the said prosecuting attorney the ends of justice require the arrest and return of the accused to this state for trial and that the proceeding is not instituted to enforce a private claim.

II. When the return to this state is required of a person who has been convicted of a crime in this state and has escaped from confinement or broken the terms of his bail, probation or parole, the prosecuting attorney of the county in which the offense was committed, the parole board, or the warden of the institution or sheriff of the county, from which escape was made, shall present to the governor a written application for a requisition for the return of such person, in which application shall be stated the name of the person, the crime of which he was convicted, the circumstances of his escape from confinement or of the breach of the terms of his bail, probation or parole, the state in which he is believed to be, including the location of the person therein at the time application is made.

III. The application shall be verified by affidavit, shall be executed in duplicate and shall be accompanied by two certified copies of the indictment returned, or information and affidavit filed, or of the complaint made to the judge or magistrate, stating the offense with which the accused is charged, or of the judgment of conviction or of the sentence. The prosecuting officer, parole board, warden or sheriff may also attach such further affidavits and other documents in duplicate as he shall deem proper to be submitted with such application. One copy of the application, with the action of the governor indicated by

endorsement thereon, and one of the certified copies of the indictment, complaint, information, and affidavits, or of the judgment of conviction or of the sentence shall be filed in the office of the secretary of state to remain of record in that office. The other copies of all papers shall be forwarded with the governor's requisition.

24. Expenses. All expenses of officers of this state in connection with extradition proceedings under the provision of this act shall be paid out of the county treasury in the county wherein the crime is alleged to have been committed except as provided in the case of recommitment of certain paroled convicts as provided by section 38, chapter 369, of the Public Laws, as amended by chapter 66, of the Laws of 1935.

25. Immunity from Service of Process in Certain Civil Actions. A person brought into this state by, or after waiver of, extradition based on a criminal charge shall not be subject to service of personal process in civil actions arising out of the same facts as the criminal proceedings to answer which he is being or has been returned, until he has been convicted in the criminal proceeding, or if acquitted, until he has had reasonable opportunity to return to the state from which he was extradited.

26. Written Waiver of Extradition Proceedings. Any person arrested in this state charged with having committed any crime in another state or alleged to have escaped from confinement, or broken the terms of his bail, probation or parole may waive the issuance and service of the warrant provided for in sections 7 and 8 and all other procedure incidental to extradition proceedings, by executing or subscribing in the presence of a judge of any court of record within this state a writing which states that he consents to return to the demanding state; provided, however, that before such waiver shall be executed or subscribed by such person it shall be the duty of such judge to inform such person of his rights to the issuance and service of a warrant of extradition and to obtain a writ of *habeas corpus* as provided for in section 10. If and when such consent has been duly executed it shall forthwith be forwarded to the office of the governor of this state and filed therein. The judge shall direct the officer having such person in custody to deliver forthwith such person to the duly accredited agent or agents of the demanding state, and shall deliver or cause to be

delivered to such agent or agents a copy of such consent; provided, however, that nothing in this section shall be deemed to limit the rights of the accused person to return voluntarily and without formality to the demanding state, nor shall this waiver procedure be deemed to be an exclusive procedure or to limit the powers, rights or duties of the officers of the demanding state or of this state.

27. Non-waiver by This State. Nothing in this act contained shall be deemed to constitute a waiver by this state of its right, power or privilege to try such demanded person for crime committed within this state, or of its right, power or privilege to regain custody of such person by extradition proceedings or otherwise for the purpose of trial, sentence or punishment for any crime committed within this state, nor shall any proceedings had under this act which result in, or fail to result in, extradition be deemed a waiver by this state of any of its rights, privileges or jurisdiction in any way whatsoever.

28. No Right of Asylum; No Immunity from Other Criminal Prosecutions While in This State. Be it enacted by the Senate and House of Representatives in General Court convened:

1. Limited Partnership Defined. A limited partnership is a partnership formed by two or more persons under the provisions of section 2, having as members one or more general partners and one or more limited partners. The limited partners as such shall not be bound by the obligations of the partnership.

2. Formation. (1) Two or more persons desiring to form a limited partnership shall

(a) Sign and swear to a certificate, which shall state

- I. The name of the partnership,
 - II. The character of the business,
 - III. The location of the principal place of business,
 - IV. The name and place of residence of each member;

X. The right, if given, of a limited partner to substitute an assignee as contributor in his place, and the terms and conditions of the substitution,

XI. The right, if given, of the partners to admit additional limited partners,

XII. The right, if given, of one or more of the limited partners to priority over other limited partners, as to contributions or as to compensation by way of income, and the nature of such priority,

XIII. The right, if given, of the remaining general partner or partners to continue the business on the death, retirement or insanity of a general partner, and,

XIV. The right, if given, of a limited partner to demand and receive property other than cash in return for his contribution.

(b) File for record the certificate in the office of the secretary of state.

(2) A limited partnership is formed if there has been substantial compliance in good faith with the requirements of paragraph (1).

3. **Business Which May be Carried on.** A limited partnership may carry on any business which a partnership without limited partners may carry on.

4. **Character of Limited Partner's Contribution.** The contributions of a limited partner may be cash or other property, but not services.

5. **A Name Not to Contain Surname of Limited Partner; Exceptions.** (1) The surname of a limited partner shall not appear in the partnership name, unless (a) it is also the sur-

name of a general partner, or (b) prior to the time when the limited partner became such the business had been carried on under a name in which his surname appeared.

(2) A limited partner whose name appears in a partnership name contrary to the provisions of paragraph (1) is liable as a general partner to partnership creditors who extend credit to the partnership without actual knowledge that he is not a general partner.

6. Liability for False Statements in Certificate. If the certificate contains a false statement, one who suffers loss by reliance on such statement may hold liable any party to the certificate who knew the statement to be false, (a) at the time he signed the certificate, or (b) subsequently, but within a sufficient time before the statement was relied upon to enable him to cancel or amend the certificate, or to file a petition for its cancellation or amendment as provided in section 25 (3).

7. Limited Partner Not Liable to Creditors. A limited partner shall not become liable as a general partner unless, in addition to the exercise of his rights and powers as a limited partner, he takes part in the control of the business.

8. Admission of Additional Limited Partners. After the formation of a limited partnership, additional limited partners may be admitted upon filing an amendment to the original certificate in accordance with the requirements of section 25.

9. Rights, Powers and Liabilities of a General Partner. (1) A general partner shall have all the rights and powers and be subject to all the restrictions and liabilities of a partner in a partnership without limited partners, except that without the written consent or ratification of the specific act by all the limited partners, a general partner or all of the general partners have no authority to (a) do any act in contravention of the certificate, (b) do any act which would make it impossible to carry on the ordinary business of the partnership, (c) confess a judgment against the partnership, (d) possess partnership property, or assign their rights in specific partnership property, for other than a partnership purpose, (e) admit a person as a general partner, (f) admit a person as a limited partner, unless the right so to do is given in the certificate, (g) continue the business with partnership property on the death, retirement or insanity of a general partner, unless the right so to do is given in the certificate.

10. Rights of a Limited Partner. (1) A limited partner shall have the same rights as a general partner to (a) have the partnership books kept at the principal place of business of the partnership, and at all times to inspect and copy any of them, (b) have on demand true and full information of all things affecting the partnership, and a formal account of partnership affairs whenever circumstances render it just and reasonable, and (c) have dissolution and winding up by decree of court.

(2) A limited partner shall have the right to receive a share of the profits or other compensation by way of income, and to the return of his contribution as provided in sections 15 and 16.

11. Status of Person Erroneously Believing Himself a Limited Partner. A person who has contributed to the capital of a business conducted by a person or partnership erroneously believing that he has become a limited partner in a limited partnership, is not, by reason of his exercise of the rights of a limited partner, a general partner with the person or in the partnership carrying on the business, or bound by the obligations of such person or partnership; provided that on ascertaining the mistake he promptly renounces his interest in the profits of the business, or other compensation by way of income.

12. One Person Both General and Limited Partner. (1) A person may be a general partner and a limited partner in the same partnership at the same time.

(2) A person who is a general, and also at the same time a limited partner, shall have all the rights and powers and be subject to all the restrictions of a general partner; except that, in respect to his contribution, he shall have the rights against the other members which he would have had if he were not also a general partner.

13. Loans and Other Business Transactions with Limited Partner. (1) A limited partner also may loan money to and transact other business with the partnership, and, unless he is also a general partner, receive on account of resulting claims against the partnership, with general creditors, *pro rata* share of the assets. No limited partner shall in respect to any such claim (a) receive or hold as collateral security any partnership property, or (b) receive from a general partner or the

partnership any payment, conveyance, or release from liability, if at the time the assets of the partnership are not sufficient to discharge partnership liabilities to persons not claiming as general or limited partners.

(2) The receiving of collateral security, or a payment, conveyance, or release in violation of the provisions of paragraph (1) is a fraud on the creditors of the partnership.

14. Relation of Limited Partners *inter se*. Where there are several limited partners the members may agree that one or more of the limited partners shall have a priority over other limited partners as to the return of their contributions, as to their compensation by way of income, or as to any other matter. If such an agreement is made it shall be stated in the certificate, and in the absence of such a statement all the limited partners shall stand upon equal footing.

15. Compensation of Limited Partner. A limited partner may receive from the partnership the share of the profits or the compensation by way of income stipulated for in the certificate; provided, that after such payment is made, whether from the property of the partnership or that of a general partner, the partnership assets are in excess of all liabilities of the partnership except liabilities to limited partners on account of their contributions and to general partners.

16. Withdrawal or Reduction of Limited Partner's Contribution. (1) A limited partner shall not receive from a general partner or out of partnership property any part of his contribution until (a) all liabilities of the partnership, except liabilities to general partners and to limited partners on account of their contributions, have been paid or there remains property of the partnership sufficient to pay them, (b) the consent of all members is had, unless the return of the contribution may be rightfully demanded under the provisions of paragraph (2), and (c) the certificate is cancelled or so amended as to set forth the withdrawal or reduction.

(2) Subject to the provisions of paragraph (1) a limited partner may rightfully demand the return of his contribution (a) on the dissolution of a partnership, or (b) when the date specified in the certificate for its return has arrived, or (c) after he has given six months' notice in writing to all other members, if no time is specified in the certificate either for the

return of the contribution or for the dissolution of the partnership.

(3) In the absence of any statement in the certificate to the contrary or the consent of all members, a limited partner, irrespective of the nature of his contribution, has only the right to demand and receive cash in return for his contribution.

(4) A limited partner may have the partnership dissolved and its affairs wound up when (a) he rightfully but unsuccessfully demands the return of his contribution, or (b) the other liabilities of the partnership have not been paid, or the partnership property is insufficient for their payment as required by paragraph (1) (a) and the limited partner would otherwise be entitled to the return of his contribution.

17. Liability of Limited Partner to Partnership. (1) A limited partner is liable to the partnership (a) for the difference between his contribution as actually made and that stated in the certificate as having been made, and (b) for any unpaid contribution which he agreed in the certificate to make in the future at the time and on the conditions stated in the certificate.

(2) A limited partner holds as trustee for the partnership (a) specific property stated in the certificate as contributed by him, but which was not contributed or which has been wrongfully returned, and (b) money or other property wrongfully paid or conveyed to him on account of his contribution.

(3) The liabilities of a limited partner as set forth in this section can be waived or compromised only by the consent of all members; but a waiver or compromise shall not affect the right of a creditor of a partnership who extended credit or whose claim arose after the filing and before a cancellation or amendment of the certificate, to enforce such liabilities.

(4) When a contributor has rightfully received the return in whole or in part of the capital of his contribution, he is nevertheless liable to the partnership for any sum, not in excess of such return with interest, necessary to discharge its liabilities to all creditors who extended credit or whose claims arose before such return.

18. Nature of Limited Partner's Interest in Partnership. A limited partner's interest in the partnership is personal property.

19. Assignment of Limited Partner's Interest. (1) A limited partner's interest is assignable.

(2) A substituted limited partner is a person admitted to all the rights of a limited partner who has died or has assigned his interest in a partnership.

(3) An assignee, who does not become a substituted limited partner, has no right to require any information or account of the partnership transactions or to inspect the partnership books; he is only entitled to receive the share of the profits or other compensation by way of income, or the return of his contribution, to which his assignor would otherwise be entitled.

(4) An assignee shall have the right to become a substituted limited partner if all the members (except the assignor) consent thereto or if the assignor, being thereunto empowered by the certificate, gives the assignee that right.

(5) An assignee becomes a substituted limited partner when the certificate is appropriately amended in accordance with section 25.

(6) The substituted limited partner has all the rights and powers, and is subject to all the restrictions and liabilities of his assignor, except those liabilities of which he was ignorant at the time he became a limited partner and which could not be ascertained from the certificate.

(7) The substitution of the assignee as a limited partner does not release the assignor from liability to the partnership under sections 6 and 17.

20. Effect of Retirement, Death or Insanity of a General Partner. The retirement, death or insanity of a general partner dissolves the partnership, unless the business is continued by the remaining general partners (a) under a right so to do stated in the certificate, or (b) with the consent of all members.

21. Death of Limited Partner. (1) On the death of a limited partner his executor or administrator shall have all the rights of a limited partner for the purpose of settling his estate, and such power as the deceased had to constitute his assignee a substituted limited partner.

(2) The estate of a deceased limited partner shall be liable for all his liabilities as a limited partner.

22. Rights of Creditors of Limited Partner. (1) On due

application to a court of competent jurisdiction by any judgment creditor of a limited partner, the court may charge the interest of the indebted limited partner with payment of the unsatisfied amount of the judgment debt; and may appoint a receiver, and make all other orders, directions, and inquiries which the circumstances of the case may require.

(2) The interest may be redeemed with the separate property of any general partner, but may not be redeemed with partnership property.

(3) The remedies conferred by paragraph (1) shall not be deemed exclusive of others which may exist.

(4) Nothing in this act shall be held to deprive a limited partner of his statutory exemption.

23. Distribution of Assets. (1) In settling accounts after dissolution the liabilities of the partnership shall be entitled to payment in the following order: (a) Those to creditors, in the order of priority as provided by law, except those to limited partners on account of their contributions, and to general partners, (b) those to limited partners in respect to their share of the profits and other compensation by way of income on their contributions, (c) those to limited partners in respect to the capital of their contributions, (d) those to general partners other than for capital and profits, (e) those to general partners in respect to profits, (f) those to general partners in respect of capital.

(2) Subject to any statement in the certificate or to subsequent agreement, limited partners share in the partnership assets in respect to their claims for capital, and in respect to their claims for profits or for compensation by way of income on their contributions respectively, in proportion to the respective amounts of such claims.

24. When Certificate Shall be Cancelled or Amended. (1) The certificate shall be cancelled when the partnership is dissolved or all limited partners cease to be such.

(2) A certificate shall be amended when (a) there is a change in the name of the partnership or in the amount or character of the contribution of any limited partner, (b) a person is substituted as a limited partner, (c) an additional limited partner is admitted, (d) a person is admitted as a general partner, (e) a general partner retires, dies or becomes insane, and the business is continued under section 20, (f) there

is a change in the character of the business of the partnership, (g) there is a false or erroneous statement in the certificate, (h) there is a change in the time as stated in the certificate for the dissolution of the partnership or for the return of a contribution, (i) a time is fixed for the dissolution of the partnership, or the return of a contribution, no time having been specified in the certificate, or (j) the members desire to make a change in any other statement in the certificate in order that it shall accurately represent the agreement between them.

25. Requirements for Amendment and for Cancellation of Certificate. (1) The writing to amend a certificate shall (a) conform to the requirements of section 2 (1) (a) as far as necessary to set forth clearly the change in the certificate which it is desired to make, and (b) be signed and sworn to by all members, and an amendment substituting a limited partner or adding a limited or general partner shall be signed also by the member to be substituted or added, and when a limited partner is to be substituted, the amendment shall also be signed by the assigning limited partner.

(2) The writing to cancel a certificate shall be signed by all members.

(3) A person desiring the cancellation or amendment of a certificate, if any person designated in paragraphs (1) and (2) as a person who must execute the writing refuses to do so, may petition the superior court in and for any county in which the partnership is doing or has been doing any business to direct a cancellation or amendment thereof.

(4) If the court finds that the petitioner has a right to have the writing executed by a person who refuses to do so, it shall order the secretary of state or deputy secretary of state to record the cancellation or amendment of the certificate; and where the certificate is to be amended, the court shall also cause to be filed for record in said office a certified copy of its decree setting forth the amendment.

(5) A certificate is amended or cancelled when there is filed for record in the office of the secretary of state where the certificate is recorded (a) a writing in accordance with the provisions of paragraph (1), or (2) or (b) a certified copy of the order of court in accordance with the provisions of paragraph (4).

(6) After the certificate is duly amended in accordance

with this section, the amended certificate shall thereafter be for all purposes the certificate provided for by this act.

26. Parties to Actions. A contributor, unless he is a general partner, is not a proper party to proceedings by or against a partnership, except where the object is to enforce a limited partner's right against or liability to the partnership.

27. Title. This act may be cited as The Uniform Limited Partnership Act.

28. Rules of Construction. (1) The rule that statutes in derogation of the common law are to be strictly construed shall have no application to this act.

(2) This act shall be so interpreted and construed as to effect its general purpose to make uniform the law of those states which enact it.

(3) This act shall not be so construed as to impair the obligations of any contract existing when the act goes into effect, nor to affect any action or proceedings begun or right accrued before this act takes effect.

29. Rules for Cases Not Provided for in this Act. In any case not provided for in this act the rules of law and equity, including the law merchant, shall govern.

30. Existing Limited Partnerships and Limited Partnerships Organized Elsewhere. (1) Any limited partnership heretofore formed under any statute of this state and existing at the time of the adoption of this act, and the general and limited partners composing the same, shall be subject to the provisions of and entitled to all the benefits of this act; except that any certificates and affidavits heretofore recorded and published as required by the limited partnership statute in effect in this state at the time of such recording or publication shall be deemed a full compliance with the provisions of this act.

(2) A partnership heretofore or hereafter formed under the statutes of another state shall be a limited partnership under this act and qualified to do business as such in this state upon compliance with the provisions of this act in the same manner as if formed under the provisions of this act.

AN ACT RELATING TO LINES OF TELEGRAPH AND OTHER COMPANIES IN HIGHWAYS.

SECTION

1. Lines of wire, cables, etc.
2. Action on petition.
3. Dissatisfaction of party in interest.

SECTION

4. State highways and trunk lines.
5. Authority to grant.
6. Licenses.
7. Takes effect.

Be it enacted by the Senate and House of Representatives in General Court convened:

1. Lines of Wire, Cables, etc. Amend section 2, chapter 97, Public Laws, as inserted by chapter 100 of the Laws of 1935, by striking out said section and inserting in place thereof the following: **2. Locating.** Any such person, copartnership or corporation, desiring to erect or install any such poles, structures, conduits, cables or wires in, under or across any such highway, may petition the selectmen of the town in which such highway is situated to grant a license therefor. If the public good requires, the selectmen shall grant a license for erecting or installing and maintaining the poles, structures, conduits, cables or wires described in the petition. The selectmen in such license shall designate and define the maximum and minimum length of poles, the maximum and minimum height of structures, the approximate location of such poles and structures and the minimum distance of wires above and of conduits or cables below the surface of the highway and in their discretion the approximate distance of such poles from the edge of the traveled roadway or of the sidewalk. Such designation and definition of location may be by reference to a map or plan filed with or attached to the petition or license. In connection with such a petition the petitioner may also petition such selectmen to grant a permit for such poles, structures, conduits, cables or wires. If the public good requires, the selectmen shall grant a permit for erecting or installing and maintaining such poles, structures, conduits, cables or wires. Such permit shall be effective for such term as they may determine, but not exceeding one year from the date of grant thereof, and may upon petition be extended for a further term not exceeding one year. Such permit shall designate and define in a general way the location of the poles, structures, conduits, cables or wires described in the petition therefor. Except

as herein otherwise provided, the holder of such permit shall during the term thereof be entitled to have and exercise all the rights, privileges and immunities and shall be subject to all the duties and liabilities granted or imposed by this chapter upon the holder of a license hereunder. After the poles, structures, conduits, cables or wires have been erected or installed pursuant to such permit and on or before the expiration thereof, the selectmen shall, if the public good requires, grant a license therefor as aforesaid. The word "license" as hereinafter used in this chapter except in section 5 shall be construed to include the word permit. The holder of such a license (hereinafter referred to as licensee) shall thereupon and thereafter be entitled to exercise the same and to erect or install and maintain any such poles, structures, conduits, cables and wires in approximately the location designated by such license and to place upon such poles and structures the necessary and proper guys, cross-arms, fixtures, transformers and other attachments and appurtenances which are required in the reasonable and proper operation of the business carried on by such licensee, together with as many wires and cables of proper size and description as such poles and structures are reasonably capable of supporting during their continuance in service; and to place in such underground conduits such number of ducts, wires and cables as they are designed to accommodate and to supply and install in connection with such underground conduits and cables the necessary and proper manholes, drains, transformers and other accessories which may reasonably be required. In cities, the board of mayor and aldermen or other board having authority to locate poles and wires shall exercise the powers and duties prescribed in this chapter for selectmen; and they are hereby authorized to delegate all or any part of the powers conferred upon them by the provisions of this section to such agents as they may duly appoint.

2. Action on Petition. Amend section 5 of said chapter 97, as inserted by chapter 100 of the Laws of 1935, by striking out said section and inserting in place thereof the following: **5. Return; Record.** The selectmen or the board of mayor and aldermen or other board having authority to locate poles and wires in cities, or the state highway commissioner, within thirty days after any petition authorized by this chapter has been presented for action, shall make a return of their pro-

ceedings and their decision thereon; provided, however, that if a permit is granted upon petition therefor, return and decision upon the petition for license presented with such petition for permit shall be made on or before the expiration of such permit. They shall cause the petition for license and their return to be recorded by the clerk of the city or town in which the poles, structures, conduits, cables or wires are located.

3. Dissatisfaction of Parties in Interest. Amend section 7 of said chapter 97, as inserted by chapter 100 of the Laws of 1935, by striking out said section and inserting in place thereof the following: **7. Petition to Court.** If the selectmen or the board of mayor and aldermen or other board having authority to locate poles and wires in cities, or the state highway commissioner, shall neglect or refuse to decide and make return of their proceedings upon any petition authorized by this chapter within the times limited by section 5, or if any party whose interests are affected by their decision on any such petition or in granting a license, changing the terms thereof or revoking the same, is dissatisfied therewith, the petitioner or party so dissatisfied may apply to the superior court for relief within sixty days after the expiration of the times limited by section 5 or after such decision; and like proceedings shall thereupon be had as in the case of appeals from the laying out of highways.

4. State Highways and Trunk Lines. Amend section 9 of said chapter 97, as inserted by chapter 100 of the Laws of 1935, by striking out said section and inserting in place thereof the following: **9. Jurisdiction of Highway Commissioner.** Petitions filed under sections 2 and 3 of this chapter involving state highways or trunk lines as defined in section 1 of chapter 84 of the Public Laws or any other highway or portion thereof which at the time is maintained in whole or in part with state funds, shall be addressed to the state highway commissioner, who shall have exclusive jurisdiction of the disposition of such petitions to the same effect as is provided for selectmen in other cases, and also shall have like jurisdiction for changing the terms of any such license or for assessing damages as provided in this chapter. The state highway commissioner shall also have the same authority as conferred upon the selectmen by section 4 of this chapter to revoke or change the terms and conditions of any such license. The state highway commissioner is hereby authorized to delegate

all or any part of the powers conferred upon him by the provisions of this section to such agent or agents as he may duly appoint in writing; the state highway commissioner shall cause such appointments, including such as may have been heretofore made by him, to be recorded in the office of the secretary of state, who shall keep a record thereof. The location of poles licensed upon such petitions shall be entered by the state highway department upon the existing record plans of said department, at the expense of the licensees. On record plans of said department prepared on or after the effective date of this act, such locations shall be entered without cost to the licensee.

5. Authority to Grant. Amend section 11 of said chapter 97, as inserted by chapter 100 of the Laws of 1935, by striking out said section and inserting in place thereof the following: **11. Joint Licenses.** Joint licenses for erecting or installing and maintaining any jointly owned poles, structures, conduits, cables and wires may be granted under the provisions of this chapter to two or more petitioners.

6. Licenses. Amend said chapter 97, as inserted by chapter 100 of the Laws of 1935, by adding after section 11 the following new section: **11-a. Transfer of —.** In connection with the transfer of all or any interest in any poles, structures, conduits, cables or wires, the transferor may by appropriate assignment transfer his or its license to maintain the same and the transferee shall be entitled to have and exercise such license to the extent necessary for his or its use of the transferred property, upon recording such assignment with the clerk of the town in which said property is situated.

7. Takes Effect. This act shall take effect upon its passage.

After the application of the value as a credit, the amount of the loan shall forthwith be reduced to an equal extent, and the owner shall thereafter be liable for only the reduced amount and any arrearages or penalties occasioned by his own default.

No action under this section shall affect the rights of the holder, other than the corporation granting the accommodation, of any mortgage recorded prior to May first, 1937, unless the written assent of such holder shall be obtained, nor shall any such action affect the rights of an original borrower whose note is dated prior to said date, unless his written assent shall be obtained.

Subject to the approval of the bank commissioner it may also be used to maintain the distribution of profits at the same rate of interest and for any other purpose. The board of directors may at any time, by vote duly recorded, transfer to the guaranty fund the whole or any part of any surplus or reserve under whatever name, and may increase such funds to a sum equal to ten per cent of the total liabilities.

5. Amount. Amend section 25 of said chapter 266, as amended by section 2, chapter 82, Laws of 1935, by striking out the words "ten per cent" in the sixth line thereof and inserting in place thereof the words twenty per cent, so that said section as amended shall read as follows: **25. Such single payment shares shall be issued for the consideration of the initial payment only and no further payment shall be accepted on account thereof. Profits and dividends accruing thereon shall be added to the initial payment until the value of each share reaches two hundred dollars, when it shall be paid to the shareholder and the share shall be retired or paid-up certificates issued therefor under section 21 hereof. A holder of a single share certificate shall have the right of withdrawal prescribed by sections 17 and 18 hereof subject to the limitations therein set forth but such withdrawal must be exercised as to the whole of the value of the share at the time of withdrawal and the association shall retain as a penalty for such withdrawal one fourth of the amount by which the value at the time of withdrawal exceeds the initial payment. Single payment shares may be paid off at any time at the option of the board of directors provided thirty days' notice of the payment date shall have been given to the holder. The said notice may not be waived. No person shall hold more than twenty-five single payment shares.

Be it enacted by the Senate and House of Representatives in General Court convened:

1. Definitions. Terms used in this act shall be construed as follows unless a different meaning is clearly apparent from the language or context:

“Board,” means the milk control board as constituted herein.

“Person,” means any person, association, firm, partnership or corporation or co-operative association.

“Distributor,” means any person who produces and sells, or who purchases for sale or sells, more than two quarts of milk daily within the state for consumption, disposition or use within the state, except those who sell milk for consumption on the premises. A producer who delivers or sells milk to a distributor only shall not be deemed a distributor.

“Market,” means any city, town or village, or two or more of the same designated by the board as a natural marketing area.

“Milk,” means fluid milk, cream, skim milk or buttermilk, fresh, sour or storage, irrespective of whether or not such milk is flavored.

“Producer,” means any person who produces milk within the state.

2. Board Constituted. There shall be a Milk Control

Board to consist of three members, no more than two of whom shall be of the same political party, to be appointed by the governor with the advice and consent of the council, for a term of three years, except the first board, whose members shall be appointed for terms of one, two and three years, respectively. The term of each member shall be fixed in his commission and each shall continue in office until his successor has been appointed and qualified. One member shall be designated by the governor as chairman. If a vacancy shall occur in said board, it shall be filled for the unexpired term by the governor with advice and consent of the council.

3. Compensation. The members of said board shall be paid seven dollars a day, each, for such time as they are actually engaged in the service of the state and their actual expenses.

4. Assistants. Said board, with the approval of the governor and council, may employ and fix the salaries of a secretary and such assistants as may be necessary.

5. Duties. It shall be the duty of the board to be informed at all times as to the supply, production and quality of milk in the state that the public may be assured of an adequate daily production in the state of a proper quantity and quality. It shall be the duty of the board further to be informed at all times as to the transportation, processing, storage and distribution of milk sold, consumed or used in the state. To the end that no part of the state shall lose or have impaired its reasonable requirements of milk of a proper quality, the board shall have power to supervise, regulate and control the production, distribution and sale of milk within the state. To the end of safeguarding and protecting the public from the harm and economic loss it would sustain if the production of milk was substantially curtailed, the board shall secure the cooperation of those engaged in the industry to maintain fair and lawful trade practices. The authority herein conferred shall supplement and be in addition to but not in lieu of existing laws relating to transportation of milk, its inspection, testing, the powers of the public service commission, the state board of health and local health ordinances and regulations and the requirements of chapters 163 and 164 of the Public Laws.

6. Authority to Fix Price. Whenever the board shall determine, either upon complaint or upon its own initiative, after

public notice and hearing, that the public health is menaced, jeopardized or likely to be impaired or deteriorated by the loss or substantial lessening of a supply of milk of proper quality in a specified market, the board shall fix the just and reasonable minimum or maximum prices, or both, that shall be paid producers or associations of producers by distributors, and the manner of payment and the prices charged consumers and others for milk by distributors, as long as such condition is found to prevail in such market. The prices so fixed need not be uniform in all markets and may be changed from time to time after such notice and public hearing as deemed by the board in the public interest. Nothing herein shall be construed to prohibit a producers' co-operative, organized under chapter 224 of the Public Laws or similar laws of other states, from blending the proceeds from the sale of its milk in all markets and all classifications, and distributing such to its members in accordance with a contract with its members, or in making deductions from sums due members of such sums as may be authorized by the membership to be so deducted.

7. Accepting Established Grades. The board may accept established and defined classes and grades of milk or may establish and define such classes and grades, and shall specify to what classes or grades the prices fixed pursuant to section 6 hereof shall apply.

8. Licenses; Fees. All distributors in any market designated by said board shall be licensed by said board. The annual fee for such license shall be two dollars for distributors selling more than two quarts and not more than twenty quarts daily average, four dollars for distributors selling more than twenty quarts and not more than fifty quarts daily, seven dollars and fifty cents for distributors selling more than fifty quarts and not more than one hundred quarts daily, ten dollars for distributors selling more than one hundred quarts and not more than two hundred quarts daily, and for each additional one hundred quarts or fraction thereof daily sold by a distributor there shall be an additional license fee of five dollars. In determining the foregoing fees sales made by a distributor to the public over the counter, not for consumption on the premises, shall not be included in determining the number of quarts sold daily. Such over-the-counter distributor shall pay an annual fee for such license of one dollar. The board may,

upon proper evidence, decline to grant and may, after due notice and public hearing, suspend or revoke, a license. Violation by a distributor of the provisions hereof or any rule or regulation made hereunder, or conviction of violating the health laws or regulations of the state board of health, shall be sufficient cause to suspend, revoke or withhold such distributor's license. Any distributor who fails to take out a license hereunder shall be subject to the penalties provided for in section 12 hereof.

9. Records and Examination. All distributors in any market specified by the board as one in which it is in the public interest to regulate the supply, production and quality of milk, shall keep such records and make such reports as the board may reasonably require. All other distributors shall keep such records and make such reports as the board may reasonably require to keep it informed at all times as to the adequacy of such supply, production and quality of milk. Any member of the board or its representative shall have access to and may enter and examine, at all reasonable hours, all places where milk is produced, handled, distributed or sold and examine all books and records kept.

10. Administration, Rules and Regulations. In administering this act the board shall have the power to make orders hereunder, conduct hearings, subpoena and examine under oath producers and distributors, their books, records, documents, correspondence and accounts, and any other person it deems necessary to carry out the purposes and intent of this act. The board may adopt, promulgate and enforce such reasonable rules and regulations as are deemed necessary to carry out the provisions of this act.

11. Disposition of Revenue. All moneys received by the board from license fees and fines shall be paid promptly into the state treasury. All moneys received by the state treasurer under the provisions hereof shall be available for the general revenue of the state.

12. Penalties. Anyone violating any provision of this act or order hereunder, or any rule or regulation of the board made hereunder, or failing to answer a subpoena or to testify before the board, shall be fined not exceeding one hundred dollars or be imprisoned for not more than one year, or both, and each day during which such violation shall continue shall

be deemed a separate violation. The court imposing such penalty, within five days of the receipt of such fine, shall send the same to the board.

13. Conferences Authorized. The board shall have power to confer and agree with legally constituted similar boards or authorities of other states, or agencies of the federal government, and to adopt necessary regulations to effect a uniformity in regulation and assure an adequate and proper milk supply in New Hampshire.

14. Motion for Rehearing. Within twenty days after any order or decision has been made by the board, any party to the action or proceeding before the board or any person directly affected thereby, may apply for a rehearing in respect to any matter determined in the action or proceeding, or covered or included in the order, specifying in the motion for rehearing the ground therefor, and the board may grant such rehearing if in its opinion good reason therefor is stated in said motion.

15. Specifications. Such motion shall set forth fully every ground upon which it is claimed that the decision or order complained of is unlawful or unreasonable. No appeal from any order or decision of the board shall be taken unless the appellant shall have made application for rehearing as herein provided, and when such application shall have been made, no ground not set forth therein shall be urged, relied on or given any consideration by the court, unless the court for good cause shown shall allow the appellant to specify additional grounds.

16. Action on Motion. Upon the filing of such motion for rehearing, the board shall within ten days either grant or deny the same, or suspend the order or decision complained of pending further consideration, and any order of suspension may be upon such terms and conditions as the board may prescribe.

18. Petition. Such petition shall state briefly, (1) the nature of the proceeding before the board, and (2) shall set forth the order or decision complained of, and (3) the grounds

upon which the same is claimed to be unlawful or unreasonable upon which the petitioner will rely in the supreme court.

19. Parties. Any person whose rights may be directly affected by said appeal may appear and become a party, or the court may order such persons to be joined as parties, as justice may require.

20. Notice to Board. Upon the filing of an appeal, the clerk of court shall issue an order of notice requiring the board to file with the court a certified copy of the record in the proceeding, together with such of the evidence introduced before or considered by the board as may be specified by any party in interest, as well as such other evidence, so introduced and considered, as the board may deem proper to certify, together with the originals or copies of all exhibits introduced in evidence before the board.

21. Other Notice. Such notice as the court may order shall also be given to persons who were parties to the proceeding before the board or who may be ordered joined by the court.

24. Burden of Proof. Upon the hearing the burden of proof shall be upon the party seeking to set aside any order or decision of the board to show that the same is clearly unreasonable or unlawful, and all findings of the board upon all questions of fact properly before it shall be deemed to be *prima facie* lawful and reasonable; and the order or decision appealed from shall not be set aside or vacated except for errors of law, unless the court is satisfied, by a clear preponderance of the evidence before it, that such order is unjust or unreasonable.

25. Additional Evidence. No new or additional evidence

shall be introduced in the supreme court, but the case shall be determined upon the record and evidence transferred, except that in any case, if it shall be necessary in order that no party shall be deprived of any constitutional right, or if the court shall be of the opinion that justice requires the reception of evidence of facts which have occurred since the hearing, or which by reason of accident, mistake or misfortune could not have been offered before the board, it may receive and consider additional evidence.

26. Taking. Such additional evidence may be taken before a single justice or otherwise, as the court may order.

27. Stay of Proceedings. If the court in any case shall hear new evidence such new evidence shall, upon the motion of any party, be transmitted by copy to the board, and all proceedings shall be stayed for twenty days from the date of such transmission.

28. Action of Board. Upon receipt of such evidence, the board shall consider the same and may alter, modify, amend or rescind the order or decision appealed from, and shall report its action thereon to the court within said twenty days.

29. Subsequent Proceedings. If the board shall rescind the order appealed from the appeal shall be dismissed; if it shall alter, modify or amend the same such altered, modified or amended order shall take the place of the original order complained of, and the court shall render judgment with reference thereto in said appeal as though said order had been made by the board in the first instance, after allowing any amendments of the pleadings or other incidental proceedings desired by the parties which the changed situation may require.

30. Evidence, How Considered. All evidence transferred by the board shall be, and all additional evidence received may be, considered by the court regardless of any technical rule which might have rendered the same inadmissible if originally offered in the trial of an action at law.

31. Judgment. The final judgment upon every appeal shall be a decree dismissing the appeal, or vacating the order complained of in whole or in part, as the case may be; but in case such order is wholly or partly vacated, the court may also, in its discretion, remand the matter to the board for such further proceedings, not inconsistent with the decree, as in the opinion of the board justice may require.

32. Suspension of Order. No appeal or other proceedings taken from an order of the board shall suspend the operation of such order; provided that the supreme court may order a suspension of such order pending the determination of such appeal or other proceedings whenever, in the opinion of the court, justice may require such suspension.

33. Remedy Exclusive. No proceeding other than the appeal herein provided for shall be maintained in any court of this state to set aside, enjoin the enforcement of or otherwise review or impeach any order of the board, except as otherwise specially provided.

34. Constitutionality. If any provision of this act or the application thereof to any person or circumstances is held invalid, the remainder of the act and the application of such provisions to other persons and circumstances shall not be affected thereby.

35. Interstate Commerce. Nothing herein shall be construed as applying to interstate or foreign commerce except as may be permitted by the federal constitution and laws enacted thereunder.

36. Appropriation. There is hereby appropriated the sum of twelve thousand dollars for each of the fiscal years beginning July 1, 1937, and July 1, 1938, for the purposes of this act and the governor is authorized to draw his warrant for the same out of any money in the treasury not otherwise appropriated.

37. Repeal. Chapter 21 of the Laws of 1935, relative to the distribution and sale of milk, is hereby repealed.

38. Takes Effect. This act shall take effect July 1, 1937.

Be it enacted by the Senate and House of Representatives in General Court convened:

1. New Chapter. Amend chapter 270 of the Public Laws by striking out all of said chapter and inserting in place thereof the following:

CHAPTER 270

PUBLIC ACCOUNTANCY

1. Definition. When used in this chapter the term "certified public accountant" means a person skilled in the science and practice of accountancy who has received from the board of accountancy hereinafter created a certificate of his qualifications to practice as a certified public accountant, or who at the time of the passage of this chapter was legally registered as a public accountant.

2. Board of Accountancy. There is hereby created a board of accountancy to consist of three members to be appointed by the governor with the advice and consent of the council, all of whom shall be holders of certificates issued under the provisions of this chapter or under the provisions of chapter 127 of the Laws of 1921 heretofore known as chapter 270 of the

Public Laws. Members of the board must have held certificates as certified public accountants from the state of New Hampshire for a period of at least five years immediately preceding their appointment. At least two members of the board shall be actively engaged in the practice of public accounting at the time of their appointment. Those first appointed shall hold office, one for one year, one for two years, and one for three years and until their successors are appointed and qualified, the term of each to be designated by the governor and council in each appointment. Their successors shall be appointed for terms of three years and until their successors are appointed and qualified. No person shall be appointed to serve more than two consecutive terms. Vacancies occurring in the board may be filled by the governor with the advice and consent of the council by appointment for the unexpired term. The governor may, with the advice and consent of the council, after hearing, remove any member of the board for neglect of duty or other just cause. The board shall organize by the election of a chairman and a secretary-treasurer and may make all rules and regulations necessary to carry into effect the purposes of this act. A majority of members acting as a board shall constitute a quorum for the transaction of business. The board shall have a seal which shall be judicially noticed. The board shall keep a record of all the proceedings and actions by and before the board, and in any proceeding in a court a certificate under the seal of the board shall be *prima facie* evidence of any proceeding or action by or before the board stated in said certificate. Members of the board shall be compensated in the amount of five dollars per day for each day actually engaged in the duties of the office. In addition the secretary-treasurer shall be compensated in the amount of fifty dollars (\$50) per annum.

3. **Certificates.** The certificate of certified public accountant shall be granted by the board to any person who is a citizen of the United States, and who is a resident of the state of New Hampshire and has a place of business or is employed therein at the time of his application, and who is over the age of twenty-one years, and who is of good moral character, and who is a graduate of a high school with a four years' course or has had an equivalent education, and who shall have been in the employ of a certified public accountant for a period of at

least four years or who, in the opinion of the board, has had similar responsible experience, and who shall have successfully passed examinations in the theory and practice of general accounting, in auditing, in commercial law, and in such other related subjects as the board may deem advisable. This section is subject to the exceptions contained in section 5 of this chapter.

4. Examinations. All examinations provided for herein shall be conducted by the board. The examinations shall take place as often as may be necessary in the opinion of the board but not less frequently than once each year. The time and place of holding examinations shall be designated by the board. A candidate who shall have passed a satisfactory examination in all but one of the subjects given by the board for examination may be re-examined in that subject only, at subsequent examinations held by the board, and if he passes in that subject, he shall be considered to have passed the examination. Nothing in this law shall be construed as prohibiting the re-examination in all subjects of a candidate who has failed in a prior examination.

5. Exceptions. Nothing herein shall be construed as revoking any certificate as certified public accountant issued under chapter 127 of the Laws of 1921, hitherto known as chapter 270 of the Public Laws of the state of New Hampshire, provided that the holders of such certificates have complied with the provisions of annual registration, provided for in chapter 270 of the Public Laws of New Hampshire. The board of accountancy may, in its discretion waive the examination and residence requirements provided by section 3 of this chapter, and may issue a certificate as certified public accountant to any person possessing the other qualifications mentioned in section 3 of this chapter who is the holder of a certificate as certified public accountant issued under the laws of any state or territory, provided the requirements for such certificate in the state or territory which has granted it to the applicant are in the opinion of the board equivalent to those herein required; or who is the holder of a certificate as certified public accountant or the equivalent thereof issued in any foreign country, provided the requirements for such certificates are in the opinion of the board equivalent to those herein required; and further provided that such states, territories, or foreign

countries shall have reciprocal agreement with this state, whereby a resident of the state of New Hampshire holding a certificate as a certified public accountant, under the laws of the state of New Hampshire, may, upon application, obtain a certificate as a certified public accountant from said state, territory, or foreign country.

6. Revocation. The board of accountancy by majority vote thereof may permanently revoke or temporarily suspend the effect of the certificate of any certified public accountant who has been convicted of a felony by the courts of this state, or any other state, or has been guilty of any fraud or deceit in obtaining such certificate, or who has been guilty of wilful negligence or wrongful conduct in the practice of professional accountancy. Notice of the cause for such contemplated action and the date of hearing thereon by the board shall be mailed to the holder of such certificate at his or her registered address at least twenty days before said hearing. No certificate shall be revoked or the effect thereof suspended until the board shall have had such hearing, but the non-appearance of the holder of any certificate after notice as herein provided shall not prevent such hearing. At all such hearings the attorney-general, or an assistant designated by him shall appear and represent the interests of the public. By majority vote the board may reissue the certificate of any certified public accountant whose certificate shall have been revoked and may modify the effect of the suspension of any certificate which has been suspended.

7. Fees. The board of accountancy shall charge for the examinations provided for in this act the fee of twenty-five dollars. This fee shall be payable by the applicant at the time of making his or her initial application. In case the application is rejected, the fee shall be refunded. Should the applicant fail to pass the required examination, re-examination or subsequent examinations shall be given the same applicant for an additional fee of ten dollars for each examination. No additional fee shall be charged for the certificate of a successful applicant.

8. Annual Registration. All such certified public accountants shall practice in this state for one year after admission thereto. Annually, each certified public accountant shall register at the office of the board of accountancy giving his

then residence and place of business and such other information as the board may require. The annual fee for such registration shall be five dollars, to be paid to said board. Said board shall thereupon file a duplicate of the registration in the office of the secretary of state. Said accountant shall be entitled to a certificate from said board setting forth the fact of the annual registration, payment of the fee and recording thereof. The fees collected under this chapter shall be paid into the state treasury, and the state treasurer, on warrant of the governor, shall pay out of the funds so paid into the treasury all expenses incident to the examinations, the expenses of issuing certificates and fees and expenses of the members of the board while performing their duties under this chapter, and shall also place in the hands of the board of accountancy as a working fund such sums as the governor may approve, the same to be advanced out of the fees paid into the treasury by the board. An account thereof shall be made to the state treasurer monthly, or as much oftener as the governor and council shall direct. No expenses incurred under this chapter shall be a charge against the general funds of the state. The board shall annually report the number of certificates issued and the receipts and expenses under this chapter during each fiscal year to the governor and council.

9. Neglect. The name of any certified public accountant who fails to register within one month of the annual date of his admission to practice in this state shall be dropped from the records of the board and his certificate, as a certified public accountant, shall be forfeited, provided, however, that the board of accountancy may have the power to reinstate said certificate upon receipt of application and due consideration of the circumstances in connection with the case.

10. Penalties. If any person shall represent himself or herself to the public as having received a certificate as provided for in this chapter, or shall assume to practice as a certified public accountant without having received such certificate, or if any person having received such certificate shall thereafter lose the same by revocation or have the effect of the same suspended as provided for in this chapter and shall continue to practice as a certified public accountant, or if any person shall use such title, or the abbreviation "C. P. A.," or any other words, letters, or abbreviations tending to indicate that such person

is a certified public accountant without having received such certificate or after such certificate has been revoked or while it is suspended, such person shall be fined not exceeding five hundred dollars or be imprisoned not exceeding six months, or both such fine and imprisonment in the discretion of the court.

11. False Statements. If any person acting in the capacity of an accountant wilfully makes any false or misleading statement in writing in regard to any financial transaction or account, such person shall be fined not exceeding five hundred dollars, or be imprisoned not exceeding six months, or both such fine and imprisonment in the discretion of the court.

12. Firms, etc. Nothing contained in this chapter shall prevent the use in professional accounting practice of a firm name or partnership name, provided that partners or managers of such firm or partnership directly engaged in the conduct of such practice within this state shall hold certificates issued under this chapter, and nothing contained in this chapter shall prevent the employment of uncertified persons in subordinate capacities by a certified public accountant or by a firm or partnership, the resident partners or managers of which are certified public accountants.

13. Property in Records, etc. All statements, records, schedules, and memoranda made by a certified public accountant or by an employee or employees of a certified public accountant incident to or in the course of professional service to clients by such certified public accountant, except reports submitted by a certified public accountant to a client, shall be and remain the property of such certified public accountant, in the absence of written agreement between the certified public accountant and the client to the contrary.

14. Saving Clause. If any provision of this chapter or the application thereof to any person or circumstances is held invalid, the remainder of the act and the application of such provision to other persons or circumstances shall not be affected thereby.

2. Takes Effect. This act shall take effect upon its passage.

Amend section 1 of chapter 121 of the Laws of 1935 by inserting after the words "conservation and distribution of water" the words, and the regulation of the flow of rivers and streams, and by adding at the end thereof the following: It is further declared that there is a special public need for dams and reservoirs at strategic locations for regulating the flow of rivers and streams to lessen damages resulting from floods and to promote the state's industrial and economic welfare, by enhancing the present and potential water power along the rivers and streams, and the construction, maintenance and operation of such dams and reservoirs within the state is a primary purpose of this act, so that as amended said section shall read as follows: **1. Declaration of Need.** It is hereby declared that there is a state-wide need for the conservation and distribution of water and the regulation of the flow of rivers and streams and that the public in-

terest, welfare and necessity require the construction of projects for the conservation, development, storage, distribution and utilization of water, and the corporation created hereunder shall be regarded as performing a governmental function in carrying out the provisions of this act. It is further declared that there is a special public need for dams and reservoirs at strategic locations for regulating the flow of rivers and streams to lessen damages resulting from floods and to promote the state's industrial and economic welfare, by enhancing the present and potential water power along the rivers and streams, and the construction, maintenance and operation of such dams and reservoirs within the state is a primary purpose of this act.

2. Projects Defined. Amend paragraph III of section 2 of said chapter 121 by striking out said paragraph and by substituting therefor the following:

III. The word "project" shall be deemed to include all property, rights, easements and franchises relating thereto and deemed necessary or convenient for its operation, and shall embrace all means of accomplishing the purposes set forth in section 1 hereof, including, without limiting the generality of the foregoing, reservoirs, dams, diversion and distribution canals, lateral ditches, pumping units, mains, pipe lines and water-works systems.

3. Hearing, Governor and Council. Amend section 6 of said chapter 121 by striking out the whole thereof and substituting in place thereof the following: **6. Project Reports; Hearing and Order.** Said board, before commencing any project, shall submit to the governor and council a report, including a detailed description and plan of the project, a detailed estimate of the total cost thereof and of the revenues to be derived therefrom. The governor and council, upon receiving such report, shall determine whether the project is of public use and benefit and within the authority conferred upon the board by this act. They shall cause a hearing to be held thereon and, if it shall appear that the project is of public use and benefit and within the authority conferred upon the board, they may, by written order, direct said board to proceed with such project. The governor and council shall order notice of the hearing upon any such report to be given in such manner as they shall deem fit.

4. Project Self-Liquidating. Amend section 7 by striking out the whole thereof and substituting in place thereof the following: **7. Contracts.** Upon receipt of the written order specified in section 6, said board, for the purpose of making such project so far as possible self-liquidating and self-supporting, shall proceed to make contracts in the name of the corporation with such persons or corporations as may be specially benefited by such project, including users of water in and outside the state for power or other purposes, covering the terms under which such persons or corporations shall pay for such benefits. No such contract shall extend for more than fifty years from the completion of the project. The compensation for the use of stored water or other benefits created by the projects shall be made equitable as between different users. All such contracts shall inure to the benefit of and bind the contracting users and their successors in title to the dams, water and flowage rights, generating plants, mills or other real estate constituting the property on account of whose benefit the compensation is payable.

5. Stored Water; Judicial Determination of Compensation. Amend said chapter 121 by inserting after section 7, the following new section: **7-a. Stored Water; Judicial Determination of Compensation.** If a user of water substantially benefited by a project shall decline to enter into a contract as above provided, or if the board and such user cannot agree upon the compensation to be paid by him, either party may, before or after the completion of such project, apply by petition in equity to the superior court for the county in which the benefited property is situated to determine such compensation. If the proceeding is brought by the corporation and such user files a disclaimer of any right to use stored water as defined in section 10, the petition shall be dismissed; otherwise the court, after hearing, shall determine the compensation for benefits justly payable by such user and enter a decree entitling him to make use of stored water subject to payment thereof and fixing the time and manner of such payment. The compensation fixed by the decree shall not exceed the benefit resulting or to result to the user, shall be proportioned to the compensation payable by other users under existing contracts relative to the same project, and may be made payable in

amortized or other instalments in the same manner as the compensation provided for in such contracts; and the court, in proper application and notice, may subsequently modify or revise the decree as justice may require. Any decree entered pursuant to this section and any subsequent modification or revision thereof shall inure to the benefit of and bind the user and his successors in title.

6. Eminent Domain Procedure. Amend section 8 of said chapter 121 by striking out the whole thereof and by substituting therefor the following: **8. Acquisition of Property.** For the purposes of any project within its authority under the provisions of this act, said corporation may acquire such land, easements, flowage rights and other rights in land hereinafter referred to as real estate, as may be needed by purchase, lease, or otherwise, and upon such terms, conditions and prices as the commission may deem reasonable. If, from any cause, it shall be unable so to acquire said real estate, it may institute proceedings for condemnation thereof for the use of the state in the manner hereinafter provided:

I. Said corporation shall cause a plan or location of the real estate proposed to be taken to be prepared and a copy thereof filed with the clerk of the superior court for each county in which any of such real estate is located and shall apply by petition to the superior court for the county in which such real estate is located, to acquire said real estate for and in the name of the state and to have assessed the damages occasioned by the taking. Such petition shall state the name and residence so far as known to said corporation of all persons claiming ownership of or interest in the real estate proposed to be taken. Where such real estate is located in more than one county the petition may be filed in either county.

II. The superior court, upon the filing of any such petition, shall order notice thereof to be given to all persons claiming ownership of or interest in such real estate to appear and present their claims at a time and place to be stated in the notice, by publication, and an attested copy of such notice shall be given in hand to, left at the usual place of residence or business of, or sent by registered mail to the last known address of all claimants whose names appear in the petition, fourteen days at least before the said date of hearing. The superior court, after notice to all parties interested, shall hear the pre-

liminary questions, if any, and all issues relating to title, and shall determine the rights and interests of any and all parties, and the findings and decree relating to such issues shall be final and subject to review only upon questions of law.

III. Upon final determination of any and all of said questions, the superior court shall, unless the parties elect a trial by jury, appoint a commission consisting of three suitable persons, to assess the damages occasioned by the taking. The commissioners, upon reasonable notice to all interested parties and after hearing, shall assess the damages and make report of such assessment to the superior court, and such action shall be taken thereon as justice may require. If either party shall so elect, before reference of such petition to a commission, the damages occasioned by the taking shall be assessed by jury.

IV. In trying any question of damages before said commissioners or by jury, the appraisal for taxation of such real estate, and in cases where less than the whole interest in real estate is sought to be acquired, the appraisal for taxation of such whole interest, by the selectmen or tax assessors for the tax year in which such application shall have been filed, and for as many preceding years as the commissioners or the court may consider relevant, shall be competent as evidence of value. The damages as determined shall be awarded to the owner or apportioned among the several owners in accordance with their several interests as determined and judgment shall be entered accordingly.

V. All such petitions shall be prosecuted to final judgment on behalf of the corporation by the attorney-general or such other person as may be designated by the governor and council.

VI. The corporation at any time after filing such petition may enter upon and take possession of the real estate upon providing such security as justice may require, to pay any damages occasioned by the entry or to satisfy any judgment which may be rendered on the petition. The amount of the security and all questions relating thereto may be determined by the superior court upon application of either party. The title to the real estate shall, upon payment or tender of the damages occasioned by the taking, be vested in the state. For purposes of surveying and other investigation, said corporation shall be entitled to enter upon any real estate, doing no un-

necessary damage, and the owner thereof may, if the parties are unable to agree, recover any damages sustained by him by reason of any preliminary entry authorized by this section, by action at law against said corporation. All real estate acquired under the provisions of this act shall be held in the name of the state. Forthwith upon the acquisition by the corporation in the name of the state, through purchase, condemnation, or otherwise, of any real estate, property or interest or easement therein, or of any water rights, such property or rights shall, without further action, and by virtue of this act, be and become dedicated to the use and purposes of the corporation.

7. Unlawful Use of Stored Water Defined. Amend section 10 by striking out the whole thereof and by substituting in place thereof the following: **10. Unlawful Use of Stored Water; Penalty.** As used in this act, the term "stored water" is hereby defined as water released from storage provided under the terms of this act in excess of the amount which would naturally flow at the time of such release if storage facilities had not been so provided and maintained. It shall be unlawful (1) for any person not entitled thereto under a contract as provided in section 7 or a judicial decree as provided in section 7-a wilfully to use for power or other purposes any stored water, or (2) for any person wilfully to interfere with the flow of any stored water except so far as necessary in making a reasonable use of the same under such a contract or decree or a reasonable use of the natural flow in the exercise of his rights as a riparian or littoral proprietor; and any person, firm or corporation guilty of such unlawful use of or interference with the flow of stored water shall, upon conviction thereof, be fined not exceeding five hundred dollars, and each and every day of such unlawful use or interference shall be a separate offense. The superior court sitting in equity shall have jurisdiction to enjoin the unlawful use of stored water and it shall be the duty of the attorney-general to prosecute proceedings for the enforcement of the provisions of this act; but no criminal prosecution or proceeding for injunction with respect to the use of stored water shall be instituted or prosecuted under this section against a user who is a party to a petition under section 7-a during the pendency of such petition.

8. Removal. Amend said chapter 121 of the Laws of 1935

by inserting after section 4 the following new section: **4-a. Removal.** The governor and council may at any time remove any director for inefficiency, neglect of duty or malfeasance in office; but no director shall be removed without a hearing, after notice in writing of the charges against him.

9. Governor and Council, Approval of Contracts. Amend said chapter 121 of the Laws of 1935 by inserting after section 6 the following new section: **6-a. Governor and Council, Approval of Contracts.** All contracts entered into by the board for the construction of a project or for the use of stored water shall be subject to the approval of the governor and council.

10. Water Regulating Committees, Duties. Amend section 11 of chapter 121 of the Laws of 1935 by striking out the whole thereof and by substituting therefor the following:

11. Water Regulating Committees. Said board shall appoint a committee or committees of such number as it may determine to regulate and direct the storage and release of water from each reservoir in such manner and at such times as shall be most beneficial for regulating the flow of rivers and streams to lessen damages resulting from floods or for supplying water to any political subdivision of the state for public or domestic use (provided that any such subdivision shall be required to pay to said board a fair and reasonable compensation as determined by said board for water so supplied) and subject thereto in accordance with the provisions of contracts entered into pursuant to section 7 hereof. The committee shall not interfere with or obstruct the flow of stored water released from any present or future water storage or conservation reservoir located upstream from said project. The members of such committees shall continue as such during the pleasure of the board, which shall promptly make new appointments whenever a vacancy occurs from any cause.

1-b. Cities and Towns. The public service commission, upon petition of the proprietors of a railroad and the selectmen of a town jointly, or the proprietors of a railroad and the mayor and council of a city jointly, whenever it finds after notice and hearing that the reconstruction of any overhead highway bridge or underpass located on any highway other than those specified in section 1-a, located within such town or city, is necessary because of the increase in motor vehicular traffic or in the weight or speed of such traffic, may order such proprietors to rebuild at greater width or load capacity any such overhead highway bridge, or to widen the opening of any

2. Eminent Domain Proceedings. If the governor and council shall deem it necessary for the purposes aforesaid to institute eminent domain proceedings for the acquisition of said land the proceedings therefor shall be as provided in sections 18 to 28 of chapter 19 of the Public Laws.

3. Administration. The said park and recreational areas when acquired and established shall be administered by the New Hampshire toll bridge commission created by chapter 64, Laws of 1933. The commission is hereby authorized and empowered to operate and maintain such parks and recreational areas as may be established and to make such reasonable charges for their use as in its discretion may be necessary.

4. Appropriation. There is hereby appropriated a sum not exceeding forty thousand dollars (\$40,000) for the purpose of acquiring and establishing said park and recreational areas and in addition the revenues accruing from the park and recreational areas shall be available for the use of the commission in maintaining and administering the areas. Any net income accruing from the operation of the areas shall be used for the payment of the principal or interest upon the bonds hereinafter authorized. It is the intent and purpose of this act that the cost of establishing and maintaining the said park and recreational areas shall be paid exclusively from the proceeds of the bonds hereby authorized, from tolls accruing from the operation of the said bridges and from charges for the use of the said areas.

5. Bonds Authorized. The state treasurer is hereby authorized, under direction of the governor and council, to borrow upon the credit of the state not exceeding forty thousand dollars (\$40,000) for the purpose of carrying into effect the provisions of this act and for that purpose may issue bonds and notes in the name and on behalf of the state of New Hamp-

Such bonds and notes shall be in such form and such denominations as the governor and council shall determine, may be registerable as to both principal and interest, shall be countersigned by the governor and shall be deemed a pledge of the faith and credit of the state. None of the tolls from the operation of the said bridges shall be available for the payment of the principal and interest on the bonds hereby authorized until after all the bonds issued previous to the date of this act in accordance with chapter 64, Laws of 1933, have been paid. When such previously issued bonds have been paid, then the tolls from the operation of the bridges shall be applied to the payment of the principal and interest on the bonds hereby authorized. In the event that the net income from the operation of the park and recreational areas shall not be sufficient to pay the interest on the bonds hereby authorized, such interest shall be paid from the highway funds, but when all the bonds issued pursuant to Laws of 1933, chapter 64, prior to the passage of this act have been retired, the highway fund shall be reimbursed the amount of interest paid by it in accordance with the provisions of this act.

6. Accounts; Sale; Proceeds of Sale. The secretary of state shall keep an account of all such bonds and notes countersigned by the governor, showing the number and amount of each bond and note, the time of countersigning, the date of delivery to the treasurer and the date of maturity. The state treasurer shall keep an account of each bond and note, showing the number thereof, the name of the person to whom sold, the amount received for the same, the date of the sale and the date of maturity. bonds and notes by direction of the governor and council in such manner as they may determine most advantageous to the state. The proceeds of the sale of such bonds and notes shall be held by the treasurer and paid out by him upon warrants drawn by the governor for the purposes of this act alone and the governor, with the advice and consent of the council, shall draw his warrants for the payment from the funds provided for by this act of all sums expended or due for the purposes herein authorized.

7. Short-Term Notes. Prior to the issuance of bonds hereunder the treasurer, under the direction of the governor and council, may for the purposes hereof borrow money from time to time on short-term loans to be refunded by the issuance of the bonds hereunder.

8. Takes Effect. This act shall take effect upon its passage.

CHAPTER 125.

AN ACT RELATIVE TO SPEED REGULATIONS FOR THE OPERATION OF MOTOR VEHICLES.

SECTION	SECTION
1. Operation of motor vehicles.	3. Repeal.
2. Speed limit.	4. Takes effect.

Be it enacted by the Senate and House of Representatives in General Court convened:

1. Operation of Motor Vehicles. Amend section 17 of chapter 103 of the Public Laws, as amended by chapter 76 of the Laws of 1927, by striking out said section and inserting in place thereof the following: **17. Prohibition.** No person shall operate any motor vehicle upon any public highway of this state at any rate of speed greater than is reasonable, having regard to the width, traffic and use of such highway, intersection of other highways and weather conditions or so as to endanger the property or life or limb of any person. The commissioner of motor vehicles may determine a speed limit which is reasonable and safe on any public highway or bridge and may erect, or cause to be erected, signs indicating such speed limit.

2. Speed Limit. Amend said chapter 103 by inserting after section 17 as hereinbefore amended the following new sections:

17-a. Evidence. Any speed in excess of such limit shall be *prima facie* evidence that such speed is not reasonable and safe but the fact that the speed of a vehicle is lower than such limit shall not relieve the operator from the duty to decrease speed when a special hazard shall exist with respect to pedestrians or other traffic or by reason of weather or highway conditions and speed shall be decreased as may be necessary to avoid collision with any person, vehicle or other conveyance on or entering the highway in compliance with legal requirements of all persons to use due care. It shall be *prima facie* lawful for the driver of any vehicle to drive the same at a speed not exceeding the following but in any case when such speed is found to be unsafe it shall not be lawful:

I. Fifteen miles per hour when passing a school during school recess or while children are going to or leaving school during opening or closing hours.

II. Twenty miles per hour in any business district.

III. Twenty-five miles per hour in any residence district.

17-b. Minimum Speed Regulation. No person shall drive a motor vehicle at such a slow speed as to impede or block the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation or in compliance with law.

17-c. Enforcement. Police officers are hereby authorized to enforce the provisions of the preceding section by directions to drivers, and in the event of apparent wilful disobedience of this provision and refusal to comply with direction of an officer in accordance therewith the continued slow operation by a driver shall be a misdemeanor.

17-d. Exceptions. The *prima facie* speed limitations set forth in section 17-a shall not apply to authorized emergency vehicles when responding to emergency calls and when the drivers thereof sound audible signals by bell, siren, or exhaust whistle. This exception shall not relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons using the street, nor shall it protect the driver of any such vehicle from the consequences of a reckless disregard of the safety of others.

3. **Repeal.** Section 18 of said chapter 103, as amended by chapter 76 of the Laws of 1927, relating to evidence of unlawful speed, is hereby repealed.

2. Aerial Tramway. For the purpose of constructing an aerial tramway on Cannon Mountain in the Franconia Notch and for the further purpose of maintaining and operating the same together with the necessary appurtenances thereof after construction, there is hereby created an agency of the state composed of a commission of five members, not more than three of whom shall be of the same political party, to be known as the New Hampshire Aerial Tramway Commission, hereinafter called the commission, composed of the comptroller *ex-officio* and four members to be appointed by the governor with the advice and consent of the council, one of whom shall be designated by the governor as chairman. The term of office of the first appointive members shall be one, two, three and four years respectively, the length of the term of each to be fixed in his commission and each shall continue in office until his successor has been appointed and qualified, subject to removal for cause by the governor and council. Thereafter each year beginning in the year 1938, one member of said commission shall be appointed for a term of four years. If a vacancy shall occur in said commission, it shall be filled for the remainder of the term. The majority of the commission shall constitute a quorum.

3. Compensation. The members of said commission shall be paid eight dollars a day, each, for such time as they are actually engaged in the service of the state and their actual expenses.

4. Powers. The commission shall have power (1) to construct, maintain, reconstruct and operate an aerial tramway on Cannon Mountain in the Franconia Notch; (2) to acquire, hold, and dispose of personal property for the purposes hereof; (3) to acquire in the name of the state, by purchase, condemnation, lease or otherwise, real property and rights or easement therein, deemed by it necessary or desirable for the purposes hereof, and to use such property; (4) to acquire any such real property by the exercise of the power of condemnation in the manner provided in sections 18 to 28 of chapter 19 of the Public Laws; (5) to charge and collect fees, fares and tolls for carriage and other services made available in connection with the tramway; (6) to make contracts on behalf of the state, with the United States, other states, public corporations or bodies existing therein, and private corporations and individuals; (7) to accept grants, permits and co-operation from the United States or any agency thereof in the construction, maintenance, reconstruction, operation, and financing of the tramway and/or its appurtenances and to do any and all things necessary in order to avail itself of such aid and co-operation; (8) to employ such assistants, agents and servants as it shall deem necessary or desirable for its purposes; (9) to exercise any of its powers in the public domain of the United States, unless the exercise of such powers is not permitted by the laws of the United States; and (10) to do all things necessary or incidental to the foregoing powers.

5. Plans to be Submitted and Approved. Said tramway and its termini and other appurtenances shall be designed, constructed and located in such manner that the same shall cause no damage to the Old Man of the Mountain and the immediate surroundings thereof and shall cause no substantial damage to the general scenic values in Franconia Notch and shall occasion no unnecessary destruction of forest growth in said area. Plans and specifications for the location and construction of such tramway, termini and appurtenances shall be submitted to the forestry and recreation commission and the governor and council and approved by them as complying with the pro-

visions of this section, before construction thereof shall be commenced. No changes shall be made in such plans and specifications so approved until such changes have been likewise submitted to the forestry and recreation commission and the governor and council and so approved by them. Nothing herein shall be construed to restrict in any way the authority of the tramway commission in the management, operation and control of the tramway, nor to limit the right of the tramway commission to enter into contracts for construction or for other purposes.

6. Control of Public Lands. To the extent that it may be necessary to carry out the provisions of this act, the commission shall have power to use and control public lands of the state. Forthwith upon the acquisition by the commission in the name of the state through purchase, condemnation or otherwise of any real property or interest or easement therein, such property or rights shall, without further action, and by virtue of this act, be and become dedicated to the uses and purposes of the commission.

7. Appropriation. A sum not exceeding \$250,000 is hereby raised, as hereinafter provided, and appropriated for the purposes aforementioned.

8. Bonds or Notes Authorized. The state treasurer is hereby authorized, under the direction of the governor and council, to borrow upon the credit of the state, not exceeding two hundred and fifty thousand dollars (\$250,000) for the purpose of carrying into effect the provisions of this act and for that purpose may issue bonds or notes in the name and on behalf of the state of New Hampshire at a rate of interest to be determined by the governor and council. The maturity dates of such bonds or notes shall be determined by the governor and council but in no case shall they be later than twenty years from the date of issue. Such bonds or notes may be renewed from time to time by the issuance of other such bonds or notes in the same manner but the maturity dates of such renewed bonds or notes shall not be later than twenty years from the date of the issue of the original bond or note renewed thereby. All such bonds or notes shall contain an express guarantee which shall be deemed a contract on the part of the state that fees, fares and tolls will be collected in accordance with the provisions hereof until the date of maturity

of said bonds or notes, or the renewals thereof, or until sufficient money shall have accumulated to pay said notes or bonds and the interest thereon at the dates of maturity, shall be in such form and such denominations as the governor and council shall determine, may be registerable as to both principal and interest, shall be countersigned by the governor and shall be deemed a pledge of the faith and credit of the state. The secretary of state shall keep an account of all such bonds or notes countersigned by the governor, showing the number and amount of each bond or note, the time of countersigning, the date of delivery to the treasurer and the date of maturity. The state treasurer shall keep an account of each bond or note showing the number thereof, the name of the person to whom sold, the amount received for the same, the date of the sale and the date of maturity. The treasurer may negotiate and sell such bonds or notes by direction of the governor and council in such manner as they may determine most advantageous to the state. The proceeds of the sale of such bonds or notes shall be held by the treasurer and paid out by him upon warrants drawn by the governor for the purposes of this act alone and the governor, with the advice and consent of the council, shall draw his warrants for the payment from the funds provided for herein of all sums expended or due for the purposes herein authorized.

9. Short-Term Notes. Prior to the issuance of bonds or notes hereunder the treasurer, under the direction of the governor and council, shall for the purposes hereof borrow money from time to time on short-term loans to be refunded by the issuance of the bonds or notes hereunder.

10. Revenue. There shall be collected for carriage upon the tramway provided for herein and for other services made available therewith such fares, tolls and charges as the commission shall deem reasonable. Such sums as are so collected shall be deposited with the state treasurer who shall keep the same in a separate account and the operating expenses and upkeep of said tramway and services shall be paid from said account. From the balance of said account remaining after the payment of the operating expenses and upkeep the governor, with the approval of the council, shall pay the interest and principal of the bonds or notes issued hereunder. During the construction of the tramway the governor may, if necessary,

draw his warrant upon the general fund to pay the interest due upon any bonds or notes that have been issued in accordance with the provisions hereof, but reimbursement for such payments shall be made to the general fund from revenue in the special fund herein created. When the principal and interest of all notes and bonds authorized hereunder have been paid or sufficient money has accumulated in said special fund to pay the same the balance of the special fund herein provided, after the payment of charges as herein authorized, shall be paid at such times as the governor and council shall direct into the general funds of the state.

11. Separability Clause. If any provision of this act, or the application thereof to any person or circumstance, is held invalid, the remainder of the act, and the application of such provision to other persons or circumstances, shall not be affected thereby.

12. Repeal. Chapter 108 of the Laws of 1935, as amended by chapter 132 of the Laws of 1935, and all acts or parts of acts inconsistent herewith are hereby repealed.

13. Application of Law. So far as the provisions of this act are inconsistent with the provisions of chapter 101 of the Laws of 1925, relative to the use and management of state lands in Franconia Notch acquired under the provisions thereof, the provisions of this act shall control.

14. Takes Effect. This act shall take effect upon its passage.

General Court convened:*

Water Control Commission

1. Number; Term. There shall be a water control commission consisting of five commissioners who shall be the five directors of the New Hampshire water resources board. The terms of the commissioners shall be the same as their respective terms as members of the board of directors of said board.

2. Definitions. Words and phrases used in this chapter shall mean and be construed as follows, except where a different meaning is clearly intended from the context:

I. "Commission," the water control commission.

II. "Person," includes copartnership, association, corporation or municipal corporation.

III. "Dam," a structure in or across a lake, pond, river or stream designed or intended to impound all or a part of the waters thereof.

IV. "Dam in Disrepair," a dam which is a menace to public safety, or incapable of safely impounding flood waters to its crest, or incapable of maintaining a reasonably constant level of waters impounded, or one which does not contain adequate gates and sluiceways to provide for the holding or controlled discharge of waters impounded.

V. "Mills," shall include both manufacturing plants and plants at which electric power is generated for public distribution or for the operation of mills, railroads or public utilities.

3. **Chairman.** The chairman of the water resources board shall be the chairman of the commission.

4. **Removal.** The governor and council may at any time remove any commissioner for inefficiency, neglect of duty or malfeasance in office; but no commissioner shall be removed without a hearing after notice in writing of the charges against him. Any commissioner so removed shall thereupon cease to be a director of the New Hampshire water resources board.

5. **Compensation.** All the commissioners, except the chairman, shall serve without salary but they may receive such compensation as may be fixed by the governor and council, with reasonable expenses incurred in the performance of their duties. The chairman shall receive such salary as may be fixed by the governor and council.

6. **Disqualification.** No commissioner shall sit upon the hearing of any question which the commission is to decide in a judicial capacity who would be disqualified for any cause, except knowledge of the facts involved gained in the performance of his official duties, to act as a juror upon the trial of the same matter in an action at law.

7. **Special Commissioner.** If a commissioner shall be disqualified or unable to act in any particular case pending before the commission, the governor, upon application of the commission, shall, with the consent of the council, appoint a special commissioner to act in his place upon said case.

8. ———, **Compensation.** The special commissioner so appointed shall be paid a reasonable compensation per day for his services, and his necessary expenses, to be allowed by the governor and council and paid from the state treasury.

9. **Expenditures.** In the exercise of the authority and performance of the duties herein prescribed, the commission may expend for engineers, experts, inspectors or assistants, or otherwise, such sums as may be appropriated for its use by the legislature, and, with the authority of the governor and council, such further sums as may in any emergency be necessary, such further sums to be paid out of any money in the treasury not otherwise appropriated.

10. Clerks. The commission may employ a clerk and any record, order, certificate or other process, document or paper issued or made by the commission may be signed by the clerk or by any commissioner.

11. Seal. The commission shall have an official seal in such form as it may prescribe, and all copies of official documents and orders filed or deposited with or made by said commission, duly certified and authenticated by said seal, shall be received in evidence in any court, in like manner as originals.

12. Quorum. A majority of the commission shall constitute a quorum to transact business, and any hearing or investigation may be held or conducted by one or more commissioners; but no order, rule or regulation shall be made and promulgated except by the full commission or a majority thereof.

13. Request of Party. No hearing or investigation shall be held or conducted by less than a majority of the commission if any party whose interests may be affected shall, five days before the date of hearing, file a request in writing that the same be held or conducted by the full commission, or a majority thereof.

14. Duties. The commission is authorized to make such investigations as in its opinion the public good requires, with respect to high or low water levels in the inland public waters of the state, and the rights, instrumentalities and practices whereby such levels are affected or controlled, with a view to the exercise of such control thereof, in a manner consistent with public and private rights and interests, as will best promote the public health and safety and the enjoyment and value of such public waters. In such cases as the commission may deem expedient it may ascertain the extent to which owners and managers of dams take into consideration variations of run-off and plan for and anticipate emergencies. Owners of dams at the reasonable request of the commission shall make available to the commission such records of water levels and flow of inland public waters as are made and kept by such owners to assist the commission in knowing the remaining storage capacity of reservoirs, whether created by dams or otherwise, and to gauge the flow of streams. From time to time the commission may call to conference owners of dams for the purpose of obtaining co-operation in the regulation of

stream flow to minimize damage to public and private property at times of high water. Whenever in the opinion of the commission an emergency exists or is threatened whereby the public health or safety may be jeopardized by the release or withholding of stored waters, it may recommend such action by the owner or manager of a dam with respect to the release or withholding of water as it may deem necessary in the public interest.

Erection and Inspection of Dams

15. Building Dams. No person shall begin the construction or reconstruction of any dam until ten days after he has filed with the commission a statement of the height of the proposed dam and the location at which it is to be erected and such other information as the commission may require.

16. ———, Plans Required. Within ten days after the receipt of the statement required under the preceding section, if the commission shall be of the opinion that the proposed dam, if improperly constructed, or reconstructed, would be a menace to the public safety, it shall so notify the owner or applicant, and the construction or reconstruction of such dam shall not be commenced until plans and specifications therefor shall have been filed with and approved by the commission.

17. ———, Penalty. Any person who violates the provisions of sections 15 or 16 hereof, or who aids or abets another therein, shall be fined not more than one hundred dollars.

18. ———, Supervision. The commission may designate some competent inspector to inspect the construction or reconstruction of any dam for which plans and specifications have been required under section 16 hereof and such inspector shall report to the commission any failure to comply with said plans and specifications.

19. ———, Orders. The commission may order the owner or contractor, while constructing or reconstructing any such dam, to remedy any defects caused by failure to comply with the requirements of the plans and specifications or to do anything necessary to make said construction comply with said plans and specifications; and on failure to comply with any such order the commission may order all work of construction on such dam to cease.

20. Inspecting Dams. It shall be the duty of the commission from time to time to cause all dams in the state which by reason of their condition, height or location may be a menace to the public safety, to be inspected by competent engineers.

21. ———, Orders. If such inspection shall indicate that the public safety requires the repairing or reconstruction of any such dam, the commission shall, after notice and hearing, order the owner thereof to make the requisite repairs or reconstruction within a period to be fixed by the order.

22. Appeals. All orders issued by the commission under the provisions of this subdivision shall be subject to the provisions for appeal herein provided for, but shall remain in force until modified or set aside on appeal.

23. Penalty. Any person disobeying any order of the commission made under the authority of this subdivision, or aiding or abetting therein, shall be fined not more than one thousand dollars.

24. Injunctions. On application of the commission, the superior court or any justice thereof may enjoin any act in violation of any lawful order of the commission.

25. Expenses. The expense of examining plans or specifications and of inspecting the construction or reconstruction of a dam as authorized in this subdivision, including the salaries of the regular employes of the commission for the time actually devoted to work necessary to such examination or inspection, shall be paid to the commission by the owner of the dam in connection with which it is incurred.

26. ———, Collection. If any owner shall not promptly pay the expense of such inspection, when requested by the commission, it may be collected in an action brought by the attorney-general in the name of the state.

27. ———, Disposal. All sums so received shall be paid to the state, and shall be added to the appropriation available for the use of the commission in the employment of experts.

Flowage

28. Right Granted. Any person or corporation authorized by its charter or articles of agreement so to do may erect and maintain on his or its land, or on land of another with the owner's consent, a dam upon or across any stream, or may increase by flashboards or permanently the height of any dam

already so maintained by him or it, for the purpose of raising the water to work any mill or mills on such stream or on another stream to which the same is tributary, or for the purpose of creating a reservoir of water or raising the level of a public or other lake or pond to control, conserve or equalize the flow of such stream or streams for the benefit of any such mill or mills, upon obtaining authority so to do as hereinafter provided.

29. Conflicting Claims. The provisions of this subdivision shall in no way affect any mill of other persons lawfully existing on the same stream, or any mill site or mill privilege of other persons on which a mill dam has been lawfully erected and used, or the right of any owner of such mill, mill site or mill privilege, unless the right to maintain on such last mentioned site or privilege shall have been lost or defeated by abandonment or otherwise, and non-user of any mill site or mill privilege for a period of six years shall be *prima facie* evidence of abandonment; nor shall they affect any flowage or other water rights heretofore acquired, or the right to maintain any dam heretofore constructed.

30. Highways. Said provisions shall not affect the right of any town in any highway or bridge which the town may be liable to keep in repair; nor shall they authorize any unreasonable interference with the use of any stream as a public highway for floating logs or otherwise.

Proceedings Before the Water Control Commission

31. Petition Before Flowing. Any person proposing to erect a dam, or to increase by flashboards or permanently the height of any existing dam, for any of the purposes provided in section 28, shall file a petition with the commission, setting forth the location, height and description of the proposed dam or proposed increase in any existing dam.

32. Notice. The commission shall thereupon fix a time and place for hearing the petition, and shall issue an order of notice to all parties interested, which shall be published for three successive weeks in some newspaper in the county in which the dam is to be erected or is situated, the last publication to be not less than fourteen days before the time fixed for hearing. Said order of notice shall be served on the attorney-

general, and such further notice, if any, shall be given as the commission may order.

33. Hearing; Order. The commission shall, after hearing, determine whether it will be of public use and benefit to grant the rights asked for, and in determining whether it will be of public use and benefit, shall give due consideration to the effect upon scenic and recreational values and upon fish and wild life and upon the natural flow of the water in the stream below the dam and any hazards to navigation, fishing, bathing and other public uses. The commission shall, in all cases, investigate the question whether the cutting clean and removal of all timber and tree growth from all or any part of the flowage area is reasonably required in the public interests; and in such cases as it shall find that such cutting clean and removal of all timber and tree growth from all or any part of the flowage area are so required, it shall be a condition to the exercise of such rights that such cutting clean and removal of all timber and tree growth shall be done. The commission shall, in its order, embody all its findings.

34. Effect of Finding. No other dam shall be erected to the injury of any proposed dam or any proposed increase in any existing dam, which in either case has been found to be for the public good by the commission in accordance with the provisions hereof, if the petitioner shall, within three years thereafter, or within such further time as the commission for good cause may grant, commence the construction thereof and thereafter prosecute said construction with reasonable diligence.

Proceedings in Court

35. Petition for Assessment. If the land of any person shall be overflowed, drained or otherwise injured by the use of any dam or addition thereto, and the damage shall not within thirty days after due notice thereof be satisfactorily adjusted by the party erecting or maintaining the dam or increase therein, either party may apply by petition to the superior court in the county or counties where such damage arises to have said damage that has been or may thereafter be done assessed.

36. ———, Contents. The petition shall set out the title and description of the premises damaged, the right by reason

whereof the grievance arises, the location of the dam and the extent of the damages that may be occasioned thereby.

37. Reference. The court, after notice to all persons interested, shall, unless the parties agree upon the judgment that shall be rendered, refer the petition to a committee of three disinterested persons, to be appointed by the court, to determine in relation to the matters set forth therein.

38. Hearing; Report. The committee shall give such notice to the parties as shall be ordered by the court, shall hear the parties, view the premises, estimate the damages and make report to the court at the next term thereof.

39. Order. Upon return of the report any person interested therein may object to its acceptance for any irregularity or improper conduct on the part of the committee, and the court may set it aside for cause. If the report shall be accepted and established the court shall render judgment thereon.

40. Jury Trial. Before reference of such petition to the committee, if either party shall so elect, the court shall direct an issue to the jury to try the facts alleged in the petition and to assess the damages, and judgment shall be rendered on the verdict of the jury.

41. Costs. The court may award costs to either party at its discretion.

42. Damage to Other Land. The committee or jury assessing the damage shall take into consideration any damage done to other land of the party flowed, as well as the damage occasioned to the land actually occupied.

43. Petition Before Flowing. Any person proposing to erect a dam or to increase permanently or by flashboards any existing dam, having obtained an order from the commission, as provided in section 33, may file in the superior court a petition setting forth the location, height and description of the proposed dam or increase in any existing dam, and the title and description of the land involved or the rights therein to be taken, and applying for the assessment of damages occasioned thereby in advance of the taking. The court shall then proceed in accordance with the provisions of sections 37 to 42 inclusive.

44. Security for Damages. Any person, upon filing a petition as provided by section 35 or section 43, may be required at

any time, upon application to the court in which such petition is filed, to give, within a reasonable time, such security as justice may require for any damages which have been or may be occasioned by such proceedings, or to satisfy any judgment which may be rendered therein; and no such person shall derive any title from the proceedings, or shall be discharged from any liability in relation to the premises, until the person aggrieved or damaged has been paid or tendered the amount of the judgment rendered.

Limitation of Hydro-Electric Charters

45. Termination of Rights. All rights, powers, privileges and franchises conferred upon any corporation, enabling such corporation to construct and maintain mill dams upon the streams of this state and to flow lands or do any other act necessary to the development of hydro-electric energy, shall terminate and be forfeited at the end of six years from the date on which the act of incorporation took effect, unless the actual work of constructing such dams or power plants shall be commenced during such six years, and be prosecuted with reasonable diligence thereafter until such dams and plants are completed and in operation.

46. Forfeiture. Upon the written complaint of any citizen filed with the attorney-general, setting forth that any corporation has failed to commence the actual work of constructing its dam or plant during the time limited by section 45, or has failed to prosecute the same with reasonable diligence thereafter until such dam or plant has been completed and in operation, it shall be the duty of the attorney-general to enforce by an appropriate proceeding a forfeiture of the rights, powers, privileges and franchises under which the corporation might have erected its dam or plant.

Lake Levels Investigation and Proceedings

47. Investigation of Levels of Inland Waters. The commission may, upon its own motion or at the request of the attorney-general or upon complaint of not less than ten owners of property on any inland public water in the state, make a preliminary investigation of conditions affecting the use and enjoyment of any such public water, whenever it shall be of the opinion that such investigation would be in the public in-

terest. If, as a result of any such preliminary investigation, it shall appear to the commission that the management and control of any outlet of any such public water and the instrumentalities connected therewith are carried on or used in such manner that the value of shore property above or riparian rights below such outlet or the enjoyment of such water by the public is seriously and adversely affected, it may make further investigation with a view to ascertaining the respective rights of all interested parties, including the public. If, as a result of such further investigation, the commission shall be of the opinion that such management and control is lawful, but that changes in the manner of the exercise of the right of management and control would be of benefit to others without injury to the owner of the outlet, it may recommend such changes as in its opinion would be of benefit to the public and private interests concerned.

48. Report to Governor and Council. If, as a result of such further investigation, the commission shall be of the opinion that such management and control of the outlet and the instrumentalities connected therewith is lawful, and that changes therein in the public interest would deprive the owner of the outlet or others of rights to which they are lawfully entitled and that such changes, notwithstanding such deprivation, would be for the public interest, it may estimate all damages which would be occasioned by such changes and all other costs connected therewith and report its findings to the governor and council.

49. Procedure When Use Unlawful. If, upon complaint of not less than ten owners of property on any inland public water in the state, the commission, after notice to the owner of the outlet thereof, which, if personal service is impractical in the opinion of the commission, may be by publication, and such other notice by publication or otherwise as the commission may order, and a hearing, shall be of the opinion that the management and control of any such outlet or the instrumentalities connected therewith is unlawful and contrary to the public interest, it shall report its findings to the attorney-general; and thereupon the attorney-general in the name of the state may institute appropriate proceedings in equity in the superior court and the court shall make such orders as may be necessary to protect the rights of the parties.

50. Gifts or Grants to the State. When in the opinion of the commission it is in the public interest for the state to accept gifts or grants of real estate, or any interest therein, contiguous to inland public waters, rivers or streams, the commission shall recommend such acceptance to the governor and council who may by resolution accept the same in the name of the state.

License to Flow Public Lands

51. License to Flow Public Lands. The governor and council may grant to the owner of a dam located at the outlet of an inland public water the right to flow public lands contiguous to such public water and its tributaries, when in the opinion of the commission it is in the public interest so to do and under such terms and conditions with respect to water levels and otherwise as the commission may specify.

52. Deeds. Any such grant of right of flowage and the conditions upon which the same is made shall be evidenced by deed executed in the name of the state by the governor and attested by the secretary of state and recorded in the county where the property is situated.

Dams in Disrepair; Acquisition by Municipality

53. Duty of Owner. The owner of a dam shall so maintain and repair it that it shall not become a dam in disrepair.

54. Towns and Cities May Petition. The selectmen of any town or mayor of any city in which the whole or a part of a dam is located, if they have reason to believe the dam may be in disrepair, may petition the commission for an investigation to determine whether such dam is in disrepair. The selectmen or mayor shall so petition the commission when requested so to do by twenty-five taxpayers of such town.

55. Commission to Act. The commission, upon its own motion or upon filing of a petition pursuant to the foregoing section, shall notify the owner of such dam of the filing of said petition and set a time and place for a hearing to determine whether such dam is in disrepair. Said notice shall be given at least twenty-one days before said hearing and may be given in hand to the owner or sent to him by registered mail, or at the option of the commission, said notice may be given by publication once each week for three successive weeks in some

newspaper of general circulation in the county in which the dam or any part thereof is located. If notice is given by publication, the first publication shall appear at least twenty-one days prior to the date of hearing. The commission shall file a copy of such notice in the registry of deeds in each county in which the dam is located.

56. Inspection. Upon receipt of such a petition the commission may, either before or after said hearing, cause an inspection of said dam to be made by a competent person, who may be one of its employees.

57. Findings of Disrepair. Pursuant to notice given by the commission, it shall hold a public hearing and find, upon evidence furnished by its employees or others, whether said dam is in disrepair. If it finds such dam in disrepair, it shall request the owner thereof to make the requisite repairs or reconstruction, within a period to be fixed by such request.

58. Town May Take Dam. If the owner shall fail to comply with such request, a town in which all or a portion of such dam is located may take by eminent domain proceedings before the commission, as hereinafter provided, such dam and other real estate, franchises, easements, flowage and other property, wherever located, necessary or desirable in the opinion of the commission to enable the town to construct, maintain, repair, own and operate the same. Eminent domain proceedings may not be taken by a town pending an appeal and final determination of such appeal.

59. Voters to Authorize Taking. Eminent domain proceedings shall not be taken under this act unless authorized by a vote of two thirds of all voters present and voting at an annual or special meeting of such town, at which a majority of all the legal voters are present and vote. A city desiring to initiate eminent domain proceedings under this act shall act through its mayor, whose action shall be authorized by a resolution of the city councils, passed by at least two thirds of all the members elected to each branch thereof. All other action hereunder by a city shall be by the mayor when authorized by a resolution of the city councils, passed by a majority of the members elected to each branch thereof.

60. Special Town Meetings. A special town meeting to authorize action hereunder may be called by the selectmen of any town by posting or causing to be posted a written or

printed copy of the warrant warning such meeting, at the place of meeting and at two other public places in the town, at least seven days previous to holding the meeting, including the day of holding such meeting. The selectmen shall leave, on or before the day of the meeting, a copy of such warrant with the town clerk, who shall record it. Upon petition of twenty-five taxpayers, the selectmen shall call a special town meeting to consider action hereunder.

61. Petition for Taking. If, within two years from the finding by the commission that a dam is in disrepair, a town in which a portion of such dam is located desires to take such property by eminent domain proceedings, the selectmen of said town may in writing so petition the commission. Such petition shall contain a statement of the amount of the town's indebtedness and its last assessed valuation, information as to how the town proposes to pay for said property, a certified copy of the vote of the town authorizing the taking of such property, a copy of the warrant calling the meeting at which such vote was passed, a statement of the number of legal voters, the number present and voting for and against the proposal, a description of the property sought to be acquired and its owners as appearing on the tax records of any town, and a list of such other persons believed by the selectmen to own property that may be flowed or affected as a result of maintaining said dam pursuant to findings and orders of the commission made under section 57 above.

62. Notice. Upon receipt of the petition provided for in section 61, the commission shall notify the owners of property likely to be affected by such proceedings, by publication, as provided in section 55 above, and set a time and place for a hearing to determine what property shall be taken by the town in order for it to acquire the dam and property affected thereby. Such notice shall be considered adequate as to all persons affected by these and all subsequent proceedings before the commission to acquire the said property.

63. Hearing and Findings. After said notice, a public hearing shall be held and the commission shall find, upon evidence furnished by its employees or others at the hearing, what property and rights are reasonably required by the town for the acquisition of the dam, other real estate, franchises, easements and other property necessary or desirable to enable

the town to construct, maintain, repair, own and operate the dam so it may not be or become a dam in disrepair, and if the commission shall find that payment for said property and rights will not cause to be exceeded the debt of said town as authorized by law, it shall determine the compensation to be paid therefor, and render judgment accordingly.

64. Appeal on Damages. Any party aggrieved by an order of the commission awarding damages may within sixty days after entry of the order file in the superior court of the county in which the land is wholly or partially located a petition to have the damages assessed by a jury, upon which petition notice shall be given, and the court shall assess such damages by jury.

65. ———, Costs. If the result of an appeal is to change the award of damages in favor of the appellant, he shall recover costs, otherwise he shall pay costs.

66. Guardian *ad litem*. If an owner or the owners of real estate, franchises, easements and other property affected by proceedings hereunder is under any legal disability and is not under guardianship in this state, or their residence is unknown or uncertain, the commission shall, upon application by the town, appoint a guardian *ad litem*, who shall represent the owner in the proceedings.

67. Guardian's Fees. The commission shall determine and fix the amount due to any guardian appointed by it for services and disbursements in connection with any proceedings hereunder and the portion thereof that justice requires shall be payable out of any award that may be made for any land or right of the ward that may be taken.

68. Town Required to Pay Judgment. A town shall expend such sums as may be necessary to satisfy any judgment of the commission pursuant to section 63 and any appeal therefrom and such sums may be taken from moneys (a) raised from the sale of bonds, sufficient authority for the issuance of which shall be the affirmative vote passed at the meeting referred to in section 59 hereof; (b) in the hands of the town treasurer not otherwise appropriated or held for a purpose not inconsistent therewith; (c) or voted for the purpose at any regular or special town meeting.

69. Employment of Assistants. A town, acting through its selectmen and a city through its mayor, may employ en-

gineers, counsel and others and defray other expenses incident to proceedings hereunder.

70. Access to Dam. Access to a dam and adjacent property may be had at all times by representatives of the commission or a town to carry out the purposes and intent hereof.

Administration, Procedure and Appeals

71. Question of Law. The commission may reserve, certify and transfer to the supreme court for decision any questions of law arising during the hearing of any matter before the commission.

72. Administration, Rules and Regulations. In administering this act the commission shall have the power to make orders hereunder, conduct hearings, subpoena and examine under oath owners of dams, their books, records, documents, correspondence and accounts, and any other person it deems necessary to carry out the purposes and intent of this act. The commission may adopt, promulgate and enforce such reasonable rules and regulations as are deemed necessary to carry out the provisions of this act.

73. Penalties. Anyone violating any provision of this act or order hereunder, or any rule or regulation of the commission made hereunder, or failing to answer a subpoena or to testify before the commission, except as herein otherwise provided, shall be fined not exceeding one hundred dollars or be imprisoned for not more than one year, or both, and each day during which such violation shall continue shall be deemed a separate violation.

74. Conferences Authorized. The commission shall have power to confer and agree with legally constituted similar commissions or authorities of other states; or agencies of the federal government.

75. Motion for Rehearing. Within twenty days after any order or decision has been made by the commission, any party to the action or proceeding before the commission or any person directly affected thereby, may apply for a rehearing in respect to any matter determined in the action or proceeding, or covered or included in the order, specifying in the motion for rehearing the ground therefor, and the commission may grant such rehearing if in its opinion good reason therefor is stated in said motion.

76. ———, **Specifications.** Such motion shall set forth fully every ground upon which it is claimed that the decision or order complained of is unlawful or unreasonable. No appeal from any order or decision of the commission shall be taken unless the appellant shall have made application for rehearing as herein provided, and when such application shall have been made, no ground not set forth therein shall be urged, relied on or given any consideration by the court, unless the court for good cause shown shall allow the appellant to specify additional grounds.

77. ———, **Action on Motion.** Upon the filing of such motion for rehearing, the commission shall within ten days either grant or deny the same, or suspend the order or decision complained of pending further consideration, and any order of suspension may be upon such terms and conditions as the commission may prescribe.

78. **Appeal.** Within thirty days after the application for a rehearing is denied, or if the application is granted, then within thirty days after the decision on such rehearing, the applicant may appeal by petition to the supreme court.

79. ———, **Petition.** Such petition shall state briefly, (a) the nature of the proceeding before the commission, (b) shall set forth the order or decision complained of, and (c) the grounds upon which the same is claimed to be unlawful or unreasonable upon which the petitioner will rely in the supreme court.

80. ———, **Parties.** Any person whose rights may be directly affected by said appeal may appear and become a party, or the court may order such persons to be joined as parties as justice may require.

81. ———, **Notice to Commission.** Upon the filing of an appeal, the clerk of court shall issue an order of notice requiring the commission to file with the court a certified copy of the record in the proceeding, together with such of the evidence introduced before or considered by the commission as may be specified by any party in interest, as well as such other evidence, so introduced and considered, as the commission may deem proper to certify, together with the originals or copies of all exhibits introduced in evidence before the commission.

82. ———, **Other Notice.** Such notice as the court may order shall also be given to persons who were parties to the

proceeding before the commission or who may be ordered joined by the court.

83. ———, Fees for Copies. The commission shall collect from the party taking the appeal a fee of ten cents per folio of one hundred words for the copy of the record and such testimony and exhibits as shall be transferred, and five cents per folio for manifold copies, and shall not be required to certify the record upon any such appeal, nor shall said appeal be considered until the fees for copies have been paid.

84. Argument. Upon the filing of said copy of the record, evidence and exhibits, the case shall be in order for argument at the next regular session of the court, unless the same be postponed for good cause shown.

85. Burden of Proof. Except as herein otherwise provided, upon the hearing the burden of proof shall be upon the party seeking to set aside any order or decision of the commission to show that the same is clearly unreasonable or unlawful, and all findings of the commission upon all questions of fact properly before it shall be deemed to be *prima facie* lawful and reasonable; and the order or decision appealed from shall not be set aside or vacated except for errors of law, unless the court is satisfied, by a clear preponderance of the evidence before it, that such order is unjust or unreasonable.

86. Additional Evidence. No new or additional evidence shall be introduced in the supreme court, but the case shall be determined upon the record and evidence transferred, except that in any case, if it shall be necessary in order that no party shall be deprived of any constitutional right, or if the court shall be of the opinion that justice requires the reception of evidence of facts which have occurred since the hearing, or which by reason of accident, mistake or misfortune could not have been offered before the commission, it may receive and consider additional evidence.

87. Taking. Such additional evidence may be taken before a single justice or otherwise, as the court may order.

88. Stay of Proceedings. If the court in any case shall hear new evidence such new evidence shall, upon the motion of any party, be transmitted by copy to the commission, and all proceedings shall be stayed for twenty days from the date of such transmission.

89. Action of Commission. Upon receipt of such evidence, the commission shall consider the same and may alter, modify, amend or rescind the order or decision appealed from, and shall report its action thereon to the court within said twenty days.

90. Subsequent Proceedings. If the commission shall rescind the order appealed from, the appeal shall be dismissed; if it shall alter, modify or amend the same, such altered, modified or amended order shall take the place of the original order complained of, and the court shall render judgment with reference thereto in said appeal as though said order had been made by the commission in the first instance, after allowing any amendments of the pleadings or other incidental proceedings desired by the parties which the changed situation may require.

91. Evidence, How Considered. All evidence transferred by the commission shall be, and all additional evidence received may be, considered by the court regardless of any technical rule which might have rendered the same inadmissible if originally offered in the trial of an action at law.

92. Judgment. The final judgment upon every appeal shall be a decree dismissing the appeal, or vacating the order complained of in whole or in part, as the case may be; but in case such order is wholly or partly vacated the court may also, in its discretion, remand the matter to the commission for such further proceedings, not inconsistent with the decree, as in the opinion of the commission justice may require.

93. Suspension of Order. No appeal or other proceedings taken from an order of the commission shall suspend the operation of such order; provided that the supreme court may order a suspension of such order pending the determination of such appeal or other proceedings whenever, in the opinion of the court, justice may require such suspension.

94. Remedy Exclusive. No proceeding other than the appeal herein provided for shall be maintained in any court of this state to set aside, enjoin the enforcement of or otherwise review or impeach any order of the commission, except as otherwise specially provided.

95. Constitutionality. If any provision of this act or the application thereof to any person or circumstances is held invalid, the remainder of the act and the application of such pro-

visions to other persons and circumstances shall not be affected thereby.

96. Interstate Commerce. Nothing herein shall be construed as applying to interstate or foreign commerce except as may be permitted by the federal constitution and laws enacted thereunder.

97. Records of Public Service Commission. All files and records of the public service commission which relate solely to dams, water levels of the inland public waters, or stream flow gauging, shall be by it transferred and delivered to the commission.

98. Repeal. Chapter 218 of the Public Laws is hereby amended by striking out sections 13 to 47, inclusive, as amended by chapter 59, Laws of 1931.

99. Amendment. Amend section 3 of chapter 244 of the Public Laws by striking out the same and inserting in lieu thereof the following so that said section as amended shall read as follows: **3. Procedure.** The commission shall, upon notice to all parties in interest, hear and determine the necessity for the right prayed for and the compensation to be paid therefor, and shall render judgment accordingly. In proceedings under this subdivision the provisions relating to flowage rights contained in an act to establish a water control commission shall not apply but when petitions to acquire flowage or drainage rights are filed the commission shall notify the water control commission.

100. Appropriation. For carrying out the purposes of this act a sum of seven thousand five hundred dollars (\$7,500) or so much thereof as may be necessary is hereby appropriated for the fiscal year beginning July 1, 1937, and a like sum for the fiscal year beginning July 1, 1938, such sums to be a charge against the funds provided by section 18, chapter 121, Laws of 1935, which funds, for the purposes hereof shall not lapse until July 31, 1939.

101. Towns May Acquire. Amend section 4 of chapter 42 of the Public Laws by inserting after paragraph XXVI the following new paragraph: **XXVI-a. Acquire Dams.** To acquire, construct, control and operate dams at the outlet of any inland body of water, some part of which lies within the

limits of the town, whether or not the outlet is beyond the town limits, when so to do will tend to improve the recreational value of such body of water.

102. Takes Effect. This act shall take effect upon its passage.

SECTION

1. Acquisition of lands and rights for reservoirs.
2. Lands, easements and rights of way, lease of.
3. Relocations.

SECTION

4. Rights of state in reservoirs, how exercised.
5. Board, studies, reports.
6. Takes effect.

Be it enacted by the Senate and House of Representatives in General Court convened:

1. Acquisition of Lands and Rights for Reservoirs. In the acquisition of lands, easements and rights of way in the state of New Hampshire, provided in and by the terms of the compact or agreement between the state and the commonwealth of Massachusetts for the purpose of flood control in the Merrimack river basin, to be procured by the state, the New Hampshire water resources board shall be the agency of the state for that purpose. Said board is authorized and empowered, upon the request of the Merrimack river valley flood control commission, with the approval of the governor and council, to proceed forthwith to acquire title to and possession of such lands, easements and rights of way, including property or facilities in public use, any railroad, electric transmission or

distribution lines, telephone or telegraph lines, pipe lines, aqueducts, water mains, gas mains or other public utility structure located thereon, within this state as are determined and designated by the commission for the construction of any reservoir or reservoirs authorized under said compact or agreement. Said board shall acquire the same, including such property or facilities in public use, either by purchase or by the exercise of the right of eminent domain, as said commission may direct. In the taking of such lands, easements, rights of way or property or facilities in public use by the exercise of eminent domain, said board is hereby authorized and empowered to proceed in the manner provided by chapter 121 of the Laws of 1935 and amendments thereto. Said board is further authorized and empowered, with the approval of the governor and council, to enter into any contract or agreement with such public officials having authority with reference to property or facilities in public use and with such public utility or railroad providing for the removal of such property or facilities in public use, or such railroad, electric transmission or distribution lines, telephone or telegraph lines, pipe lines, aqueducts, water mains, gas mains or other public utility structures to such new location, under such terms and conditions as may be agreed upon, and without expense to such town, person, public utility or railroad, and said board for the purpose of providing any such new location or locations may acquire lands, easements, rights of way, property or facilities by purchase or by eminent domain, as herein provided. In all such cases the title may be taken either in the name of the board or of the town, person, public utility or railroad, and if taken in the name of the board, may be conveyed to the town, person, public utility or railroad in compliance with such agreement or contract. In the purchase or acquisition of lands, easements and rights of way hereunder the actual occupants thereof since May 1, 1937, whether owners or tenants, shall be paid fair compensation for any loss occasioned thereby and any such occupant who moves to a new location in the state shall be reimbursed for costs of removal occasioned by such purchase or acquisition. If the amount of damage herein provided is not agreed upon by the parties it shall be determined by the superior court upon petition therefor. Said board shall keep an accurate account of all expenditures made or costs incurred in

the acquisition of lands, easements, rights of way, property or facilities as aforesaid, and the same shall be included as a part of the cost of acquisition to be paid by the Merrimack river valley flood control commission.

2. Lands, Easements and Rights of Way, Lease of. Upon the acquisition of any such lands, easements and rights of way essential to the construction of any dam or reservoir authorized under said compact, and the full payment by the Merrimack river valley control commission of the cost of acquisition thereof, the said board, for and in behalf and as agent of the state for that purpose, and in its name, shall make, with the approval of the governor and council, execute and deliver to the Merrimack river valley flood control commission a good and sufficient lease of the same upon the conditions and subject to all the provisions and restrictions set forth in articles VI and VII of said compact.

3. Relocations. Said board, upon notice from and at the sole expense of the Merrimack river valley flood control commission, shall make or cause to be made such relocations of highways and other property or facilities in public use as may become necessary because of the construction, operation and maintenance of any reservoir or reservoirs authorized under said compact. In the relocation of such highways, the state highway commissioner, upon notice from said board, shall forthwith determine the character, location, route and construction of the same, provided, however, that before the relocation of state-aid and town highways, it shall be the duty of the highway commissioner to consult and co-operate with the local officials of the towns in which said highways are located, and said board thereafter may acquire any necessary lands, easements and rights of way therefor in the manner provided in section 1 hereof. In the relocation of other property or facilities in public use, the board, after consultation with the selectmen or other public officials having authority with reference thereto for changing the location of such, shall forthwith determine the relocation thereof, and may acquire any necessary lands, easements and other property or facilities necessary therefor, in the manner provided in section 1 hereof. An accurate record of the cost of relocating such highway or highways or other property or facilities in public use, including the cost of acquisition of any lands, easements, rights of way or

other property necessary thereto, and any expense incidental to the same, shall be kept, and the cost and expense thereof shall be paid by the Merrimack river valley flood control commission in accordance with the terms of said compact or agreement; provided, however, that due allowance shall be made on account of any improved type of construction of such relocated highway or other property or facilities in public use. In the event that the board and the Merrimack river valley flood control commission can not agree as to the cost and expense to be paid by the Merrimack river valley flood control commission on account of such highway relocation or other property or facilities in public use, either party may apply by petition to the superior court of the county wherein such highway or other property or facilities in public use, or some part thereof is located, to fix and determine the same, and, upon hearing, said court shall thereupon ascertain and adjudge the amount thereof.

4. Rights of State in Reservoirs, How Exercised. The board is hereby designated the agency, with the approval of the governor to notify the United States through its war department, before construction work is commenced upon any flood control reservoir authorized under said compact or agreement, of the determination by the state to preserve the value of any such site for the purpose of water conservation, power storage or power development which may be inherent in such site, in order that the design and construction of the dam and works at such site may be developed in such manner as to provide for the further development thereof as a storage reservoir for the purposes aforesaid and said board is hereby authorized, empowered and directed, with the approval of the governor and council, to enter into contracts or agreements with the United States respecting the terms and conditions under which such rights of water conservation, power storage or power development shall be made available. The said board is further authorized to approve on the part of the state of the type and general plans for the construction of such reservoirs as will provide for such further development in accordance with the terms and provisions of article IX of said compact or agreement, and to acquire either by purchase or eminent domain in the manner provided by chapter 121 of the Laws of 1935 and

amendments thereto such additional lands, easements and rights of way as may be necessary for the full beneficial use of the rights reserved to the state under the terms of said compact or agreement. In providing for such further development and use of such reservoirs for the purposes reserved to the state as aforesaid, or in the acquisition of lands, easements or rights of way therefor, or for any flood control reservoir site, said board, with the approval of the governor and council, is authorized to enter into such contracts and agreements with such persons, including corporations, under such terms and subject to such conditions, as to it shall appear for the best interest and advantage of the state. Said board, with the approval of the governor and council, may at any time hereafter, whenever it may determine that any reservoir constructed under the terms of said compact is desirable or necessary to be used for water conservation, power storage or power development, require the same to be adapted for that purpose in accordance with the provisions of article IX of said compact or agreement.

5. Board, Studies and Reports. The board is hereby authorized and directed to make or cause to be made such studies and investigations of the Merrimack river and its tributaries in the state, with particular reference to the matter of possible flood control reservoir sites on such tributaries, and the availability and feasibility of the same in connection with the further extension and expansion of a comprehensive program of flood control contemplated under said compact or agreement, as may be necessary to determine the character and location of reservoir sites that would be most beneficial to the state as a part of such program. Biennially, such board shall report its findings and recommendations in respect thereto to the legislature, to the end that the legislature may have full information concerning any proposed reservoir site that may hereafter be submitted to it by the Merrimack river valley flood control commission for its approval.

6. Takes Effect. This act shall take effect upon its passage.

The principal purposes of this compact are:

- (a) To promote interstate comity among and between the signatory states;
- (b) To provide adequate storage capacity for impounding the waters of the Connecticut river and its tributaries, de-

signed primarily for the protection of life and property from floods;

(c) To provide a joint or common agency through which the signatory states, while promoting, protecting and preserving to each the local interest and sovereignty of the respective signatory states, may more effectively co-operate in accomplishing the object of flood control in the basin of the Connecticut river and its tributaries, and, among other things:

A majority of the members from each state shall constitute a quorum for the transaction of business, the exercise of any powers or the performance of any duties, but no action of the commission shall be binding unless at least two of the members from each state shall vote in favor thereof. The compensation of the members of said commission shall be fixed, determined and paid by the state which they respectively represent. All necessary expenses incurred in the performance of their duties shall be paid from the funds of said commission. The commission shall elect from its members a chairman, vice-chairman, clerk and treasurer. ARTICLE III

The commission shall constitute a body, both corporate and politic, with full power and authority,—

(1) To acquire by lease and to hold lands, easements and rights of way for reservoirs herein contemplated, and for the use and enjoyment thereof;

(2) To hold, maintain and operate reservoirs, including appurtenances, for the purposes of flood control;

(3) To receive funds and moneys from the signatory states or other sources, for the purpose of acquiring, operating and maintaining such reservoirs as may hereafter be constructed within the basin of the Connecticut river under the terms of this compact, including, without limiting the same, funds for the acquisition of lands, easements and rights of way, for the payment of damages and for the maintenance and operation of said reservoirs, and the expenses incidental thereto, and to the functions of the commission;

(4) To sue and be sued;

(5) To have a seal and alter the same at pleasure;

(6) To appoint and employ such agents and employees as may be required in the proper performance of the duties hereby committed to it, and to fix and determine their qualifications, duties and compensation;

(7) To enter into such contracts and agreements, and to do and perform any and all other acts, matters and things as may be necessary and essential to the full and complete performance of the powers and duties hereby committed to and imposed upon it in connection with the construction, operation and maintenance of the system of reservoirs hereby or hereafter authorized and as may be incidental thereto; and

(8) To have such additional powers and duties as may hereafter be delegated to or imposed upon it from time to time by the action of the legislature of any of said states, concurred in by the legislatures of the other states.

The commission shall be charged with the duty, and it is hereby authorized and empowered, to give such assurances, satisfactory to the secretary of war, as are required by section 3 of the act of Congress hereinbefore referred to. The commission shall make, or cause to be made, such studies as it may deem necessary, in co-operation with the war department, for the development of a comprehensive plan of flood control, as herein defined, and for the efficient management and regulation of said flood control system, and from time to time shall make reports and recommendations in respect thereto to the signatory states. The commission shall not pledge the credit of the signatory states, or any of them, nor shall it convey, encumber, or in any way undertake to alienate the lands, ease-

ments and rights of way so leased to it, as hereinafter provided, or any part thereof, or any interest therein, except by and with the consent of the signatory states.

ARTICLE IV

There shall be established in the Connecticut river basin as an initial plan of flood control eight of the following eleven proposed reservoirs, to wit:

(a) Three of the four following reservoirs in the state of Vermont.

(1) At Victory on the Moose river, controlling a drainage area of approximately sixty-six (66) square miles, and providing flood control storage for approximately seven (7) inches of run-off over said drainage area, the dam at said reservoir to be constructed in such manner as to provide for flood control, and in addition thereto to be so designed and constructed as to provide for further development by increasing the storage capacity, the added storage to be used for water conservation or power development at the option of the state of Vermont.

(2) At Union Village on the Ompompanoosuc river, controlling a drainage area of approximately one hundred twenty-six (126) square miles, and providing flood control storage for approximately four and one-half ($4\frac{1}{2}$) inches of run-off over said drainage area, the dam at said reservoir to be constructed in such manner as to provide for flood control and also for a recreational lake, to be maintained during the summer months at a substantially constant minimum level, to be fixed by the chief of engineers of the United States Army, except when increased temporary storage is required for flood control.

(3) At North Hartland on the Ottauquechee river, controlling a drainage area of approximately two hundred twenty-two (222) square miles, and providing flood control storage for approximately four and one-tenth (4.1) inches of run-off over said drainage area, the dam at said reservoir to be for flood control purposes only.

(4) At Groton pond on the Wells river, controlling a drainage area of approximately seventeen and three-tenths (17.3) square miles, and providing flood control storage for approximately seven (7) inches of run-off over said drainage

area, and the dam at said reservoir to be constructed in such manner as to provide for flood control and also for a recreational lake, the level of the water to be maintained during the summer months at a substantially constant minimum level, to be fixed by the chief of engineers of the United States Army, except when increased temporary storage is required for flood control.

(b) Three reservoirs in the state of New Hampshire as follows:

(1) At Bethlehem Junction on the Ammonoosuc river, controlling a drainage area of approximately ninety (90) square miles, and providing flood control storage for approximately six (6) inches of run-off over said drainage area, the dam at said reservoir to be constructed in such manner as to provide for flood control and also for a recreational lake to be maintained during the summer months at a substantially constant minimum level, to be fixed by the chief of engineers of the United States Army, except when increased temporary storage is required for flood control.

(2) At Stocker pond in the towns of Grantham and Springfield, controlling a drainage area of approximately thirty-four and four-tenths (34.4) square miles, and providing flood control storage for approximately six (6) inches of run-off over said drainage area, the dam at said reservoir to be constructed for flood control, and in addition thereto to be so designed and constructed as to provide for further development by increasing the storage capacity, the added storage to be used for water conservation or power development, at the option of the state of New Hampshire.

(3) At Surry Mountain on the Ashuelot river, controlling a drainage area of approximately one hundred (100) square miles, and providing flood control storage for approximately six (6) inches of run-off over said drainage area, the dam at said reservoir to be constructed in such manner as to provide for flood control, and in addition thereto to be so designed and constructed as to provide for further development by increasing the storage capacity, the added storage to be used for water conservation or power development, at the option of the state of New Hampshire.

(c) Two of the four following reservoirs in the commonwealth of Massachusetts:

(1) At Knightville on the Westfield river, controlling a drainage area of approximately one hundred sixty-four (164) square miles, and providing flood control storage for approximately four and five-tenths (4.5) inches of run-off over said drainage area, the dam at said reservoir to be constructed in such manner as to provide for flood control, and in addition thereto to be so designed and constructed as to provide for further development by increasing the storage capacity, the added storage to be used for water conservation or power development, at the option of the commonwealth of Massachusetts; or to be constructed in such manner as to provide for flood control and also for a recreational lake to be maintained during the summer months at a substantially constant minimum level, to be fixed by the chief of engineers of the United States Army, except when increased temporary storage is required for flood control, as said commonwealth of Massachusetts may elect.

(2) At Tully on the Tully brook, a tributary of Millers river, controlling a drainage area of approximately fifty (50) square miles, and providing flood control storage for approximately eight (8) inches of run-off over said drainage area, the dam at said reservoir to be constructed in such manner as to provide for flood control, and in addition thereto to be so designed and constructed as to provide for further development by increasing the storage capacity, the added storage to be used for water conservation or power development, at the option of the commonwealth of Massachusetts; or to be constructed in such manner as to provide for flood control and also for a recreational lake to be maintained during the summer months at a substantially constant minimum level, to be fixed by the chief of engineers of the United States Army, except when increased temporary storage is required for flood control, as said commonwealth of Massachusetts may elect.

(3) At Priest pond on Priest brook, a tributary of Millers river, controlling a drainage area of approximately eighteen and eight-tenths (18.8) square miles, and providing flood control storage for approximately six (6) inches of run-off over said drainage area, the dam at said reservoir to be constructed in such manner as to provide for flood control, and in addition thereto to be so designed and constructed as to provide for further development by increasing the storage

capacity, the added storage to be used for water conservation or power development, at the option of the commonwealth of Massachusetts; or to be constructed in such manner as to provide for flood control, and also for a recreational lake to be maintained during the summer months, at a substantially constant minimum level, to be fixed by the chief of engineers of the United States Army, except when increased temporary storage is required for flood control, as said commonwealth of Massachusetts may elect.

(4) At Lower Naukeag on the Millers river, controlling a drainage area of approximately nineteen and seven-tenths (19.7) square miles, and providing flood control storage for approximately five and one-tenth (5.1) inches of run-off over said drainage area, the dam at said reservoir to be constructed in such manner as to provide for flood control and also for a recreational lake, to be maintained during the summer months at a substantially constant minimum level, to be fixed by the chief of engineers of the United States Army, except when increased temporary storage is required for flood control.

The type and general plans for the construction of the eight reservoirs herein provided to be constructed as an initial plan of flood control on the Connecticut river basin, are to be approved by the Connecticut river valley flood control commission, hereinbefore created, before any construction work thereon is begun or prosecuted. So far as any of the foregoing reservoirs may be constructed for the combined purpose of flood control and recreational facilities, none of the signatory states wherein such reservoirs are located shall be obligated to pay any additional cost of construction.

ARTICLE V

To the end that the Connecticut river valley flood control commission may give to the secretary of war the assurances required under section 3 of the act of Congress hereinbefore referred to, and that the lands, easements and rights of way necessary for the construction by the United States of the reservoirs and structures thereon, herein contemplated, may be provided, each state at the request of said commission shall proceed forthwith to acquire title to and possession of the lands, easements and rights of way within its territorial

limits, which are determined and designated by the commission for the construction of such reservoir or reservoirs. Such acquisition shall be by purchase or by the exercise of the right of eminent domain, as said commission may direct, and in the manner now or hereafter provided for by the laws of the states wherein such lands, easements and rights of way are located. Title to such lands, easements and rights of way shall be taken in the name of the state wherein the same are located. The cost of acquisition, as hereinafter defined, shall be borne by said commission and paid from and out of the funds contributed by the signatory states for such purpose, as hereinafter provided. Each state, upon notice from and at the sole expense of said commission, shall forthwith proceed to make, or cause to be made, such highway relocations, including the acquisition of all necessary rights of way therefor, and the construction of such relocated highway, as may become necessary therein because of the construction, operation and maintenance of any reservoir or reservoirs for flood control purposes. Provided, however, that due allowance shall be made on account of any improved type of construction of such relocated highway. The character, location, route and construction of such relocated highways shall be determined by the state wherein such relocated highway is situated, or by its representatives. In like manner, such state, at the expense of the commission, and upon its request, shall procure the relocation of any railroad, electric transmission, telephone or telegraph lines, or other public utility structures, including new rights of way therefor as may be essential on account of the construction, operation and maintenance of such reservoir for flood control purposes.

ARTICLE VI

The commission shall save the states in which such reservoirs are located free and harmless from all loss, cost, damage or expense in connection with the control, operation and maintenance of such reservoir or reservoirs except as hereinafter provided in articles IX and XI. The commission or the war department in the construction and maintenance of such reservoir or reservoirs shall cause the area which may be flowed thereby when full, to be cleared of buildings and all such trees, brush and underbrush as from time to time may be

damaged or killed by such flowage; shall cause borrow pits or banks, other excavations or unused accumulations of material and debris, to be leveled, graded, masked, removed or otherwise disposed of in such a way as to leave no holes or other unsightly conditions therein; and shall cause all water pockets to be properly drained and the premises affected by such flowage to be landscaped in such manner as may reasonably preserve the natural condition of such premises before such construction, except as the same necessarily may be changed thereby. The lands, easements and rights of way leased shall be exempt from all taxation but the said commission shall make payments on or before the first day of October of each year to each town in which such lands, easements and rights of way, respectively, are located, of a sum equal to the taxes which would have been assessed against the said lands, easements and rights of way in such town if the same had been included in the list of taxable property for such year, at the assessed valuation of the same as determined for the tax year 1936. Provided, however, that no payment shall be made or required hereunder on account of reimbursement for loss of taxes on any structure which may be erected on such premises in connection with the construction or use of said project, or on account of any railroad or other public utility which may be relocated under the terms of this compact, and which is included in the list of taxable property in said town when relocated. When said lands, easements and rights of way essential to the construction of any dam or reservoir shall have been acquired as hereinbefore provided, the state wherein the same are located, shall make, execute and deliver to said commission a good and sufficient lease of the same, to include the structures thereon when completed and accepted by the state, except as hereinafter provided, upon the terms and conditions following, to wit:

(a) The said commission shall save the state in which said reservoirs are respectively located, free and harmless from all loss, cost, damage or expense in connection with the control, operation and maintenance of said reservoir or reservoirs except as hereinafter provided in articles IX and XI.

(b) In the construction and maintenance of such reservoir or reservoirs, the area which may be flowed thereby, when full, shall be cleared of buildings and of such trees, brush and

underbrush, as from time to time may be damaged or killed by such flowage; borrow pits or banks, other excavations or unused accumulations of material and debris, shall be leveled, graded, masked, removed or otherwise disposed of in such a way as to leave no holes or other unsightly conditions therein; all water pockets shall be properly drained; and the premises affected by such flowage shall be landscaped in such manner as may reasonably preserve the natural condition of such premises before such construction, except as the same necessarily may be changed thereby.

(c) The lands, easements and rights of way hereby leased shall be exempt from all taxation; but the said commission shall make payments on or before the first day of October of each year to each town in which such lands, easements and rights of way, respectively, are located, of a sum equal to the taxes which would have been assessed against the said lands, easements and rights of way in such town if the same had been included in the list of taxable property for such year, at the assessed valuation of the same as determined for the tax year 1936. Provided, however, that no payment shall be made or required hereunder on account of reimbursement for loss of taxes on any structure which may be erected on such premises in connection with the construction or use of said project; or on account of any railroad or other public utility which may be relocated under the terms of this agreement, and which thereafter is included in the list of taxable property in said town when relocated.

(d) The lands, easements and rights of way herein described, are leased and demised solely for the purpose of flood control, and for no other purpose, and the said lessor hereby excepts from this lease and reserves unto itself all benefit or advantage of water conservation, power storage or power development, that may be inherent in such reservoir site, with the right, at such time as it may determine, and upon compliance with the requirements of the United States respecting the adjustment and payment of any added construction cost by reason of the type of construction adapted for that purpose, and the assumption and payment of the cost of acquiring any additional lands, easements and rights of way necessitated by such additional development, and the full preservation of the

principal purpose of flood control, to develop the same in such manner and for such purpose as may be essential to the full beneficial use thereof.

(e) The term of said lease shall be for the period of nine hundred and ninety-nine years, subject only to be defeated by a breach of the terms or the conditions in this article set forth.

ARTICLE VII

The cost of acquisition of lands, easements and rights of way, as used or referred to herein, shall be deemed to include the cost of:

(1) The purchase or condemnation of lands, easements and rights of way of every kind and nature required or essential in the construction, development, operation and maintenance of such reservoirs as an effective agency for flood control, and including, among other things, camp sites, borrow banks or pits, rock ledges, gravel deposits and rights of way thereto in the vicinity of the dam necessary for the construction and maintenance thereof. Such camps are to be removed and the sites thoroughly cleaned up at no cost to the states or commission before being relinquished by the United States upon the completion of the construction work;

(2) The reconstruction, relocation or elevation of public highways, including bridges or other structures;

(3) The reconstruction or relocation of public service utilities, including railroads and the alteration of bridges and structures thereon, whether publicly or privately owned;

(4) The reconstruction or relocation of telegraph, telephone or electric light or power distribution and transmission lines, pipe lines, aqueducts, water or gas mains; and

(5) Any other damages, expenses or costs that may be necessitated or incurred in procuring and providing the sites necessary for the construction of the reservoirs herein contemplated, including the cost and expense of acquiring such lands, easements and rights of way and procuring the reconstruction or relocation of the highways, bridges, railroads, telephone, telegraph and electric lines, pipes, aqueducts and mains above-mentioned, or the rights of way for the same, or any other similar expenditures.

ARTICLE VIII

The rights to be acquired and exercised by the commission are solely for flood control purposes, and each of the respective signatory states wherein any reservoir may be situated, reserves respectively unto itself, all benefit or advantage of water conservation, power storage or power development that may be inherent in such reservoir site. In the event any signatory state may wish to preserve to itself the value of such site for the purposes aforesaid, it may, through an appropriate agency of the state, so notify the United States, through its war department, before any construction work is commenced hereunder for flood control purposes, so that the design and construction of the dam at such site may be developed in such manner as to provide for further development as a storage reservoir for the conservation of water, enhancement of stream flow or power development. Provided, however, that nothing herein contained shall be deemed to prevent any such state, at its option, at any time hereafter, by itself or through such agency as it may designate, from developing any such reservoir or reservoirs for use for water conservation, power storage or power development, in order that it may avail itself of the full beneficial use and enjoyment of the rights herein reserved. In such event, such state shall pay or provide for the payment of all costs or expenses necessary for such further development, including adaptation of any existing dam and works to such purpose, in accordance with plans approved by the secretary of war, and at all times fully preserve the primary purpose of flood control. The terms and conditions under which any such signatory state shall make available the rights of water conservation, power storage or power development herein reserved shall be determined by separate agreement or arrangement between such state and the United States, and the type and general plans for the construction of such of the reservoirs as are herein contemplated to provide for such further development shall be approved by some agency of such state, for that purpose duly authorized, before any construction thereon is begun or prosecuted.

ARTICLE IX

In order that an adequate fund may be established and created from which payments for the acquisition of lands, easements and rights of way may be made, the signatory states become bound and each hereby obligates itself to pay to the commission, the proportion of the cost of acquisition of lands, easements and rights of way respectively set forth below, and subject to the limitations hereinafter provided, as follows:

(1) The commonwealth of Massachusetts fifty per cent thereof.

(2) The state of Connecticut forty per cent thereof.

(3) The state of New Hampshire five per cent thereof.

(4) The state of Vermont five per cent thereof. Provided, however, that it is the understanding, intent and purpose of the parties hereto, that the cost of acquisition of lands, easements and rights of way for eight reservoirs, provided for herein, shall not exceed the sum of two million seven hundred thousand dollars (\$2,700,000) and that the drainage area of the Connecticut river basin to be controlled thereby shall be approximately seven and sixty-one hundredths (7.61) per cent thereof; and it is expressly provided that the maximum amount to which each of the signatory states shall be bound or obligated for cost of acquisition of lands, easements and rights of way on account of said eight reservoirs shall not exceed the respective proportions hereinbefore set forth of said sum of two million seven hundred thousand dollars (\$2,700,000). The fiscal year shall be deemed to begin on July first and end on June thirtieth. Payment by the signatory states of the cost of acquisition shall be made as and when requested by the commission on or after July 1, 1937; provided that no more than one half of said sum of two million seven hundred thousand dollars (\$2,700,000) shall be required to be paid in any fiscal year after said date.

ARTICLE X

In the execution of the initial plan of eight reservoirs herein contemplated said commission, with the approval of the secretary of war, shall determine the order in which the construction work of the same shall be commenced and prosecuted, except that it is hereby declared to be the intent and

purpose of the signatory states that construction work shall be first begun on one reservoir project located in the commonwealth of Massachusetts and upon one reservoir project located respectively in each of the states of New Hampshire and Vermont before further construction work is begun on any other reservoir. The initial plan for the construction of eight reservoirs herein mentioned and provided for is part of a long range comprehensive program for flood control on the Connecticut river and its tributaries, the object and purpose of the signatory states being to enlarge and expand such flood control projects to an ultimate control, including the reservoirs herein above-mentioned of approximately twenty-one per cent of the drainage area thereof, at a total maximum cost to the signatory states, including the cost herein specified, of not to exceed ten million five hundred seventy-five thousand dollars (\$10,575,000) ; and the contributions by the respective signatory states, in the proportions hereinbefore set forth, shall not in any event exceed the total amount above stated. In the further development of such comprehensive program, said commission shall determine from time to time the site, character, location and extent of such additional reservoirs, subject to the approval of the legislature of the state in which the same may be located.

ARTICLE XI

Each of the signatory states shall annually contribute and pay to the commission the respective proportions of the expense of operation and maintenance of the flood control reservoirs hereafter constructed under the terms of this agreement as follows: The commonwealth of Massachusetts fifty per cent thereof, the state of Connecticut forty per cent thereof, the state of New Hampshire five per cent thereof, the state of Vermont five per cent thereof, and each of said states shall make adequate provision for compliance on its part with the provisions of this article, and the same shall be made available as and when required upon the requisition of the commission. As a part of the expense of operation and maintenance of said reservoirs the commission shall assume and pay to the respective towns entitled thereto the cost of reimbursement for loss of taxes, as set forth and required in sub-paragraph (c) in article VI hereof, and shall pay all costs incident to or

damages resulting from the operation and maintenance of such flood control reservoirs, and shall save the United States free and harmless on account thereof, and shall pay all other costs or expenses which may be necessary in the operation and maintenance thereof, including the expenses of the members of said commission hereinbefore provided to be paid out of the funds of said commission.

ARTICLE XII

Each of the signatory states hereby releases and discharges the others of and from all damages, which may be claimed to result from the obstruction, detention, impounding, storage, release or diversion of the waters of said Connecticut river and its tributaries, so far as the same may be in any way affected by the construction, operation or maintenance of the reservoirs herein contemplated.

ARTICLE XIII

This compact shall become operative and effective when approved by the legislatures of each of the signatory states and by the Congress of the United States. Notice of approval shall be given by the governor of each state to the governors of the other states and to the President of the United States, and the President of the United States is requested to give notice to the governors of each of the signatory states of its approval by the Congress of the United States.

2. Compact, Takes Effect on Ratification and Approval. The said agreement or compact when approved by the legislatures of each of said states and by the Congress of the United States, shall thereupon become operative and effective. The said agreement or compact is hereby ratified and approved and the governor is authorized and directed forthwith to notify the governors, respectively, of the said states and the President of the United States, that the state of New Hampshire on its part has approved and ratified said compact or agreement. Upon its execution in quintuplicate by the commissioners of each of said states as aforesaid, a duly executed original thereof shall be filed in the office of the secretary of state of the state of New Hampshire, together with the original notice of ratification received from the governors of the remaining

signatory states, and such notice, if any, as may be received from the President or the Congress of the United States, signifying the approval by such Congress thereto.

3. Special Commissioners, Vacancy. If by death, resignation or otherwise, a vacancy occurs among those appointed hereunder to enter into and execute said compact or agreement for and on behalf of the state of New Hampshire, the governor, with the advice and consent of the council, is hereby authorized to fill the same.

4. Flood Control Commissioners, Appointment, Term. The state of New Hampshire shall be represented on "The Connecticut River Valley Flood Control Commission" by three commissioners, appointed by the governor, with the advice and consent of the council. The term of office of said commissioners shall be for six years and until their successors are appointed and qualified. Within thirty days after said agreement or compact shall become effective as provided in section 2 of this act the governor, with the advice and consent of the council, shall appoint three commissioners of the Connecticut river valley flood control commission to serve for terms of two, four and six years respectively. Thereafter all commissioners shall be appointed for the full term, except that commissioners appointed to fill vacancies shall hold office for the unexpired term.

5. Flood Control Commissioners, Removal. The governor and council may at any time remove any such commissioner for inefficiency, neglect of duty, or malfeasance in office, upon hearing, after notice in writing to the commissioner of the charges against him.

6. Commissioners, Compensation. The governor and council shall determine the compensation of said commissioners. Each member of said commission appointed by the governor and council who does not hold a salaried state office while he is a member thereof shall be compensated not to exceed fifteen dollars per day for each day's service performed by him in connection with his duties as such member.

7. Bonds and Notes Authorized. For the purpose of carrying out the provisions of article IX of said compact or agreement relating to the payment by the state to the Connecticut river valley flood control commission of the proportionate share of the state in the cost of acquisition of lands, ease-

ments and rights of way for the reservoirs therein provided as the initial plan, the state treasurer is hereby authorized, under the direction of the governor and council, to borrow upon the credit of the state sums not exceeding one hundred and thirty-five thousand dollars (\$135,000) in all and for that purpose may issue bonds and notes in the name of and on behalf of the state of New Hampshire at a rate of interest to be determined by the governor and council at the time of approval of the issue, said interest to be payable semi-annually. The maturity dates of such bonds and notes shall be not later than January 1, 1955. Such bonds and notes shall be in such form and such denominations and with such provisions for call or redemption as the governor and council may determine, may be registerable as to both principal and interest, shall be countersigned by the governor and council and shall be deemed a pledge of the faith and credit of the state.

8. Accounts. The secretary of state shall keep an account of all such bonds and notes as countersigned by the governor, showing the number and amount of each bond and note, the time of countersigning, the date of delivery to the treasurer and the date of maturity. The state treasurer shall keep an account of each bond and note, showing the number thereof, the name of the person to whom sold, the amount received for the same, the date of the sale and the date of maturity.

9. Sale; Disposition of Proceeds. The treasurer may negotiate and sell such bonds and notes by direction of, and in such manner as, the governor and council deem most advantageous to the state. The proceeds of the sale of such bonds and notes shall be held by the treasurer and paid by him upon warrants drawn by the governor for the purposes set forth in section 7 alone. The governor, with the advice and consent of the council, shall draw his warrants for the payment, from the funds provided for herein, of all sums expended or due for the purposes set forth in section 7.

10. Payment. The bonds and notes authorized by section 7 shall be a charge upon the sinking fund as constituted by chapter 126 of the Laws of 1931.

11. Short-Term Notes. Prior to the issuance of bonds hereunder, the treasurer, under the direction of the governor and council, may for the purposes as set forth in section 7, borrow money from time to time on short-term loans to be re-

funded by the issuance of the bonds hereunder, provided that at no one time shall the indebtedness of the state on such short-term loans exceed the sum of one hundred and thirty-five thousand dollars (\$135,000).

12. Appropriation; Expense of Operation and Maintenance. For the purpose of carrying out the provisions of article XI of said compact or agreement, relating to the payment by the state to the Connecticut river valley flood control commission of the proportionate share of the state in the expenses of operation and maintenance of said reservoirs, there is hereby appropriated the sum of five thousand dollars, or so much thereof as may be found necessary, for the fiscal year ending June 30, 1938, and the sum of five thousand dollars or so much thereof as may be found necessary for the fiscal year ending June 30, 1939.

13. Takes Effect. This act shall take effect upon its passage.

[Approved June 30, 1937.]

1. Compact; Execution by Commissioners. The governor, with the advice and consent of the council, shall appoint three persons as commissioners, all or any two of whom are hereby

authorized as commissioners upon the part of the state of New Hampshire, for and in its name and behalf to enter into and execute with the commonwealth of Massachusetts by and through the commissioners appointed or who may be appointed under or by virtue of a law of the legislatures of said state and commonwealth, an agreement or compact in the form following, that is to say:

WHEREAS, the commonwealth of Massachusetts and the state of New Hampshire recognize that destructive floods upon the Merrimack river, upsetting orderly processes and causing loss of life and property, including the erosion of lands, and impairing and obstructing highways, railroads and other channels of commerce between the aforesaid states, constitute a menace, and that investigations and improvements of said Merrimack river and its tributaries, including the watersheds thereof, for flood control purposes are in the interest of the general welfare of the aforesaid states; and

WHEREAS, under section 4 of an act of the Congress of the United States of America entitled "Public-No. 738-74th Congress—An Act authorizing the construction of certain public works on rivers and harbors for flood control, and for other purposes," approved June 22, 1936, "the consent of Congress" was "given to any two or more states to enter into compacts or agreements in connection with any project or operation authorized by this act for flood control or the prevention of damage to life or property by reason of floods upon any stream or streams and their tributaries which lie in two or more such states, for the purpose of providing, in such manner and such proportion as may be agreed upon by such states and approved by the secretary of war, funds for construction and maintenance, for the payment of damages, and for the purchase of rights of way, lands, and easements in connection with such project or operation;" and

WHEREAS, the Merrimack river, together with its tributaries, is such a waterway as is defined in said act of Congress above referred to, and the adequate and proper regulation of the destructive floods hereinbefore referred to upon said Merrimack river and its tributaries can best be accomplished by the mutual agreement and co-operation of the states hereinbefore named, by and through a joint or common agency; and

WHEREAS, under and by the terms of said act of Congress, hereinbefore referred to, the entire cost of construction of the various projects for flood control therein defined, is to be paid and discharged by the United States, and the signatory states hereto desire to avail themselves of the advantages and benefits accruing to them thereby and to be relieved of such cost of construction.

Now, therefore, the commonwealth of Massachusetts and state of New Hampshire do hereby enter into the following compact, to wit:

ARTICLE I

The principal purposes of this compact are:

(a) To promote interstate comity between the signatory states;

(b) To provide adequate storage capacity for impounding the waters of the Merrimack river and its tributaries, designed primarily for the protection of life and property from floods;

(c) To provide a joint or common agency through which the signatory states, while promoting, protecting and preserving to each the local interest and sovereignty of the respective signatory states, may more effectively co-operate in accomplishing the object of flood control in the basin of the Merrimack river and its tributaries, and, among other things:

(1) To acquire by lease from the states signatory hereto, or either of them, all lands, easements and rights of way necessary for the construction of the projects herein contemplated, without cost to the United States, except as provided in said act of Congress hereinbefore referred to;

(2) To hold and save the United States free from damages due to the construction works;

(3) To maintain and operate all the works contemplated after completion in accordance with regulations prescribed by the secretary of war;

(4) To accept from the signatory states hereto, and from any other source, contributions of moneys as hereinafter set forth for the purposes herein set forth, including without limiting the same, funds for the acquisition of lands, easements and rights of way, for the payment of damages and for the operation and maintenance of said flood control reservoirs,

and for the expenses incidental thereto and to the functions of the Merrimack river valley flood control commission hereinafter created.

ARTICLE II

There is hereby created "The Merrimack River Valley Flood Control Commission," hereinafter referred to as the commission, which shall consist of six commissioners, three of whom shall be residents of the commonwealth of Massachusetts and three of whom shall be residents of the state of New Hampshire. Each state shall choose its members of said commission in such manner and for such terms as may from time to time be provided by the law thereof. A commissioner may be removed or suspended from office as provided by the law of the state which he represents; and any vacancy occurring in said commission shall be filled in accordance with the law of the state in whose representation such vacancy exists. A majority of the members from each state shall constitute a quorum for the transaction of business, the exercise of any powers or the performance of any duties, but no action of the commission shall be binding unless at least two of the members from each state shall vote in favor thereof. The compensation of the members of said commission shall be fixed and paid by the state which they respectively represent. All necessary expenses incurred in the performance of their duties shall be paid from the funds of said commission. The commission shall elect from its members a chairman, vice-chairman, clerk and treasurer. Such treasurer shall furnish to said commission, at its expense, a bond with corporate surety, to be approved by said commission, in such amount as said commission may determine, conditioned for the faithful performance of his duties. The commission shall adopt suitable by-laws, and shall make such rules and regulations as it may deem advisable governing the operation of flood control projects, not inconsistent with the laws of the signatory states or laws of the United States, and any rules or regulations lawfully promulgated thereunder. The commission shall make an annual report to the governor of each of the signatory states, setting forth in detail the operations and transactions conducted by it pursuant to this compact and any legislation thereunder. The commission shall keep a record

of all its meetings and proceedings, contracts and accounts, and shall maintain a suitable office, where its maps, plans, documents, records and accounts shall be kept, subject to public inspection at such times and under such regulations as the commission shall determine.

ARTICLE III

The commission shall constitute a body, both corporate and politic, with full power and authority,—

(1) To acquire by lease and to hold lands, easements and rights of way for reservoirs herein contemplated, including such reservoirs, when and as completed, and any and all lands, easements and rights of way which may be necessary for the use and enjoyment of said reservoirs;

(2) To hold, maintain and operate reservoirs, including appurtenances, for the purposes of flood control;

(3) To receive funds and moneys from the signatory states or other sources, for the purpose of acquiring, operating and maintaining such reservoirs as may hereafter be constructed within the basin of the Merrimack river under the terms of this compact, including, without limiting the same, funds for the acquisition of lands, easements and rights of way, for the payment of damages and for the maintenance and operation of said reservoirs, and the expenses incidental thereto and to the functions of the commission;

(4) To sue and be sued;

(5) To have a seal and alter the same at pleasure;

(6) To appoint, employ or contract with such agents and employees, including the New Hampshire water resources board, as may be required in the proper performance of the duties hereby committed to the commission, and to fix and determine the qualifications, duties and compensations of such agents and employees;

(7) To enter into such contracts and agreements, and to do and perform any and all such acts, matters and things as may be necessary and essential to the full and complete performance of the powers and duties hereby committed to and imposed upon it in connection with the construction, operation and maintenance of the system of reservoirs hereby or hereafter authorized and as may be incidental thereto; and

(8) To have such additional powers and duties as may hereafter be delegated to or imposed upon it from time to time by the action of the legislature of either of said states, concurred in by the legislature of the other state.

The commission shall be charged with the duty, and it is hereby authorized and empowered, to give such assurances, satisfactory to the secretary of war, as are required by section 3 of the act of Congress hereinbefore referred to. The commission may make, or may cause to be made, such studies as it may deem necessary, in co-operation with the war department, for the development of a comprehensive plan of flood control, as herein defined, and for the efficient management and regulation of said flood control system, and from time to time shall make reports and recommendations in respect thereto to the governors of the signatory states. The commission shall not pledge the credit of the signatory states, or either of them, nor shall it convey, encumber, or in any way undertake to alienate the lands, easements and rights of way leased to it, as hereinafter provided, or any part thereof, or any interest therein, except by and with the consent of the signatory states.

ARTICLE IV

There shall be established in the Merrimack river basin as an initial plan of flood control the following two proposed reservoirs, to wit:

(1) At Franklin on the Pemigewasset river controlling a drainage area of approximately one thousand (1,000) square miles, and providing for flood control storage for approximately three and nineteen hundredths (3.19) inches of run-off over said drainage area, the dam at said reservoir to be constructed in such manner as to provide for flood control and in addition thereto to be so designed and constructed as to make it available for conservation or recreational purposes up to fifty per cent of the volume during such portions of the year as may be approved by the secretary of war.

(2) At Swetts Mills on the Blackwater river controlling a drainage area of one hundred and twenty-five (125) square miles and providing for approximately six and nine-tenths (6.9) inches of run-off over said drainage area, the dam of said reservoir to be constructed in such a manner as to provide for flood control, and in addition thereto, at the option of the state

of New Hampshire, to be so designed and constructed as to provide for further development by increasing storage capacity, the added storage to be used for water conservation or power development.

The type and general plans for the construction of the two reservoirs herein provided to be constructed as an initial plan of flood control on the Merrimack river basin are to be approved by the Merrimack river valley flood control commission, hereinbefore created, before any construction work thereon is begun or prosecuted. So far as any of the foregoing reservoirs may be constructed for the combined purpose of flood control and conservation or recreational purposes, neither of the signatory states wherein such reservoirs are located shall be obligated to pay any additional cost of construction.

ARTICLE V

To the end that the Merrimack river valley flood control commission may give to the secretary of war the assurances required under section 3 of the act of Congress hereinbefore referred to, and that the lands, easements and rights of way necessary for the construction by the United States of the reservoirs and structures thereon, herein contemplated, may be provided, each state at the request of the commission shall proceed forthwith to acquire title to and possession of the lands, easements and rights of way within its territorial limits, which are determined and designated by the commission for the construction of such reservoir or reservoirs. Such acquisition shall be by purchase or by the exercise of the right of eminent domain, as said commission may direct, and in the manner now or hereafter provided for by the law of the state wherein such lands, easements and rights of way are located. Title to such lands, easements and rights of way shall be taken in the name of the state wherein the same are located. The cost of acquisition, as hereinafter defined, shall be borne by said commission and paid from and out of the funds contributed by the signatory states for such purpose, as hereinafter provided. Each state, upon notice from and at the sole expense of said commission, shall forthwith proceed to make, or cause to be made, such highway relocations, including the acquisition of all necessary rights of way therefor, and the construction of such relocated highway, as may become necessary therein because of the construction, operation and mainte-

nance of any reservoir or reservoirs for flood control purposes; provided, however, that due allowance shall be made on account of any improved type of construction of such relocated highway. The character, location, route and construction of such relocated highways shall be determined by the state wherein such relocated highways are situated. Any new or relocated highway shall, after construction, be and become a public way in the town in which located, or, if built as a relocation of a state highway, shall become a state highway, and when the commission shall have notified the town or the state, as the case may be, of the completion of said highway, the jurisdiction and responsibility of the commission over same shall cease and shall devolve upon the town or state in which the way is located. In like manner, such state, at the expense of the commission and upon its request shall procure the relocation of any railroad, electric transmission, telephone or telegraph lines, or other public utility structures, including new rights of way therefor as may be essential on account of the construction, operation and maintenance of such reservoir for flood control purposes.

ARTICLE VI

The commission shall save the states in which such reservoirs are located, free and harmless from all loss, cost, damage or expense in connection with the flood control, operation and maintenance of such reservoir or reservoirs except as herein-after provided in articles X and XII.

In the construction and maintenance of such reservoir or reservoirs the commission shall cause the area which may be flowed thereby when full, to be cleared of buildings and all such trees, brush and underbrush as from time to time may be damaged or killed by such flowage; shall cause borrow pits or banks, other excavations or unused accumulations of material and debris, to be leveled, graded, masked, removed or otherwise disposed of in such a way as to leave no holes or other unsightly conditions therein; and shall cause all water pockets to be properly drained and the premises affected by such flowage to be landscaped in such manner as may reasonably preserve the natural condition of such premises before such construction, except as the same necessarily may be changed thereby.

The lands, easements and rights of way hereby leased shall be exempt from all taxation but the said commission shall

make payments on or before the first day of October of each year to each town in which such lands, easements and rights of way, respectively, are located, of a sum equal to the taxes which would have been assessed against the said lands, easements and rights of way in such town if the same had been included in the list of taxable property for such year, at the assessed valuation of the same as determined for the tax year 1936. Provided, however, that no payment shall be made or required hereunder on account of reimbursement for loss of taxes on any structure which may be erected on such premises in connection with the construction or use of said project, or on account of any railroad or other public utility which may be relocated under the terms of this compact, and which thereafter is included in the list of taxable property in said town when relocated.

ARTICLE VII

When said lands, easements and rights of way essential to the construction of any dam or reservoir shall have been acquired as hereinbefore provided, the state wherein the same are located shall make, execute and deliver to said commission a good and sufficient lease of the same, to include the structures thereon when completed and accepted by the state, except as hereinafter provided, upon the terms and conditions following, to wit:

(a) The said commission shall save the state in which said reservoirs are respectively located, free and harmless from all loss, cost, damage or expense in connection with the control, operation and maintenance of said reservoir or reservoirs except as hereinafter provided in articles X and XII.

(b) In the construction and maintenance of such reservoir or reservoirs, the area which may be flowed thereby, when full, shall be cleared of buildings and of such trees, brush and underbrush as from time to time may be damaged or killed by such flowage; borrow pits or banks, other excavations or unused accumulations of material and debris, shall be leveled, graded, masked, removed or otherwise disposed of in such a way as to leave no holes or other unsightly conditions therein; all water pockets shall be properly drained; and the premises affected by such flowage shall be landscaped in such manner as may reasonably preserve the natural condition of such

premises before such construction, except as the same necessarily may be changed thereby.

(c) The lands, easements and rights of way hereby leased shall be exempt from all taxation; but the said commission shall make payments on or before the first day of October of each year to each town in which such lands, easements and rights of way, respectively, are located, of a sum equal to the taxes which would have been assessed against the said lands, easements and rights of way in such town if the same had been included in the list of taxable property for such year, at the assessed valuation of the same as determined for the tax year 1936. Provided, however, that no payment shall be made or required hereunder on account of reimbursement for loss of taxes on any structure which may be erected on such premises in connection with the construction or use of said project; or on account of any railroad or other public utility which may be relocated under the terms of this compact and which thereafter is included in the list of taxable property in said town when relocated.

(d) The lands, easements and rights of way herein described are leased and demised solely for the purpose of flood control, and for no other purpose, and the said lessor hereby excepts from this lease and reserves unto itself all benefit or advantage of water conservation, power storage or power development that may be inherent in such reservoir site, with the right, at such time as it may determine and upon compliance with the requirements of the United States respecting the adjustment and payment of any added construction cost by reason of the type of construction adapted for that purpose, and the assumption and payment of the cost of acquiring any additional lands, easements and rights of way necessitated by such additional developments, and the full preservation of the principal purpose of flood control, to develop the same in such manner and for such purpose as may be essential to the full beneficial use thereof.

(e) The term of said lease shall be for the period of nine hundred and ninety-nine years, subject only to be defeated by a breach of the terms or the conditions in this article set forth.

ARTICLE VIII

The cost of acquisition of lands, easements and rights of way, as used or referred to herein, shall be deemed to include the cost of:

(1) The purchasing or condemning of lands, easements and rights of way of every kind and nature required or essential in the construction, development, operation and maintenance of such reservoirs as an effective agency for flood control, and including, among other things, camp sites, borrow banks or pits, rock ledges, gravel deposits and rights of way thereto in the vicinity of the dam necessary for the construction and maintenance thereof.

(2) The reconstruction, relocation or elevation of public highways, including bridges or other structures;

(3) The reconstruction or relocation of public service utilities, including railroads and the alteration of bridges and structures thereon, whether publicly or privately owned;

(4) The reconstruction or relocation of telegraph, telephone or electric distribution and transmission lines, pipe lines, aqueducts, water or gas mains;

(5) And any and all other damages, expenses or costs that may be necessitated or incurred in procuring and providing the sites necessary for the construction of the reservoirs herein contemplated, including the cost and expense of acquiring such lands, easements and rights of way and procuring the reconstruction or relocation of the highways, bridges, railroads, telephone, telegraph and electric lines, pipes, aqueducts and mains above-mentioned, or the rights of way for the same, or any other similar expenditures.

ARTICLE IX

The rights to be acquired and exercised by the commission are solely for flood control purposes, and each of the respective signatory states, wherein any reservoir may be situated, reserves respectively unto itself all benefit or advantage of water conservation, power storage or power development that may be inherent in such reservoir site. In the event either signatory state may wish to preserve to itself the value of such site for the purposes aforesaid, it may, through an appropriate agency of the state, so notify the United States, through the war department, before any construction work is

commenced hereunder for flood control purposes, so that the design and construction of the dam at such site may be developed in such manner as to provide for further development as a storage reservoir for the conservation of water, enhancement of stream flow or power development. Provided, however, that nothing herein contained shall be deemed to prevent either state, at its option, at any time hereafter, by itself or through such agency as it may designate, from developing any such reservoir or reservoirs for use for water conservation, power storage or power development, in order that it may avail itself of the full beneficial use and enjoyment of the rights herein reserved. In such event, such state shall pay or provide for the payment of all costs or expenses necessary for such further development, including adaptation of any existing dam and works to such purpose, in accordance with plans approved by the secretary of war, and at all times fully preserve the primary purpose of flood control. The terms and conditions under which any such signatory state shall make available the rights of water conservation, power storage or power development herein reserved shall be determined by separate agreement or arrangement between such state and the United States, and the type and general plans for the construction of such of the reservoirs as are herein contemplated to provide for such further development shall be approved by some agency of such state, for that purpose duly authorized, before any construction thereon is begun or prosecuted.

ARTICLE X

In order that an adequate fund may be established and created from which payments for the acquisition of lands, easements and rights of way may be made, the signatory states become bound and each hereby obligates itself to pay to the commission the proportion of the cost of acquisition of lands, easements and rights of way respectively set forth below, and subject to the limitations hereinafter provided as follows:

(1) The commonwealth of Massachusetts fifty per cent thereof.

(2) The state of New Hampshire fifty per cent thereof. Provided, however, that it is the understanding, intent and purpose of the parties hereto that the cost of acquisition of

lands, easements and rights of way for two reservoirs, provided for herein, shall not exceed the sum of two million two hundred and eighty-five thousand dollars (\$2,285,000), and that the drainage area of the Merrimack river basin to be controlled thereby shall be approximately twenty-two and one-half (22.5) per cent thereof; and it is expressly provided that the maximum amount for the cost of acquisition of lands, easements and rights of way to which each of the signatory states shall be bound or obligated on account of said two reservoirs shall not exceed the respective proportions hereinbefore set forth of said sum of two million two hundred and eighty-five thousand dollars (\$2,285,000). The fiscal year shall be deemed to begin on July first and end on June thirtieth. Payment by the signatory states of the cost of acquisition shall be made as and when requested by the commission on or after July 1, 1937; provided that no more than one half of said sum of two million two hundred and eighty-five thousand dollars (\$2,285,000) shall be required to be paid in any fiscal year after said date.

ARTICLE XI

In the execution of the initial plan of two reservoirs herein contemplated said commission, with the approval of the secretary of war, shall determine the order in which the construction work of the same shall be commenced and prosecuted. The initial plan for the construction of two reservoirs herein mentioned and provided for is part of a long range comprehensive program for flood control on the Merrimack river and its tributaries, the object and purpose of the signatory states being to enlarge and expand such flood control projects to an ultimate control. In the further development of such comprehensive program, said commission shall determine from time to time the site, character, location and extent of such additional reservoirs, subject to the approval of the legislature of the state in which the same may be located.

ARTICLE XII

Each of the signatory states shall annually contribute and pay to the commission the respective proportions of the expense of operation and maintenance of the flood control reservoirs hereafter constructed under the terms of this agreement as follows: The commonwealth of Massachu-

setts fifty per cent thereof, the state of New Hampshire fifty per cent thereof, and each state shall make adequate provision for compliance on its part with the provisions of this article, and funds shall be made available as and when required upon the requisition of the commission. As a part of the expense of operation and maintenance of said reservoirs the commission shall assume and pay to the respective towns entitled thereto the cost of reimbursement for loss of taxes, as set forth and required in the third paragraph of article VI hereof, and shall pay all costs incident to or damages resulting from the operation and maintenance of such flood control reservoirs, and shall save the United States free and harmless on account thereof, and shall pay all other costs or expenses which may be necessary in the operation and maintenance thereof, including the expenses of the members of said commission hereinbefore provided to be paid out of the funds of said commission.

ARTICLE XIII

Each of the signatory states hereby releases and discharges the other and the commission of and from all damages, which may be claimed to result from the obstruction, detention, impounding, storage, release or diversion of the waters of said Merrimack river and its tributaries, so far as the same may be in any way affected by the construction, operation or maintenance of the reservoirs herein contemplated.

ARTICLE XIV

This compact shall become operative and effective when approved by the legislatures of each of the signatory states and by the Congress of the United States. Notice of approval shall be given by the governor of each state to the governor of the other state and to the President of the United States, and the President of the United States is requested to give notice to the governor of each of the signatory states of its approval by the Congress of the United States.

In Witness Whereof, this compact has been executed by the Commonwealth of Massachusetts on the _____ day of _____ A. The maturity dates of such bonds and notes shall be not later than January 1, 1955. Such bonds and notes shall be in such form and such denominations and with such provisions for call or redemption as the governor and council may determine, may be registerable as to both principal and interest,

Be it enacted by the Senate and House of Representatives in General Court convened:

1. Amendment. Chapter 110 of the Public Laws is hereby amended by striking out the entire chapter and inserting in place thereof the following:

CHAPTER 110

NEGLECTED AND DELINQUENT CHILDREN

1. Age. This chapter shall apply only to those under the age of eighteen years, except that juveniles over whom the court has acquired jurisdiction shall continue under its jurisdiction until they are twenty-one years of age, unless they are previously discharged by the court, or jurisdiction over them released to the superior court.

2. Definitions. For the purpose of this chapter the following words shall mean:

I. "Neglected child," any child who is abandoned by his parent, guardian or custodian, or has not proper parental care or guardianship, or who habitually begs or receives alms, or

who is found in any disreputable place or who associates with vicious or disreputable persons, or whose home, by reason of neglect, cruelty or depravity on the part of his parents, guardians or other persons in whose care he may be, is an unfit place for such child, or whose parent, guardian or custodian neglects or fails to provide proper subsistence, education, medical or surgical care or other care necessary for his health, morals or well-being, or who engages in such an occupation or is in such a situation or surroundings as are or may prove injurious to his physical, mental or moral well-being.

II. "Delinquent child," any child who violates any law of this state or any city or town ordinance, or who is wayward, disobedient or uncontrolled by his parent, guardian or custodian, or who is habitually truant from school or home, or so departs himself as to injure or endanger the health or morals of himself or others.

III. "Child or juvenile," any boy or girl under the age of eighteen years.

IV. "Court," the municipal court, unless otherwise indicated.

3. Petition. Any reputable person having information of a child who appears to be either neglected or delinquent may file with a judge or clerk of any municipal court in the county in which the child is found or resides a petition in writing setting forth the facts verified by affidavit. On motion of any probation officer alleging that either justice or convenience requires the transfer of the petition to some other municipal court such petition may be transferred to such court if justice or convenience requires.

4. Notice. Upon the filing of the petition a notice shall be immediately issued by the judge or the clerk, to be served personally or left at the usual place of abode of the person having custody or control of the child, or with whom the child may be, requiring that person to appear with the child at a place and time stated in the notice, which time shall not be less than twenty-four hours after service. If the person so notified is not the parent or guardian of the child, then the parent or guardian shall be notified, provided they and their residence are known, or if there is neither parent nor guardian, or their residence is not known then some relative, if there be one and his residence is known, and in any case the judge may appoint some suitable person to act in behalf of the child.

5. Contempt. If the person summoned, as herein provided, shall fail without reasonable cause to appear with the child and abide the order of the court, he may be proceeded against as in case of contempt of court.

6. Warrant. If a summons cannot be served or the party served fails to obey the same, and in any case where it appears to the court that such summons or notice will be ineffectual, a warrant may be issued for the child's appearance against anyone having custody or the possession of the child. Nothing in this act shall be construed as forbidding any police officer or probation officer from immediately taking into custody any child who is found violating any law or ordinance, or who is reasonably believed to be a fugitive from his parents or from justice, or whose surroundings are such as to endanger his health, morals or welfare, unless immediate action is taken. In such cases the officer shall report the facts forthwith to the court.

7. Custody. Pending final disposition of the case, the child may be retained in the custody of the person having the child in charge, or in the custody of the probation officer, or may be kept in some suitable place at the expense of the town, county or state, as may be ordered by the court.

8. No Committal to Jail. No child under eighteen years of age shall be committed to a jail or police station, or other place where such child can come in contact with any adult under arrest or charged with or serving sentence under conviction of crime; provided that a child whose habits or conduct are deemed such as to constitute a menace to other children, may by order of the court be restrained in a jail or other place of detention for adults, but in a separate room or ward.

9. Hearing. On the return of the summons, notice or other process or as soon thereafter as may be, the court shall proceed to hear the case in an informal manner, but no final disposition shall be made until an investigation and report in writing has been made to the court of the home conditions, school record, and the mental, physical and social history of the child, and the circumstances of the alleged delinquency or neglect. When ordered by the court or deemed necessary by the probation officer making the investigation, such investigation shall include a physical and mental examination of the child, the expense thereof to be borne by the town in which said child resides, unless furnished by the state.

10. Disposition of Neglected Children. When any child is found to be neglected, the court may make an order committing the child to the care of the board of public welfare, or may continue the case from time to time and allow the child to remain in his own home or in a suitable family or institutional home under the supervision of a probation officer and subject to be returned to the court for further disposition.

11. Maintenance. Unless otherwise ordered by the court, the expense for the maintenance and care of any such child shall be borne by the town in which the child resides, and the town shall have a right of action over for such expense against whoever is legally chargeable for the child's support.

12. Guardianship; Adoption. In any case where the court shall award a child to the care of any association or individual, the child shall, unless otherwise ordered, become a ward of the association or individual to whose care he is committed. Such association or individual shall have authority to place such child in a suitable family or institutional home and shall be made party to any proceeding for his adoption or guardianship.

13. Disposition of Delinquents; Probation; Institutional Care. When a child is found to be delinquent, the court may commit the child to the industrial school or continue the case with such orders as to care, custody, and probation as justice and the welfare of the child require. After the delinquent has passed the age of eighteen years, the court may, under its continuing jurisdiction, commit him either to the industrial school, house of correction, jail, or state's prison, for all or any part of the term of his minority. A summary of the probation officer's investigation shall accompany each commitment. All records pertaining to cases of delinquency shall be kept at all times so that no one, except by court order, other than officers of the institution where the child is committed, duly accredited probation officers and others entrusted with the corrective treatment of said child, shall have access to the same. Any officer or employee of an institution who permits other than authorized persons to have access to such records, or any officer or employee or person entrusted with the use of the same for corrective purposes, or anyone else, who publishes or permits the publication of such records or parts of the same, except by court order, shall be in contempt of court.

14. Orders for Physical and Mental Treatment. If it is alleged in any complaint or appears at any time during the

progress of the case that a neglected or delinquent child is in need of physical or mental treatment, the failure to receive which is a contributing cause of his delinquency, due notice of that fact shall be given as provided in section 4 of this act, and if the court, upon hearing, finds that treatment is reasonably required, he shall order the parent, guardian or custodian of the child to provide it. If this order is not obeyed within a reasonable time, the court shall require such treatment to be provided at the expense of the town in which the child resides, and recovery of the expenses thereby incurred shall be had from the person or persons chargeable by law for the child's necessities.

15. Feeble-minded or Insane. If it is alleged in any complaint or appears at any time in the progress of the case that a neglected or delinquent child may be feeble-minded or insane, due notice of that fact shall be given as provided in section 4 of this act, and if the court, upon hearing, finds that the child is either insane or feeble-minded, the court may commit said child to the state hospital or to the Laconia State School, to be there detained and cared for according to the laws relating to said institutions, with the right of recovery against the person or persons chargeable by law for support.

16. Religious Preference. The court and officials in placing children shall as far as practicable place them in the care and custody of some individual holding the same religious belief as the parents of the said child, or with some association which is controlled by persons of like religious faith. No child under the supervision of any state institution shall be denied the free exercise of the religion of his parents, whether living or dead, nor the liberty of worshipping God according thereto.

17. Court Sessions. All juvenile cases shall be heard separate from the trial of criminal cases and such hearing shall be held wherever possible in rooms not used for such trials. Said proceedings shall be informal and not deemed to be of a criminal nature. No one shall attend such hearing, unless his presence is necessary either as parent, party or witness, or in the opinion of the court, in the interest of justice; provided, in those cases where the delinquent act complained of would constitute a felony if the act of an adult, the attorney-general and the solicitor of the county in which the offense took place may attend, and due notice thereof shall be given to the attorney-general or the county solicitor by the probation officer. County

commissioners, town and city officials charged with overseeing the support of the poor, in all cases in which the minor may become a public charge, may also attend such hearing.

18. Transfers to Superior Court. All cases before a municipal court in which the offense complained of constitutes a felony or would amount to a felony in the case of an adult, may, after investigation and consideration, before hearing, be certified to the superior court. Cases so certified may be disposed of by the superior court according to the laws of this state relating thereto without any limitations as to sentence or orders required by this act. All original papers in transferred cases shall remain in the court from which transferred and certified copies of the same filed with and constitute the records of the court to which transfer is made. Pending disposition by the superior court, a juvenile, whose case is thus transferred, may be committed to the custody of the probation officer or required to recognize with sufficient sureties, or in default thereof be committed to the industrial school to await disposition of the case in said superior court.

19. Records. The court records of proceedings with reference to juveniles in all courts of the state shall be kept in books and files separate from all other court records. The proceeding shall be entitled, "The state in the interest of . . ." (naming the child or children). Such records shall be withheld from indiscriminate public inspection but shall be open to inspection by the parent, guardian or other authorized representative of the person concerned and, in the discretion of the court, by other persons having a legitimate interest.

20. Contribution to Delinquency; Bond for Future Care. Any parent or guardian or person having the custody or control of a child found to be delinquent, or anyone else, who shall knowingly or wilfully encourage, aid, cause or abet, or connive at, or has knowingly or wilfully done any act or acts, to produce, promote or contribute to the delinquency of such child, may be punished by a fine of not more than five hundred dollars or by imprisonment for not more than one year, or both. The court may release such person on probation, subject to such orders as it may make concerning future conduct tending to produce or contribute to such delinquency, or it may suspend sentence, or before trial, with his consent, it may allow him to enter into a recognizance, in such penal sum as the court may

fix, conditioned for the promotion of the future welfare of the child, and the said case may then be placed on file.

21. Appeals. An appeal may be taken to the superior court in manner provided for appeals from municipal courts, but an appeal shall not suspend the order of the court unless the court shall so order.

22. Penalty. Any officer who neglects to perform any of the duties imposed upon him by this chapter shall be fined not less than twenty-five dollars nor more than two hundred dollars.

23. Interpretation; Evidence. This chapter shall be liberally construed to the end that its purpose may be carried out, to wit: that the care, custody and disposition of the child shall approximate as nearly as may be that which should be given by his parents, and that, in cases where it can properly be done, the child shall be placed in an approved family home and become a member of the family, by legal adoption or otherwise. In any investigation or hearing, the court shall not be bound by the technical rules of evidence. No child shall be deemed a criminal by reason of an adjudication hereunder and such adjudication shall not be deemed a conviction.

24. Publication. It shall be unlawful for any newspaper to publish the name or address, or any other particular information serving to identify any juvenile delinquent arrested, without the express permission of the court, and it shall be unlawful for any newspaper to publish any of the proceedings of any juvenile court.

25. Jurisdiction. The municipal courts in each county shall have exclusive original jurisdiction of all cases coming within the terms of this act.

26. Authority Limited. This act shall not be construed as authorizing any public official, agent or representative in carrying out any of the provisions of this act to take charge of any child over the objection of either of the parents of such child or of the person standing *in loco parentis* to such child, except pursuant to a court order.

27. Severability. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared to be severable.

2. Takes Effect. This act shall take effect October 1, 1937, and all acts or parts of acts inconsistent herewith are hereby repealed.

Payments made in settlement of any claims because of bodily injury, death or property damage arising from a motor vehicle accident shall be credited in reduction of the amounts provided for in this section.

12. Suspension Waived Upon Payment of Judgment in Installments. The commissioner shall restore any license or registration when the judgment debtor gives proof of his financial responsibility in the future and when the judgment debtor obtains an order from the trial court in which such judgment was rendered, permitting the payment of such judgment in installments, and while the payment of any said installment is not in default.

apply to the trial court in which such judgment was obtained for the privilege of paying such judgment in installments and the court, in its discretion and without prejudice to any other legal remedies which the judgment creditor may have, may so order, fixing the amounts and times of payment of the installments.

14. Installment in Default. In the event the judgment debtor fails to pay any installment as permitted by the order of the court, then upon notice of such default the commissioner shall forthwith suspend the license and registration certificates and registration plates of the judgment debtor until such judgment is satisfied as provided in this act. Provided, however, if the judgment creditor consents in writing, in such form as the commissioner may prescribe, that the judgment debtor be allowed license and registration, the same may be allowed by the commissioner, in his discretion, notwithstanding default in the payment of such judgment or of any installment thereof, for six months from the date of such consent and thereafter until such consent is revoked in writing, if the judgment debtor gives and thereafter maintains proof of his financial responsibility in the future.

15. Action Against Non-resident. All of the provisions of this act shall apply to any person who is not a resident of this state, and if such non-resident has failed to furnish security or to give proof of his financial responsibility in the future as required hereunder, then and in such event such non-resident shall not operate any motor vehicle, trailer or semi-trailer in this state nor shall any motor vehicle, trailer or semi-trailer owned by him be operated within this state by any person, and the commissioner shall not issue to such non-resident any operator's or chauffeur's license or register any motor vehicle, trailer or semi-trailer owned by such non-resident in the same manner as required with respect to a resident of this state. The operation by a non-resident, or with his express or implied consent if an owner, of a motor vehicle, trailer or semi-trailer on a public way of the state shall be deemed equivalent to an appointment by such non-resident of the motor vehicle commissioner or his successor in office, to be his true and lawful attorney upon whom may be served all lawful processes in any action against him, growing out of any accident in which said non-resident may be involved while so operating or so permitting to be operated a motor vehicle on such a way.

16. Policy, Form. No motor vehicle liability policy, as defined in section 1, shall be issued or delivered in the state until a copy of the form of the policy has been on file with the insurance commissioner for at least thirty days, unless, before the expiration of said period, said insurance commissioner shall have approved the form of the policy in writing, nor if said insurance commissioner notifies the company in writing that, in his opinion, the form of said policy does not comply with the laws of the state, provided that he shall notify the company in writing within said period of his approval or disapproval thereof. Said insurance commissioner shall approve a form of policy which contains the name, address and business of the insured, a description of the motor vehicles and trailers or semi-trailers covered, with the premium charges therefor, the policy period, the limits of liability, and an agreement that insurance is provided in accordance with and subject to the provisions of this act.

17. Required Provisions. A motor vehicle liability policy shall be subject to the following provisions which need not be contained therein:

I. The liability of any company under a motor vehicle liability policy shall become absolute whenever loss or damage covered by said policy occurs, and the satisfaction by the insured of a final judgment for such loss or damage shall not be a condition precedent to the right or duty of the company to make payment on account of said loss or damage. No such contract of insurance shall be cancelled or annulled by any agreement between the company and the insured after the said insured has become responsible for such loss or damage, and any such cancellation or annulment shall be void. Upon the recovery of a final judgment against any person for any loss or damage specified in this section, if the judgment debtor was, at the accrual of the cause of action, insured against liability therefor under a motor vehicle liability policy, the judgment creditor shall be entitled to have the insurance money applied to the satisfaction of the judgment.

II. The policy, the written application therefor, if any, and any rider or indorsement, which shall not conflict with the provisions of this act, shall constitute the entire contract between the parties.

III. No statement made by the insured or on his behalf, and no violation of the terms of the policy, shall operate to de-

feat or avoid the policy so as to bar recovery within the limit provided in the policy.

IV. If the death, insolvency or bankruptcy of the insured shall occur within the policy period, the policy during the unexpired portion of such period shall cover the legal representatives of the insured. Such policy shall contain such provisions, as are not inconsistent with this act, as shall be required by the insurance commissioner.

V. Damages shall not be assessed except by special order of the court in an action of tort, payment of the judgment wherein is secured by a motor vehicle liability policy or a motor vehicle liability bond, as defined in section 1, and wherein the defendant has been defaulted for failure to enter an appearance until the expiration of thirty days after the plaintiff has given notice of such default to the company issuing or executing such policy or bond, and has filed an affidavit thereof. Such notice may be given by mailing the same, postage prepaid, to the said company or to its agent who issued or executed such policy or bond. Upon receipt of information and having become satisfied that the insured has failed to comply with the terms of his policy in regard to notice to the company of an accident, the commissioner shall revoke his license and registration for such period as the commissioner shall determine.

18. Liability Bonds. The provisions of sections 16 and 17, except paragraphs I, II and III, shall apply to motor vehicle liability bonds, as defined in section 1, and every such bond shall be subject to, although it need not be contained therein, the provision that no statement made by the principal on such bond or on his behalf, and no violation of the terms of such bond, shall operate to defeat or avoid such bond as against the judgment creditor of such principal.

19. Prohibition. No motor vehicle liability policy other than that defined in section 1 shall be issued or delivered in this state by any authorized insurance company, except that such an authorized insurance company may issue and deliver what is known as a Standard Automobile Liability Policy by having attached thereto an indorsement meeting the requirements of this act, such indorsement to be in such form as the insurance commissioner shall prescribe and to be known as the New Hampshire Statutory Motor Vehicle Liability Policy Indorsement. The insurance commissioner shall approve only

such policy, indorsements and binders as shall meet the requirements of this act.

20. Amount of Proof Required. Proof of financial responsibility shall mean proof of ability to respond in damages for any liability thereafter incurred, arising out of the ownership, maintenance, control or use of a motor vehicle, trailer or semi-trailer in the amount of five thousand dollars because of bodily injury or death to any one person, and subject to said limit respecting one person, in the amount of ten thousand dollars because of bodily injury to or death to two or more persons in any one accident, and in the amount of one thousand dollars because of injury to and destruction of property in any one accident. Whenever required under this act such proof in such amounts shall be furnished for each motor vehicle, trailer or semi-trailer registered by such person.

21. Methods of Giving Proof. Proof of financial responsibility when required under this act may be given by either of the following methods:

I. By filing with the commissioner a certificate, as defined in section 1, of an insurance company or of a surety company; or

II. By the deposit of money or securities as provided in the following section; or

III. By satisfying the commissioner that any corporation has financial ability to comply with the requirements of this act.

22. Money or Securities Deposited as Proof. A person may give proof of financial responsibility by delivering to the commissioner a receipt of the treasurer of this state showing the deposit with said treasurer of money in an amount, or securities approved by said treasurer and of a market value in a total amount, as would be required for coverage in a motor vehicle liability policy furnished by the person giving such proof under this act. Such securities shall be of a type which may legally be purchased by savings banks or for trust funds. All money or securities so deposited shall be subject to execution to satisfy any judgment mentioned in this act but shall not otherwise be subject to attachment or execution.

23. Limitation. The state treasurer shall not accept any such deposit or issue a certificate therefor, and the commissioner shall not accept such certificate unless accompanied by evidence that there are no unsatisfied judgments against the

depositor registered in the office of the clerk of the superior court for the county where the depositor resides.

24. May Substitute Other Proof. The commissioner shall cancel any bond or return any certificate of insurance, or the commissioner shall direct and the state treasurer shall return any money or securities, to the person entitled thereto upon the substitution and acceptance of other adequate proof of financial responsibility pursuant to this act.

25. Operating Without Giving Proof. Any person whose operator's or chauffeur's license or registration certificates or other privilege to operate a motor vehicle, trailer or semi-trailer has been suspended or revoked, restoration thereof or the issuance of a new license or registration being contingent upon the furnishing of security or proof of financial responsibility, and who during such suspension or revocation or in the absence of full authorization from the commissioner shall drive any motor vehicle, trailer or semi-trailer upon any highway or knowingly permits any motor vehicle, trailer or semi-trailer owned by such person to be operated by another upon any highway, except as permitted hereunder, shall be imprisoned for not more than six months or fined not more than five hundred dollars, or both.

26. Application of Act. This act shall in no respect be considered as a repeal of the provisions of the state motor vehicle laws but shall be construed as supplemental thereto.

27. Limitation. This act shall not be construed to prevent the plaintiff in any action at law from relying for security upon the other processes provided by law.

28. Repeal. Chapter 54 of the Laws of 1927 and chapter 189 of the Laws of 1929 are hereby repealed.

29. Takes Effect. This act shall take effect September 1, 1937.

XI. "Person," any individual, male or female, acting individually or as a copartner, firm or corporation.

3. **Board Established.** There is hereby established a Board of Registration of Hairdressers, consisting of three members, appointed by the governor with the advice of the council, who shall have been engaged in the practice of hairdressing in this state for not less than five years. The terms of the members of the board shall be for three, two and one years respectively in the order of their appointment and for three years thereafter. One member of the board shall be designated as chairman and one as secretary. Each member so appointed shall continue to serve until his successor is appointed and qualified to act. The governor, with the advice and consent of the council, shall have the authority to fill any vacancy occurring in the board.

4. **Duties of the Secretary.** The secretary shall keep a record containing the names and addresses of all licensees and shops, schools and establishments registered under this act with the date of issuance, renewal, suspension or revocation of all licenses and registrations; which record shall be open to public inspection at all reasonable times. He shall issue notices, license and registration certificates, and make or cause to be made sanitary inspections of all shops and establishments at least twice each year.

5. **Rules and Regulations.** The board shall make such uniform and reasonable rules and regulations as are necessary for

the proper conduct of its business, the establishment of proper standards of professional skill in relation to, and the proper supervision of, hairdressers, manicurists, operators, shops, schools, students and apprentices, and especially shall prescribe such sanitary rules, subject to the approval of the state board of health, as may be necessary to promote cleanliness and safety and prevent the transmission of communicable diseases, but nothing herein shall authorize the board to limit the number of hairdressers, manicurists, shops, schools, operators, students or apprentices in the state or in any given locality, or to regulate or fix compensation or prices, or to refuse to license a shop solely for the reason that such shop is to be conducted by a person in his own home on a full or part time basis, or to interfere in any way with the conduct of the business of hairdressing or manicuring, except so far as is necessary for the protection of the public health, safety or morals. The board shall cause such rules and regulations to be printed in suitable form and a copy thereof to be sent to the proprietors of such shops, schools and establishments, which shall be kept posted in a conspicuous place in such shops, schools and establishments, so as to be easily read.

6. Suspension, Revocation, Reinstatement. The failure of any person to observe the requirements of any rules and regulations made by said board shall be cause for the suspension or revocation of any license or certificate of registration issued by said board, but no license or registration shall be suspended or revoked without a reasonable opportunity being offered to such person to show cause to said board why such license or registration should not be suspended or revoked. Before any license or registration shall be suspended, revoked or cancelled, the licensee and holder of certificate of registration shall have had notice in writing of the charge or charges against him and at a day specified in said notice, which shall be at least ten days after service of notice thereof, shall have been given a hearing and an opportunity to present testimony in his behalf and to confront the witnesses against him. The mailing of a registered letter, postage prepaid, containing a notice of such hearing and addressed to the licensee or holder of certificate of registration at his address in this state as it appears in his license or registration certificate, shall be a sufficient service of such notice, and said ten-day period shall begin to run from the date of such mailing. Any such license or registration

suspended or revoked shall be delivered to any member of the board or its agent upon demand. The board may, upon written request, after investigation, reinstate any license or registration, upon satisfactory proof that this can be done consistently with public interests.

7. Inspections. Any member of the board shall have power to enter and make reasonable examination and inspection of any such shop, school or establishment during business hours for the purpose of ascertaining whether or not the rules and regulations are being observed.

8. Compensation of Board; Disposition of Revenue. Said secretary shall give bond to the state in the sum of two thousand dollars, with sufficient sureties to be approved by the attorney-general, conditioned that he shall faithfully perform all the duties of his office. The annual salary of said secretary shall be five hundred dollars. Each member of said board shall receive five dollars a day while in attendance upon examinations or conducting inspections and reasonable expenses while traveling in the performance of his duties. The compensation and expenses of the members of the board shall be paid by the state treasurer upon the warrant of the governor, but the total expenditures for such purpose shall not exceed the total moneys received by the state treasurer under the provisions hereof.

9. Duties of Board. The board shall prescribe the duties of its officers and employees, which shall be at all times subject to the direction and supervision of the state board of health, shall establish a principal office, at which all records and files of the board shall be kept. The board shall keep a record of its proceedings and shall do all other things necessary to carry out the provisions of this act. It shall be the duty of the board to report to proper prosecuting officers all violations of this act coming within its knowledge, to make a written report annually to the governor containing a full and complete account of all its official acts during the year, together with a statement of the receipts and disbursements of the board and such comments as may be deemed necessary.

10. Examinations. The board shall hold examinations at

least once in six months in such cities and towns throughout the state as it may deem most convenient for applicants and at such additional times as it may from time to time determine. The board shall notify all applicants at least ten days in advance as to the place, date and time of examinations, and publish notice of same in such form and places as said board may prescribe.

11. License and Registration Required. It shall be unlawful for any person (a) to practice hairdressing and beauty culture in this state unless he shall first have obtained a license as provided by this act, and (b) to operate or work in a shop, school or other establishment, even though licensed, unless said shop, school or establishment is registered as provided by this act.

(b) Operators Entitled to Hairdresser's License. Any licensed operator shall be entitled to practice hairdressing for compensation, but shall not be entitled to open or operate a shop in his own name until he has had not less than six months' practical experience under the supervision of a licensed hairdresser and in a registered shop in this state, but shall, thereafter, upon application to said board and without examination or payment of additional fee, be entitled to receive a license as a hairdresser.

(c) Hairdressers. Any person who has been actively engaged in the practice of hairdressing and beauty culture in this state for a period of at least three months prior to this

act taking full effect shall be entitled, upon written application to the board and without examination, to receive a license to practice hairdressing in this state upon payment of fee provided by this act.

Any person who has complied with requirements (1), (2), and (3) as above set forth, and in addition thereto (4) has completed a course of at least one month, including at least one hundred hours of professional training in manicuring in a school approved by the board, or (5) any apprentice who, in the opinion of the board, has received the equivalent of such a course. Any person who has been actively engaged in the practice of manicuring in this state for a period of at least three months prior to this act taking full effect shall be entitled, upon written application to the board, and without examination, to receive a license to practice manicuring in this state upon payment of fee provided by this act.

(e) Non-residents. The board may license without examination any hairdresser or manicurist who has been registered or licensed as such under the laws of another state which, in the opinion of the board, maintains a standard substantially equivalent to that of this state and in which hairdressers and manicurists licensed in this state are given like recognition, upon payment of fee provided by this act.

II. Applications. Applicants shall make written application on a form prescribed and supplied by said board, which shall contain satisfactory evidence of the qualifications required of the applicant under this act and shall be filed with the secretary of said board and shall be accompanied by examination fee, which shall include fee for license certificate if examination is satisfactory; if not successful, applicant shall have the privilege of taking a second examination without payment of additional fee at any subsequent examination held by the board within a period of one year.

13. Approved Schools. No school of hairdressing and beauty culture shall be approved by said board in this state unless it has a minimum requirement of a continuous course of study of one thousand hours distributed over a period of not less than six months, including practical demonstrations, written or oral tests, and theoretical and practical instruction in sanitation, sterilization and the use of antiseptics, cosmetics and electrical appliances, which course of study and instruction shall be subject to the approval of said board. Schools

must provide a separate room for class work and instruction and one room for supervised practice. Each school shall have in good working order all apparatus and equipment necessary for the full and ready teaching of all subjects included in its curriculum. No person shall be engaged to instruct in any of the branches of hairdressing, beauty culture and manicuring as defined in this act unless licensed by the board.

14. Apprentices. No shop or other establishment shall have at any time more than one apprentice after this act takes full effect, provided, however, this provision shall not affect apprentices who are engaged as such at the time of the passage of this act.

15. Registration of Students and Apprentices. All students enrolled in registered schools shall, within fifteen days after entering upon their course of study, be registered with the board by such school. Students at registered schools may, within such fifteen-day period, register with the board. Every apprentice who is engaged as such at the time this act takes full effect, shall, within fifteen days thereafter, and every other apprentice shall, within fifteen days after the beginning of his apprenticeship, file with the secretary of the board the name and place of business of his employer, the date of commencement of such apprenticeship, and the full name, age and address of said apprentice. No fee shall be required for registration of students and apprentices. Students and apprentices may practice on paying customers under the supervision of a hairdresser at reduced price and with full understanding by the customer that the work is done by student or apprentice. A school or shop may pay a student or apprentice for any services rendered by him. Any student or apprentice shall be allowed credit for time spent in a school or shop prior to this act taking full effect, provided the school or shop is registered by the board at the time the student or apprentice applies for an examination.

16. Credit for Practical Experience. Any student or ap-

prentice eligible to take examination for a license as an operator may, pending the holding of such examination, apply to said board for a student's and apprentice's permit, accompanied by a fee of ten dollars. The board may issue a permit which shall authorize said student or apprentice to engage in the practice of hairdressing or manicuring under the supervision of a licensed hairdresser and in a registered shop in this state. If said student or apprentice takes an examination given by said board for an operator's license within six months from the date of the issuance of said permit, credit shall be given for the payment of ten dollars on the fee required, and said student or apprentice may be credited with the practical experience so acquired relative to the issuance thereafter of a hairdresser's license.

17. Registration of Shops and Establishments. Licensed hairdressers may, upon written application in the form provided, accompanied by fee, upon the approval of board, receive a certificate of registration authorizing such applicant to operate a shop in this state, which license may thereafter be renewed upon payment of renewal fee. The board may authorize a hairdresser licensed in this state to change the location of a shop and may issue to any hairdresser licensed in this state a short-term license for a period not exceeding three months, upon payment of fee. Booths attached to or within a shop that are operated independently thereof shall be subject to registration fees in the same manner as an independent shop.

18. License Certificate. The board shall furnish to each licensed operator and hairdresser a license bearing the seal of the board, certifying that the holder thereof is entitled to practice hairdressing and beauty culture in this state and it shall be the duty of the holder of such license to post the same in a conspicuous place where it may be readily seen by all persons whom he may serve. A license limited to manicuring only may be issued by the board upon compliance with such examination requirements as may be determined by the board and upon payment of the fees as provided by this act.

20. Term of License and Registration. Each license and registration issued under this act shall expire on June thirtieth next succeeding its date of issuance and shall not be renewed unless application therefor is filed and the fee paid. Licenses and registrations may be renewed at any time during the year following their expiration, upon payment of the renewal fee prescribed therefor. The secretary shall, at least ten days prior to the expiration of any license and registration, mail a notice to the holder, advising him to that effect, and enclose therewith a blank application for renewal thereof. If the holder of any license or registration certificate fails to renew same upon the expiration thereof for the next succeeding year, he shall be required to pay the original license and registration fee in the event he subsequently applies for same.

21. Health Certificate. Before engaging in actual employment in the practice of hairdressing and at least once every year thereafter every registered hairdresser and operator shall secure from a physician a certificate stating that such hairdresser or operator is not afflicted with tuberculosis, venereal disease in a communicable form, or with any other communicable disease. Said certificate shall be on a form furnished by the board and shall be kept conspicuously posted with the license certificate provided under section 18 of this act.

22. Penalties. Whoever practices or attempts to practice the occupation of hairdressing or manicuring unless licensed by the board, and whoever conducts or attempts to conduct a school, shop or establishment not registered by said board, and whoever violates any provision of this act or any rule or regulation made under authority thereof shall be fined not more than one hundred dollars or imprisoned not more than six months, or both, in the discretion of the court.

23. Constitutionality. If any section, sub-section, sentence,

9. Qualifications. Application for such shop registration or license shall be made to said board in writing and shall state the name and address of the owner of such shop and the city or town and the street and number where the same is located, and contain such other information as may be required by said board.

CHAPTER 168.

AN ACT RELATING TO THE LOBSTER INDUSTRY.

SECTION

1. Taking of lobsters.

SECTION

2. Takes effect.

Be it enacted by the Senate and House of Representatives in General Court convened:

1. Taking of Lobsters. Amend chapter 201 of the Public Laws, as inserted by section 5, chapter 124, Laws of 1935, by striking out sections 30 to 33, inclusive, and inserting in place thereof the following new sections:

30. License. No person shall at any time place, set, keep, maintain, supervise, lift, raise or draw in, from any waters under the jurisdiction of this state, any pot, trap, warp, or any other device used in taking lobsters without first procuring a special license so to do; nor during the time from sunset to one hour before sunrise. Such license shall be issued by the director, under such rules and regulations and in such form as may be prescribed by him, upon the payment of five dollars.

31. Revocation; Suspension. Persons convicted for viola-

tion of the law pertaining to taking lobsters shall forfeit their license for one year. If an appeal is taken the license shall be suspended pending the disposition of said case and for one year thereafter from date of conviction by the higher court. Any person whose license has been revoked or suspended shall not accompany any licensed lobster fisherman or assist him in any way while he is engaged in catching lobsters.

32. Who May Take Lobsters. No person shall take lobsters from the waters of New Hampshire unless he is a *bona fide* resident of the state, and no license shall be issued to a person unless he shall furnish proof that he has resided within the state for at least five years preceding his application for a license. The provisions of this section shall not apply to persons who were licensed to take lobsters for the year 1936.

33. Distinctive Mark. Any person taking any female lobster carrying spawn shall immediately mark said lobster with a distinctive mark and return said lobster to the water. The director shall furnish to any person requesting the same a punch for the purpose of making such distinctive mark.

33-a. Prohibition. No person shall remove spawn from any female lobster and no person shall take, serve, have in his possession, except as provided in the preceding section, sell, or offer for sale any female lobster carrying spawn or female lobster bearing the distinctive mark as provided in the preceding section.

33-b. Legal Length. No person shall buy, sell, give away or expose for sale, or possess for any purpose, any lobster of a length less than three and one-sixteenth of an inch in length alive or dead, cooked or uncooked, measured from the rear of the eye-socket along a line parallel to the center line of the body shell to the rear end of the body shell. The possession of mutilated lobster cooked or uncooked shall be *prima facie* evidence that it is not of legal length. Whoever ships, transports, carries, buys, gives away, sells or exposes for sale lobster meat after the same shall have been taken from the shell without the tail meat being whole and intact, and of a length of less than four and one-quarter inches when laid out straight and measured from end to end, not including the small part that is on the body end of the tail meat, shall be liable to the penalty imposed for violation of this section.

33-c. Interference with Lobster Pots. No person shall take

up or in any way interfere with a lobster pot, nor take, remove or carry away from the beach or shore any lobster net, or warp or buoy thereof, without the authority of the owner thereof. In addition to the penalty for violation of this section said person, if he holds a license to take lobster shall lose said license for one year.

33-d. Marking Pots and Traps. No person licensed for the purpose of taking lobsters shall use any pots, traps, used for the taking or keeping of lobster, unless the same are plainly marked with his name or with the name of the owner thereof. Any pots, traps, cars, or contrivance used to catch or store lobster, except boats, in violation of the provisions hereof may be seized and held until the fine and costs imposed for the violation have been paid in full.

33-e. Reports. All lobster fishermen shall within ten days after the first day of January in each year file with the director a report of the number of pounds of lobster taken by him during the previous year together with a record of the number of boats, pots, traps or other paraphernalia used in the taking thereof and the value of the same. The director shall furnish blanks for said report.

33-f. Conservation Officer. All conservation officers must be in uniform while on lobster patrol.

33-g. License for Selling. No person except hotels and restaurants serving cooked lobster to guests for immediate consumption as food shall sell lobster meat without first procuring a license. The director shall issue such licenses for a period of one year and the annual fee therefor shall be two dollars (\$2.00).

33-h. Prohibition. If a conservation officer shall find a person taking lobsters and shall inform him that the boat, trap, warp or other device used for such taking is to be inspected, it shall be unlawful for such person to throw overboard or destroy any bag, box or other receptacle prior to such inspection by such officer. If any person shall violate a provision of this section his license, after hearing, shall be suspended for such time as the director may determine.

33-i. Penalties. A person who violates a provision of the preceding sections shall be fined as follows: For each violation of sections 30 to 33-a, inclusive, 33-c, 33-d, 33-e, 33-g not more than fifty dollars; of section 33-b not more than five

dollars and not more than five dollars additional for each lobster taken or possessed in violation thereof.

2. Takes Effect. The provisions of sections 30 and 33-g, as hereinbefore inserted, shall take effect on January 1, 1938, and the provisions of the remainder of this act shall take effect upon its passage.

they may determine to be for the best interests of the state in the fulfillment of the purposes herein set forth.

2. Expenditure. Such sums shall be expended by the governor and council for the construction, extension and equipment of a state house annex in the city of Concord, including, without limiting the generality of the foregoing, the acquisition by gift, purchase, the exercise of the right of eminent domain or otherwise, of such real property, rights and easements therein as are deemed to be necessary therefor; and for all things necessary or incidental to the foregoing. 53. Definitions.	53-m. Issue of new certificate
53-a. Transfer of title.	53-n. Restrictions stated on certificate.
53-b. Limitation.	53-o. Alteration of certificate
53-c. Construction.	53-p. Court order for new certificate.
53-d. Transfer under power of attorney.	53-q. Certificate deemed endorsed.

53-g. Certificate may be reclaimed.	53-t. Who entitled to new certificate.
53-h. Possession of certificate.	2. Takes effect.
53-i. Delivery without endorsement.	

Be it enacted by the Senate and House of Representatives in General Court convened:

1. Business Corporations. Amend chapter 225 of the Public Laws by striking out the subdivision relating to transfer of stock, being sections 51 to 53 inclusive, and inserting in place thereof the following new subdivision:

Transfer of Stock

51. Law Applicable. In any case not provided for by this subdivision the rules of law and equity, including the law merchant, and in particular the rules relating to the law of principal and agent, executors, administrators and trustees, and to the effect of fraud, misrepresentation, duress or coercion, mistake, bankruptcy, or other invalidating cause, shall govern.

52. Interpretation. This subdivision shall be interpreted and construed in such manner as to effectuate their general purpose to make uniform the law of the states which enact the uniform stock transfer act.

53. Definitions. In this subdivision, unless the context or subject matter otherwise requires, the following words shall have the following meanings:

I. "Certificate," a certificate of stock in a corporation

organized under the laws of this state or of another state whose laws are consistent with this subdivision.

II. "Delivery," voluntary transfer of possession from one person to another.

III. "Person," includes a corporation or partnership or two or more persons having a joint or common interest.

IV. "Purchase," includes to take as mortgagee or as pledgee.

V. "Purchaser," includes mortgagee and pledgee.

VI. "Shares," a share or shares of stock in a corporation organized under the laws of this state or of another state whose laws are consistent with this subdivision.

VII. "State," includes state, territory, district and insular possession of the United States.

VIII. "Transfer," transfer of legal title.

IX. "Title," legal title, not including a merely equitable or beneficial ownership or interest.

X. "Value," any consideration sufficient to support a simple contract. An antecedent of pre-existing obligation, whether for money or not, constitutes value if a certificate is taken either in satisfaction thereof or as security therefor.

XI. A thing is done in "good faith" within the meaning of this subdivision when it is in fact done honestly, whether it be done negligently or not.

53-a. Transfer of Title. Title to a certificate and to the shares represented thereby shall be transferred only (a) by delivery of the certificate endorsed either in blank or to a specified person by the person appearing by the certificate to be the owner of the shares represented thereby; or (b) by delivery of the certificate and a separate document containing a written assignment of the certificate or a power of attorney to sell, assign or transfer the same or the shares represented thereby, signed by the person appearing by the certificate to be the owner of the shares represented thereby. Such assignment or power of attorney may be either in blank or to a specified person. This section shall be applicable although the charter or articles of organization or code of regulations or by-laws of the corporation issuing the certificate, and the certificate itself, provide that the shares represented thereby shall be transferable only on the books of the corporation or shall be registered by a registrar or transferred by a transfer agent.

53-b. Limitation. This subdivision shall not be construed as enlarging the powers of an infant or other person lacking full legal capacity, or of a trustee, executor or administrator, or other fiduciary, to make a valid endorsement, assignment or power of attorney.

53-c. Construction. This subdivision shall not be construed as forbidding a corporation (a) to recognize the exclusive right of a person registered on its books as the owner of shares to receive dividends, and to vote as such owner; or (b) to hold liable for calls and assessments a person registered on its books as the owner of shares.

53-d. Transfer Under Power of Attorney or Assignment. The title of a transferee of a certificate under a power of attorney or assignment not written upon the certificate, and the title of any person claiming under such transferee, shall cease and determine if, at any time prior to the surrender of the certificate to the corporation issuing it, another person, for value in good faith, and without notice of the prior transfer, shall purchase and obtain delivery of such certificate with the endorsement of the person appearing by the certificate to be the owner thereof, or shall purchase and obtain delivery of such certificate and the written assignment or power of attorney of such person though contained in a separate document.

53-e. Effect of Delivery of Certificate. The delivery of a certificate to transfer title in accordance with section 53-a shall be effectual, except as provided in section 53-g, though made by one having no right of possession and having no authority from the owner of the certificate or from the person purporting to transfer the title.

53-f. Endorsement of Certificate Effectual. The endorsement of a certificate by the person appearing by the certificate to be the owner of the shares represented thereby shall be effectual, except as provided in the following section, though the endorser or transferor (a) was induced by fraud, duress or mistake to make the endorsement or delivery; or (b) has revoked the delivery of the certificate, or the authority given by the endorsement or delivery of the certificate; or (c) has received no consideration.

53-g. Certificate May be Reclaimed When. If the endorse-

ment or delivery of a certificate (a) was procured by fraud or duress, or (b) was made under such mistake as to make the endorsement or delivery inequitable; or if the delivery of the certificate was made (c) without authority from the owner, or (d) after the owner's death or legal incapacity, the possession of the certificate may be reclaimed and the transfer thereof rescinded, unless (1) the certificate has been transferred to a purchaser for value in good faith without notice of any facts making the transfer wrongful, or (2) the injured person has elected to waive the injury, or has been guilty of laches in endeavoring to enforce his rights. Any court of appropriate jurisdiction may enforce specifically such right to reclaim the possession of the certificate or to rescind the transfer thereof and, pending litigation, may enjoin the further transfer of the certificate, or impound it.

53-h. Possession of Certificate. Although the transfer of a certificate or of shares represented thereby has been rescinded or set aside, nevertheless, if the transferee has possession of the certificate or of a new certificate representing part or the whole of the same shares of stock, a subsequent transfer of such certificate by the transferee, mediately or immediately, to a purchaser for value in good faith, without notice of any facts making the transfer wrongful, shall give such purchaser an indefeasible right to the certificate and the shares represented thereby.

53-i. Delivery of Certificate Without Endorsement. The delivery of a certificate by the person appearing by the certificate to be the owner thereof, without the endorsement requisite for the transfer of the certificate and the shares represented thereby, but with intent to transfer such certificate or shares shall impose an obligation, in the absence of an agreement to the contrary, upon the person so delivering, to complete the transfer by making the necessary endorsement. The transfer shall take effect as of the time when the endorsement is actually made. This obligation may be specifically enforced.

53-j. Promise to Transfer. An attempted transfer of title to a certificate or to the shares represented thereby without delivery of the certificate shall have the effect of a promise to transfer, and the obligation, if any, imposed by such promise

shall be determined by the law governing the formation and performance of contracts.

53-k. Warranties by Transfer. A person who for value transfers a certificate, including one who assigns for value a claim secured by a certificate, unless a contrary intention appears, warrants (a) that the certificate is genuine; (b) that he has a legal right to transfer it; and (c) that he has no knowledge of any fact which would impair the validity of the certificate. In the case of an assignment of a claim secured by a certificate, the liability of the assignor upon such warranty shall not exceed the amount of the claim.

53-l. Certificate Held as Security. A mortgagee, pledgee, or other holder for security of a certificate who in good faith demands or receives payment of the debt for which such certificate is security, whether from a party to a draft drawn for such debt, or from any other person, shall not by so doing be deemed to represent or to warrant the genuineness of such certificate, or the value of the shares represented thereby.

53-m. Issue of New Certificate. Except where a certificate is lost or destroyed, a corporation shall not be compelled to issue a new certificate for the stock until the old certificate is surrendered to it.

53-n. Restrictions to be Stated on Certificate. There shall be no lien in favor of a corporation upon the shares represented by a certificate issued by such corporation, and there shall be no restriction upon the transfer of shares so represented by virtue of any by-laws of such corporation, or otherwise, unless the right of the corporation to such lien or the restriction is stated upon the certificate.

53-o. Alteration of Certificate. The alteration of a certificate, whether fraudulent or not and by whomsoever made, shall not deprive the owner of his title to the certificate and the shares originally represented thereby, and the transfer of such a certificate shall convey to the transferee a good title to such certificate and to the shares originally represented thereby.

53-p. Court Order for Issuance of New Certificate. If a certificate has been lost or destroyed, a court of competent jurisdiction may order the issue of a new certificate therefor on service of process upon the corporation and on reasonable notice by publication, and in any other way which the

court may direct, to all persons interested, and upon satisfactory proof of such loss or destruction and upon the giving of a bond with sufficient surety to be approved by the court to protect the corporation or any persons injured by the issue of the new certificate from any liability or expense, which it or they may incur by reason of the original certificate remaining outstanding. The court may also in its discretion order the payment of the corporation's reasonable costs and counsel fees. The issue of a new certificate under an order of the court as provided in this section, shall not relieve the corporation from liability in damages to a person to whom the original certificate has been or shall be transferred for value without notice of the proceedings or of the issuance of the new certificate.

53-q. Certificate Deemed to be Endorsed. A certificate shall be deemed to be endorsed when an assignment or a power of attorney to sell, assign or transfer the certificate or the shares represented thereby is written on the certificate and signed by the person appearing by the certificate to be the owner of the shares represented thereby, or when the signature of such person is written without more upon the back of the certificate. In either of such cases a certificate shall be deemed to be endorsed though it has not been delivered.

53-r. Person Deemed to be Owner of Certificate. The person to whom a certificate was originally issued shall be deemed to be the person appearing by the certificate to be the owner thereof, and of the shares represented thereby, until and unless he endorses the certificate to another specified person, and thereupon such other specified person shall be deemed to be the person appearing by the certificate to be the owner thereof until and unless he also endorses the certificate to another specified person. Subsequent special endorsements may be made with like effect.

53-s. Installments on Stock Unpaid. Stock shall not be transferred on the books of a corporation if any installments thereon remain overdue and unpaid.

53-t. Who Entitled to New Certificates. A transferee under a transfer described in section 53-a upon delivery of the former certificate to the treasurer of the corporation, shall be entitled to receive a new certificate. A pledgee of stock transferred as collateral security shall be entitled to a new certifi-

cate if the instrument of transfer substantially describes the debt or duty which is intended to be secured thereby. Such new certificate shall express on its face that it is held as collateral security, and the name of the pledgor shall be stated thereon, who alone shall be liable as a stockholder, and entitled to vote thereon.

CHAPTER 179-A

UNEMPLOYMENT COMPENSATION

1. Definitions. The following words and phrases, as used in this chapter, shall have the following meaning unless the context clearly requires otherwise:

A. "Base period" means the period beginning with the first day of the five completed calendar quarters immediately pre-

ceding the first day of an individual's benefit year and ending with the last day of the next to the last completed calendar quarter immediately preceding any benefit year.

B. "Benefits" means the money payable to an individual as compensation for his wage losses due to unemployment as provided in this chapter.

C. "Benefit year," with respect to any individual, means the fifty-two consecutive week period beginning with the first day of the week with respect to which benefits are first payable to him, and thereafter the fifty-two consecutive week period beginning with the first day of the first week with respect to which benefits are next payable to him after the termination of his last preceding benefit year.

D. "Calendar quarter" means the period of three consecutive calendar months ending on March 31, June 30, September 30, or December 31, excluding, however, any calendar quarter or portion thereof which occurs prior to January 1, 1936, or the equivalent thereof as the commissioner may by regulation prescribe.

E. "Commissioner" means the commissioner of labor or his authorized representative.

F. "Contributions" means the money payments to the State Unemployment Compensation Fund required by this chapter.

G. "Employing unit" means any individual or type of organization, including any partnership, association, trust, estate, joint-stock company, or corporation, whether domestic or foreign, or the receiver, trustee in bankruptcy, trustee or successor thereof, or the legal representative of a deceased person, which has or subsequent to January 1, 1935, had in its employ one or more individuals performing services for it within this state. All individuals performing services within this state for any employing unit which maintains two or more separate establishments within this state shall be deemed to be employed by a single employing unit for all purposes of this chapter. Whenever any employing unit contracts with or has under it any contractor or subcontractor for any work which is part of its usual trade, occupation, profession or business, individuals in the employ of such contractors or subcontractors shall be considered to be in the employ of the employing unit unless it shall be proven to the satisfaction of the

commissioner that such contracting is not for the purpose of avoiding the application of this chapter. Each individual employed to perform or to assist in performing the work of any agent or employee of an employing unit shall be deemed to be employed by such employing unit for all the purposes of this chapter, whether such individual was hired or paid directly by such employing unit or by such agent or employee, provided the employing unit had actual or constructive knowledge of the work.

H. "Employer" means (1) Any employing unit which in each of twenty different weeks, whether or not such weeks are or were consecutive, within either the current or the preceding calendar year, has or had in employment, four or more individuals, irrespective of whether the same individuals are or were employed in each such week;

(2) Any other employing unit subject for either the current or preceding calendar year to the tax levied by title IX of the Social Security Act as amended;

(3) Any employing unit which acquired the organization, trade or business, or substantially all the assets thereof, of another which at the time of such acquisition was an employer subject to this chapter;

(4) Any employing unit which acquired the organization, trade or business, or substantially all the assets thereof, of another employing unit (not an employer subject to this chapter) and which, if subsequent to such acquisition it were treated as a single unit with such other employing unit, would be an employer under paragraph (1) of this subsection;

(5) Any employing unit which, together with one or more other employing units, is owned or controlled (by legally enforceable means or otherwise) directly or indirectly by the same interests, or which owns or controls one or more other employing units (by legally enforceable means or otherwise), and which, if treated as a single unit with such other employing units or interests, or both, would be an employer under paragraph (1) of this subsection;

(6) Any employing unit which, having become an employer under paragraph (1), (2), (3), (4), or (5), has not, under section 7, ceased to be an employer subject to this chapter; or

(7) For the effective period of its election pursuant to sec-

tion 7 C any other employing unit which has elected to become fully subject to this chapter.

I. "Employment" (1) subject to the other provisions of this subsection means service, including service in interstate commerce performed for wages or under any contract of hire, written or oral, expressed or implied. The term "employment" shall include an individual's entire service performed within or both within and without this state:

(a) If all or the greater part of such services are performed within this state; or

(b) If that fact is not readily determinable by the commissioner, if some part of such service is performed in this state and the individual's base of operations or place from which his services are directed or controlled is in this state; or

(c) If neither of the foregoing facts are readily determinable by the commissioner, if some part of such services are performed in this state and the individual's residence is in this state.

(2) In no event shall services performed without this state be deemed to be employment subject to this chapter if contributions are required to be paid with respect thereto under an unemployment compensation law of any other state or of the federal government. The commissioner may prescribe regulations pursuant to which an employing unit may elect that the services performed for it entirely without this state by a resident of this state, shall be deemed to constitute employment subject to this chapter.

(3) Services performed by an individual for wages shall be deemed to be employment subject to this chapter unless and until it is shown to the satisfaction of the commissioner that:

(a) Such individual has been and will continue to be free from control or direction over the performance of such services, both under his contract of service and in fact; and

(b) Such service is either outside the usual course of the business for which such service is performed or that such service is performed outside of all the places of business of the enterprise for which such service is performed; and

(c) Such individual is customarily engaged in an independently established trade, occupation, profession, or business.

(4) The term "employment" shall not include:

- (a) Agricultural labor;
- (b) Domestic service in a private home;
- (c) Service performed as an officer or member of the crew of a vessel on the navigable waters of the United States;
- (d) Service performed in the employ of any other state or of its political subdivisions, or of the United States government, or of an instrumentality of any other state or states or their political subdivisions or of the United States;
- (e) Service performed in the employ of this state, or of any political subdivision thereof, or of any instrumentality of this state or its political subdivisions;
- (f) Service performed in the employ of a corporation, community chest, fund, or foundation, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, and service performed in the employ of fraternal organizations, no part of the net earnings of which inures to the benefit of any private shareholder or individual;
- (g) Service with respect to which unemployment compensation is payable under an unemployment compensation system established by an act of Congress; provided that the commissioner is hereby authorized and directed to enter into agreements with the proper agencies under such act of Congress, which agreements shall become effective ten days after publication thereof in the manner provided in section 9 C of this chapter for general rules, to provide reciprocal treatment to individuals who have, after acquiring potential rights to benefits under this chapter, acquired rights to unemployment compensation under such act of Congress, or who have, after acquiring potential rights to unemployment compensation under such act of Congress, acquired rights to benefits under this chapter.

J. "Employment office" means a free public employment office or branch thereof operated by this state or maintained as a part of a state controlled system of public employment offices.

K. "Fund" means the Unemployment Compensation Fund established by this chapter, to which all contributions required and from which all benefits provided under this chapter shall be paid.

L. "State" includes, in addition to the states of the United

States of America, Alaska, Hawaii, and the District of Columbia.

M. "Total and Partial Unemployment" (1) An individual shall be deemed "totally unemployed" in any week with respect to which no wages are payable to him and during which he performs no services;

(2) An individual shall be deemed "partially unemployed" in any week of less than full-time work if the wages payable to him for such week fail to equal two dollars more than the weekly benefit amount he would be entitled to receive if totally unemployed and eligible. As used in this subsection, the term "wages" shall include only that part of remuneration for odd jobs or subsidiary work or both which is in excess of three dollars in any one week, and the term "services" shall not include that part of odd jobs or subsidiary work or both for which remuneration equal to or less than three dollars in any one week is payable. An individual's week of unemployment shall be deemed to commence only after his registration at an employment office, except as the commissioner may by regulation prescribe.

N. "Unemployment Compensation Administration Account" means the account set up for the purpose of meeting the expenses of administration under this chapter.

O. "Wages" means every form of remuneration for personal services payable to a person directly or indirectly, including salaries, commissions, bonuses, and the reasonable value of board, rent, housing, lodging, payment in kind and similar advantages estimated and determined in accordance with the rules of the commissioner. When gratuities are received by the individual in the course of his employment from a person other than his employer, the amount of such gratuities shall be considered as wages payable by his employing unit and the reasonable amount thereof shall be estimated and determined in accordance with rules prescribed by the commissioner.

P. "Week" means such period of seven consecutive calendar days as the commissioner may by regulations prescribe.

Q. "Weekly Benefit Amount." An individual's "weekly benefit amount" means the amount of benefits he would be entitled to receive for one week of total unemployment.

2. Benefits.

A. **Payment of Benefits.** On January 1, 1938, benefits shall become payable from the fund. All benefits shall be paid through employment offices, in accordance with such regulations as the commissioner may prescribe.

B. **Weekly Benefit Amount for Total Unemployment.** Each eligible individual who is totally unemployed in any week shall be paid, with respect to such week, benefits computed to the nearest dollar at the rate of $1/26$ of his highest quarterly wages for employment by employers in a period which consists of the next to the last completed calendar quarter immediately preceding the date with respect to which such individual's weekly benefit is determined and such of the three immediately preceding consecutive calendar quarters as the commissioner may by regulation prescribe, but not more than fifteen dollars per week, nor less than either five dollars or $3/4$ of $1/13$ of such highest quarterly wages for employment by employers in such period, whichever is the lesser. If the commissioner finds that the highest of the quarters in such period is not reasonably related to the normal and usual full-time quarterly earnings, the commissioner may select such other quarter in such period which is representative of the individual's normal and usual full-time earnings. The weekly benefit amount of an individual shall be determined and re-determined at such reasonable times as the commissioner may find necessary to administer this chapter and may by regulation prescribe.

C. **Weekly Benefit for Partial Unemployment.** Each eligible individual who is partially unemployed in any week shall be paid with respect to such week a partial benefit. Such partial benefit shall be an amount calculated to the nearest dollar which, if added to his wages as used in section 1 M for such week, would exceed his weekly benefit amount by two dollars.

D. **Duration of Benefits.** The commissioner shall compute wage credits for each individual by crediting him with the wages earned by him for employment by employers during each quarter, or three hundred and ninety dollars, whichever is the lesser. Benefits paid to any eligible individual shall be charged, in the same chronological order as such wages were earned, against one-sixth of his wage credits which are based upon wages earned during his base period and which have not

been previously charged hereunder. The maximum total amount of benefits payable to any eligible individual during any benefit year shall not exceed whichever is the lesser of (1) sixteen times his weekly benefit amount, and (2) one-sixth of such uncharged wage credits with respect to his base period.

3. Benefit Eligibility Conditions. An unemployed individual shall be eligible to receive benefits with respect to any week only if the commissioner finds that:

A. He has registered for work at and thereafter has continued to report at an employment office in accordance with such regulations as the commissioner may prescribe;

B. He has made a claim for benefits in accordance with the provisions of section 5 A of this chapter;

C. He is able to work, and is available for work;

D. Prior to any week for which he claims benefits he has been totally unemployed for a waiting period of three weeks (and for the purposes of this subsection, two weeks of partial unemployment shall be deemed to be equivalent to one week of total unemployment). Such weeks of total or partial unemployment or both need not be consecutive. No week shall be counted as a week of total unemployment for the purposes of this subsection:

(1) Unless it occurs within the thirteen consecutive weeks preceding the week for which he claims benefits, provided that this requirement shall not interrupt the payment of benefits for consecutive weeks of unemployment; and provided further that no individual shall be required to accumulate more than eight waiting period weeks during any sixty-five consecutive week period;

(2) If benefits have been paid with respect thereto;

(3) Unless the individual was eligible for benefits with respect thereto in all respects except for the requirements of subsections B and E of this section;

(4) Unless it occurs after benefits first could become payable to any individual under this chapter.

E. He has within the first three out of the last four completed calendar quarters immediately preceding the first day of his benefit year, earned wages for employment by employers of one hundred and seventy-five dollars.

4. **Disqualifications for Benefits.** An individual shall be disqualified for benefits:

A. For the week in which he has left work voluntarily without good cause, if so found by the commissioner, and for the three weeks which immediately follow such week, in addition to the waiting period.

B. For the week in which he has been discharged for misconduct connected with his work, if so found by the commissioner, and for the three weeks which immediately follow such week, in addition to the waiting period.

C. If the commissioner finds that he has failed, without good cause, either to apply for available, suitable work when so directed by the employment office or the commissioner or to accept suitable work when offered him, or to return to his customary self-employment (if any) when so directed by the commissioner. Such disqualification shall continue for the week in which such failure occurred and for the three weeks which immediately follow such week, in addition to the waiting period.

(1) In determining whether or not any work is suitable for an individual, the commissioner shall consider the degree of risk involved to his health, safety, and morals, his physical fitness and prior training, his experience and prior earnings, his length of unemployment and prospects for securing local work in his customary occupation, and the distance of the available work from his residence.

(2) Notwithstanding any other provisions of this chapter, no work shall be deemed suitable and benefits shall not be denied under this chapter to any otherwise eligible individual for refusing to accept new work under any of the following conditions:

(a) If the position offered is vacant due directly to a strike, lockout, or other labor dispute;

(b) If the wages, hours or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality:

(c) If as a condition of being employed the individual would be required to join a company union or to resign from or refrain from joining any *bona fide* labor organization.

D. For any week with respect to which the commissioner finds that his total or partial unemployment is due to a stop-

page of work which exists because of a labor dispute at the factory, establishment, or other premises at which he is or was last employed, provided that this subsection shall not apply if it is shown to the satisfaction of the commissioner that:

(1) He is not participating in or financing or directly interested in the labor dispute which caused the stoppage of work; and

(2) He does not belong to a grade or class of workers of which, immediately before the commencement of the stoppage, there were members employed at the premises at which the stoppage occurs, any of whom are participating in or financing or directly interested in the dispute; provided that if in any case separate branches of work which are commonly conducted as separate businesses in separate premises are conducted in separate departments of the same premises each such department shall, for the purposes of this subsection, be deemed to be a separate factory, establishment, or other premises.

E. For any week with respect to which he is receiving or has received remuneration in the form of:

(1) Wages in lieu of notice;

(2) Compensation for temporary partial disability under the workmen's compensation law of any state or under a similar law of the United States; or

(3) Old-age benefits under title II of the Social Security Act as amended or similar payments under any act of Congress or old age assistance payments under any state laws; provided that if such remuneration is less than the benefits which would otherwise be due under this chapter, he shall be entitled to receive for such week, if otherwise eligible, benefits reduced by the amount of such remuneration.

F. For any week with respect to which he is receiving or has received payments in the form of unemployment compensation under an unemployment compensation law of any other state or under a similar law of the federal government.

5. Claims for Benefits.

A. **Filing.** Claims for benefits shall be made in accordance with such regulations as the commissioner may prescribe. Each employer shall post and maintain printed statements of such regulations in places readily accessible to individuals in his service and shall make available to each such individual at

the time he becomes unemployed, a printed statement of such regulations. Such printed statement shall be supplied by the commissioner to each employer without cost to him.

B. Initial Determination. A representative designated by the commissioner, and hereinafter referred to as a deputy, shall promptly examine the claim of an individual, and on the basis of the facts found by him, shall either determine whether or not such claim is valid, and if valid, the week with respect to which benefits shall commence, the weekly benefit amount payable and the maximum duration thereof, or shall refer such claim or any question involved therein to an appeal tribunal, which shall make its decision with respect thereto in accordance with the procedure described in subsection C of this section. The deputy shall promptly notify the claimant and any other interested parties of the decision and the reasons therefor. The deputy may for good cause reconsider his decision and shall promptly notify the claimant and such other interested parties of the denial of such application or of his amended decision and the reasons therefor, as the case may be. Unless the claimant or any such interested party, within five calendar days after the delivery of the deputy's notification, or within seven calendar days after such notification was mailed to his last known address, files an appeal from such decision, such decision shall be final and benefits shall be paid or denied in accordance therewith. If an appeal is duly filed, benefits with respect to the period prior to the final decision of the appeal tribunal or commissioner shall be paid only after such decision; provided that if an appeal tribunal affirms a decision of a deputy, or the commissioner affirms a decision of an appeal tribunal or deputy allowing benefits, such benefits shall be paid regardless of any appeal which may thereafter be taken, but if such decision is finally reversed, no employer's account shall be charged with benefits so paid.

C. Appeals. Unless such appeal is withdrawn, an appeal tribunal, after affording the parties reasonable opportunity for fair hearing, shall affirm or modify the findings of fact and decision of the deputy. The parties shall be duly notified of such tribunal's decision, together with its reasons therefor. Such decision shall be deemed to be the final decision of the commissioner, unless within ten days after the date of notifi-

cation or mailing of such decision, further appeal is initiated pursuant to subsection F of this section.

D. Appeal Tribunals. To hear and decide disputed claims, the commissioner shall appoint one or more impartial appeal tribunals consisting in each case of either a salaried examiner, or a body consisting of three members, one of whom shall be a salaried examiner, who shall serve as chairman, one of whom shall be a representative of employers and the other of whom shall be a representative of employees; each of the latter two members shall serve at the pleasure of the commissioner and be paid a fee of not more than eight dollars per day of active service on such tribunal plus necessary expenses. No person shall participate on behalf of the commissioner in any case in which he is an interested party. The commissioner may designate alternates to serve in the absence or disqualification of any member of an appeal tribunal. The chairman shall act alone in the absence or disqualification of any other member and his alternates. In no case shall the hearings proceed unless the chairman of the appeal tribunal is present.

E. Procedure. The manner in which disputed claims shall be presented and the conduct of hearings and appeals shall be in accordance with regulations prescribed by the commissioner for determining the rights of the parties, whether or not such regulations conform to common law or statutory rules of evidence and other technical rules of procedure. A full and complete record shall be kept of all proceedings in connection with a disputed claim. All testimony at any hearing upon a disputed claim shall be recorded, but need not be transcribed unless the disputed claim is further appealed.

F. Commissioner Review. The commissioner shall have the power to remove or transfer to himself or another appeal tribunal the proceedings on any claim pending before a designated official or appeal tribunal; and may, on his own motion, within ten days after the date of any decision by such official or appeal tribunal, affirm, reverse, change, or set aside any such decision on the basis of the evidence previously submitted in such case, or upon the taking of additional testimony, or may permit any of the parties to such decision to initiate further appeals before him. The commissioner shall permit such further appeal by any of the parties interested in a decision of an appeal tribunal which is not unanimous and by the

deputy whose decision has been overruled or modified by an appeal tribunal. Any proceeding so removed to the commissioner shall be heard by him in accordance with the requirements of subsection C of this section. The commissioner shall promptly notify the interested parties of his findings and decision and the reasons therefor.

G. Witnesses Fees. Witnesses subpoenaed pursuant to this section shall be allowed fees at the rate established for witnesses in the superior court. Such fees shall be deemed a part of the expenses of administering this chapter.

H. Appeal to Courts. Any party aggrieved by any decision of fact in proceedings under the provisions of this chapter may, after exhaustion of other administrative remedies provided herein, and within ten days after such decision, appeal to the superior court in the same manner as parties aggrieved by the decision of fact of a municipal court. Any party aggrieved by any ruling of law in any proceeding hereunder, having excepted thereto, may file his exceptions with the commissioner within ten days after decision of the appeal tribunal, and the same shall be allowed by the commissioner so far as conformable to the facts. Thereupon the case shall be transferred to the supreme court as in actions at law. The commissioner may of his own motion transfer to the supreme court any question of law arising in the administration of this chapter. A petition for judicial review shall not act as a supersedeas or stay unless the commissioner shall so order. Upon the final determination of such judicial proceeding, the commissioner shall enter an order in accordance with such determination.

6. Contributions.

A. Payment of Contributions. On and after January 1, 1936, contributions shall accrue and become payable by each employer for each calendar year in which he is subject to this chapter with respect to wages payable for employment occurring during such calendar year, provided that contributions, on account of wages in excess of three thousand dollars payable to an individual in any calendar year, shall be paid only so long as such contributions may be credited by any employer against the tax imposed by title IX of the Social Security Act as amended. Such contributions shall become due and be paid by each employer to the commissioner for the fund in accord-

ance with such regulations as the commissioner may prescribe, and shall not be deducted, in whole or in part, from the wages of individuals in such employer's employ; provided that after January 1, 1936, the contributions of an employer becoming subject to the law within any calendar year shall be first due and payable after such employer has satisfied the conditions with respect to becoming an employer.

In the payment of any contributions, a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more in which case it shall be increased to one cent.

B. Rate of Contribution. Each employer shall pay contributions equal to the following percentages of wages payable by him with respect to employment:

(1) 1 per centum with respect to employment during the calendar year 1936;

(2) 2 per centum with respect to employment during the period between January 1, 1937 and September 30, 1937.

(3) 1.8 per centum with respect to employment during the calendar year 1937 subsequent to September 30, 1937.

(4) With respect to employment after December 31, 1937, 2.7 per centum, except as otherwise prescribed in subsection E of this section.

C. Separate Accounts. The commissioner shall maintain a separate account for each employer, and shall credit his account with all the contributions paid on his own behalf. But nothing in this chapter shall be construed to grant any employer or individuals in his service prior claims or rights to the amounts paid by him into the fund either on his own behalf or on behalf of such individuals. Benefits paid to an eligible individual shall be charged, in the amount hereinafter provided against the account of his most recent employer, except that if such individual had not earned within the completed calendar quarter and the expired portion of the uncompleted calendar quarter immediately preceding the first week of any continuous period of unemployment, wages for employment by such most recent employer equal to more than sixteen times his weekly benefit amount, such benefits may also be charged against the account of his next most recent employer, in the inverse chronological order in which the employment of such individual occurred. The maximum amount so charged against the account of any

employer shall not exceed one-sixth of the wages payable to such individual by each such employer for employment which occurs on and after the first day of such individual's base period, but not more than sixty-five dollars per completed calendar quarter or portion thereof, which occurs within such base period; but nothing in this section shall be construed to limit benefits payable pursuant to section 2 of this chapter. The commissioner shall by general rules prescribe the manner in which benefits shall be charged against the accounts of several employers for whom an individual performed employment at the same time.

D. Joint Accounts. The commissioner may prescribe regulations for the establishment, maintenance, and dissolution of joint accounts by two or more employers, and shall, in accordance with such regulations and upon application by two or more employers to establish such an account, or to merge their several individual accounts in a joint account, maintain such joint account as if it constituted a single employer's account.

E. Merit Ratings. The commissioner shall, for the year 1941 and for each calendar year thereafter, classify employers in accordance with their actual experience in the payment of contributions on their own behalf and with respect to benefits charged against their accounts, with a view to fixing such contribution rates as will reflect such experience. The commissioner shall determine the contribution rate of each employer in accordance with the following requirements:

(1) Each employer's rate shall be 2.7 per centum, except as otherwise provided in the following provisions. No employer's rate shall be less than 2.7 per centum unless and until there shall have been three calendar years throughout which any one individual in his employ could have received benefits if eligible.

(2) Each employer's rate for the twelve months commencing January 1 of any calendar year shall be determined on the basis of his record up to the beginning of such calendar year. If, at the beginning of such calendar year, the total of all his contributions paid on his own behalf and credited to his account for all past years exceeds the total benefits charged to his account for all such years, his contribution rate shall be:

(a) Two and one-half per centum, if such excess equals or exceeds eight per centum of his average annual payroll;

(b) Two per centum, if such excess equals or exceeds ten per centum of his average annual payroll;

(c) One and one-half per centum, if such excess equals or exceeds twelve per centum of his average annual payroll;

(d) One per centum, if such excess equals or exceeds fifteen per centum of his average annual payroll.

(3) No employer's rate for the period of twelve months commencing January 1 of any calendar year shall be less than 2.7 per centum, unless the total assets credited to his account in the fund, excluding contributions not yet paid at the beginning of such calendar year, exceed the total benefits paid from the fund within the last preceding calendar year; and no employer's rate shall be less than two per centum unless such assets at such time were at least twice the total benefits paid from the fund within such last preceding year.

(4) As used in this section the term "annual payroll" means the total amount of wages payable by an employer (regardless of the time of payment) for employment during a calendar year, and the term "average annual payroll" means the average of the annual payrolls of an employer for the last three or five preceding calendar years, whichever average is higher.

The term "wages" as used in this paragraph shall not include wages in excess of three thousand dollars payable to an individual in any calendar year.

7. Period Election and Termination of Employer's Coverage.

A. Any employing unit which is or becomes an employer subject to this chapter within any calendar year shall be subject to this chapter after it has satisfied the conditions with respect to becoming an employer and thereafter as provided in subsection B of this section.

B. An employing unit shall cease to be an employer subject to this chapter as of the first day of January of any calendar year, only if it files with the commissioner, prior to the fifteenth of February of such year, a written application for termination of coverage, and the commissioner finds that there were no twenty weeks within the preceding calendar

year, within which such employing unit employed four or more individuals in employment subject to this chapter.

C. (1) An employing unit not otherwise subject to this chapter which files with the commissioner its written election to become an employer subject hereto for not less than two calendar years, shall, with the written approval of such election by the commissioner, become an employer subject hereto to the same extent as all other employers, as of the date stated in such approval, and shall cease to be subject hereto as of January 1 of any calendar year subsequent to such two calendar years, only if at least thirty days prior to such first day of January, it has filed with the commissioner a written notice to that effect.

(2) Any employing unit for which services that do not constitute employment as defined in this chapter are performed, may file with the commissioner a written election that all such services performed by individuals in its employ in any or all of its places of business shall be deemed to constitute employment for all the purposes of this chapter for not less than two calendar years. Upon the written approval of such election by the commissioner, such services shall be deemed to constitute employment subject to this chapter from and after the date stated in such approval. Such services shall cease to be deemed employment subject hereto as of January 1 of any calendar year subsequent to such two calendar years, only if at least thirty days prior to such first day of January such employing unit has filed with the commissioner a written notice to that effect.

8. Unemployment Compensation Fund.

A. **Establishment and Control.** There is hereby created the Unemployment Compensation Fund to be administered by the commissioner, subject to audit by the comptroller without liability on the part of the state beyond the amounts paid into and earned by the fund. This fund shall consist of all contributions collected under this chapter, together with any interest thereon collected pursuant to section 11 A of this chapter; all fines and penalties collected pursuant to this chapter and all interest earned upon any moneys in the fund; any properties or securities acquired through use of moneys or securities belonging to the fund; and all earnings of such properties or

securities. All moneys in the fund shall be mingled and undivided.

B. Accounts and Deposit. The commissioner shall designate the state treasurer as custodian of the fund who shall administer such fund in accordance with the directions of the commissioner and shall issue his warrants upon it in accordance with such regulations as the commissioner shall prescribe. He shall maintain within the fund three separate accounts: (1) A clearing account, (2) an unemployment trust fund account, and (3) a benefit account. All moneys payable to the fund, upon receipt thereof by the commissioner, shall be forwarded to the treasurer who shall immediately deposit them in the clearing account. Refunds payable pursuant to section 11 D of this chapter may be paid from the clearing account upon warrants issued by the treasurer under the direction of the commissioner. After clearance thereof, all other moneys in the clearing account shall be immediately deposited with the secretary of the treasury of the United States of America to the credit of the account of this state in the unemployment trust fund, established and maintained pursuant to section 904 of the Social Security Act, as amended, any provisions of law in this state relating to the deposit, administration, release, or disbursement of moneys in the possession or custody of this state to the contrary notwithstanding. The benefit account shall consist of all moneys requisitioned from this state's account in the unemployment trust fund. Except as herein otherwise provided, moneys in the clearing and benefit accounts may be deposited by the treasurer, under the direction of the commissioner, in any bank or public depository in which general funds of the state may be deposited, but no public deposit insurance charge or premium shall be paid out of the fund. The treasurer shall give a separate bond conditioned upon the faithful performance of his duties as custodian of the fund in an amount fixed by the commissioner and approved by the attorney-general. Premiums for said bond shall be paid from the administration account.

C. Withdrawals. Moneys shall be requisitioned from this state's account in the unemployment trust fund solely for the payment of benefits and in accordance with regulations prescribed by the commissioner. The commissioner shall from time to time requisition from the unemployment trust fund

such amounts, not exceeding the amounts standing to this state's account therein, as he deems necessary for the payment of benefits for a reasonable future period. Upon receipt thereof the treasurer shall deposit such moneys in the benefit account and shall issue his warrants for the payment of benefits solely from such benefit account. All warrants issued by the treasurer for the payment of benefits and refunds shall bear the signature of the treasurer and the countersignature of the commissioner or his duly authorized agent for that purpose. Any balance of moneys requisitioned from the unemployment trust fund which remains unclaimed or unpaid in the benefit account after the expiration of the period for which such sums were requisitioned shall either be deducted from estimates for, and may be utilized for the payment of, benefits during succeeding periods, or, in the discretion of the commissioner, shall be redeposited with the secretary of the treasury of the United States of America, to the credit of this state's account in the unemployment trust fund, as provided in section 8 B of this chapter.

D. Management of Funds upon Discontinuance of Unemployment Trust Fund. The provisions of subsections A, B, and C, of this section to the extent that they relate to the unemployment trust fund, shall be operative only so long as such unemployment trust fund continues to exist and so long as the secretary of the treasury of the United States of America continues to maintain for this state a separate book account of all funds deposited therein by this state for benefit purposes, together with this state's proportionate share of the earnings of such unemployment trust fund, from which no other state is permitted to make withdrawals. If and when such unemployment trust fund ceases to exist, or such separate book account is no longer maintained, all moneys, properties, or securities therein, belonging to the unemployment compensation fund of this state shall be transferred to the treasurer of the unemployment compensation fund, who shall hold, invest, transfer, sell, deposit, and release such moneys, properties or securities in a manner approved by the commissioner in accordance with the provisions of this chapter, provided that such moneys shall be invested in the following readily marketable classes of securities: Bonds or other interest-bearing obligations of the United States of America, or of this state

or of its political subdivisions; provided further that such investment shall at all times be so made that all the assets of the fund shall always be readily convertible into cash when needed for the payment of benefits. The treasurer shall dispose of securities or other properties belonging to the unemployment compensation fund only under the direction of the commissioner.

9. Administrative Organization and Administration.

A. Unemployment Compensation Division. There is hereby created in the bureau of labor two co-ordinate divisions, the New Hampshire state employment service division and a division known as the unemployment compensation division, each of which shall be administered by a full-time salaried administrator who shall be subject to the supervision and direction of the commissioner. Each division shall be responsible for the discharge of its distinctive functions. Each division shall be a separate administrative unit with respect to personnel, budget, and duties except so far as the commissioner may find such separation is impractical. The commissioner, with the approval of the governor and council, is directed to appoint the director, other officers and employees of the New Hampshire State employment service. Such appointment shall be made in accordance with regulations prescribed by the director of the United States employment service. The commissioner, through the New Hampshire state employment service, shall establish and maintain free public employment offices in such numbers and in such places as may be necessary for the proper administration of this chapter.

B. Duties and Powers of Commissioner. It shall be the duty of the commissioner to administer this chapter and he shall have power and authority to adopt, amend, or rescind such rules and regulations, to employ such persons, make such expenditures, require such reports, make such investigations, and take such other action as he deems necessary or suitable to that end. Such rules and regulations shall be effective upon publication in the manner, not inconsistent with the provisions of this chapter, which the commissioner shall prescribe. The commissioner shall determine his own organization and methods or procedure in accordance with the provisions of this chapter. Not later than the first day of February of each year, the commissioner shall submit to the gover-

nor a report covering the administration and operation of this chapter during the preceding calendar year and shall make such recommendations for amendments to this chapter as he deems proper. Such reports shall include a balance sheet of the moneys in the fund in which there shall be provided, if possible, a reserve against the liability in future years to pay benefits in excess of the then current contributions, which reserve shall be set up by the commissioner in accordance with accepted actuarial principles on the basis of statistics of employment, business activity, and other relevant factors for the longest possible period. Whenever the commissioner believes that a change in contribution or benefit rates will become necessary to protect the solvency of the fund, he shall promptly so inform the governor and the legislature, and make recommendations with respect thereto.

C. Regulations and General and Special Rules. General and special rules may be adopted, amended, or rescinded by the commissioner only after public hearing or opportunity to be heard thereon, of which proper notice has been given. General rules shall become effective ten days after filing with the secretary of state and publication in one or more newspapers of general circulation in this state. Special rules shall become effective ten days after notification to or mailing to the last-known address of the individuals or concerns affected thereby. Regulations may be adopted, amended, or rescinded by the commissioner and shall become effective in the manner and at the time prescribed by the commissioner.

D. Publication. The commissioner shall cause to be printed in proper form for distribution to the public the text of this chapter, his regulations, general and special rules, his annual reports to the governor and any other material he deems relevant and suitable, and shall furnish the same to any person upon request.

E. Personnel. The commissioner is authorized to employ all the necessary officers, accountants, clerks, agents, investigators, auditors and other persons necessary for the proper administration of this chapter, and to fix the amount of their compensation subject to the approval of the governor and council. They shall be selected and appointed on a nonpartisan basis of efficiency and fitness. The commissioner shall fix the duties and powers of all persons thus employed, and may

authorize any such person to perform any of the functions of the commissioner under this chapter. The commissioner may, in his discretion, bond any person handling moneys or signing checks hereunder.

F. Segregation of Special Risks. The commissioner shall investigate and report upon the degree of unemployment hazard in various industries and occupations and their cost to the unemployment fund. He shall recommend to employers in industries or occupations showing an excessive cost to the fund means for stabilizing employment. He shall also, if necessary, recommend to the legislature a higher rate of contribution for any classification of industries or occupations in which unemployment is excessive or chronic.

G. Records and Reports. Each employing unit shall keep true and accurate work records, containing such information as the commissioner may prescribe. Such records shall be open to inspection and be subject to being copied by the commissioner or his authorized representatives at any reasonable time and as often as may be necessary. The commissioner and the chairman of any appeal tribunal may require from any employing unit any sworn or unsworn reports, with respect to persons employed by it, which either of them deems necessary for the effective administration of this chapter. Information thus obtained or obtained from any individual pursuant to the administration of this chapter shall be held confidential and shall not be published or be open to public inspection (other than to public employees in the performance of their public duties) in any manner revealing the individual's or employing unit's identity, but any claimant (or his legal representative) at a hearing before an appeal tribunal or the commissioner shall be supplied with information from such records to the extent necessary for the proper presentation of his claim. Any employee or member of an appeal tribunal or any employee of the commissioner who violates any provision of this section shall be fined not less than twenty dollars nor more than two hundred dollars, or imprisoned for not more than ninety days, or both.

H. Oaths and Witnesses. In the discharge of the duties imposed by this chapter, the commissioner, the chairman of an appeal tribunal, and any duly authorized representative of either of them shall have power to administer oaths and

affirmations, take depositions, certify to official acts, and issue subpoenas to compel the attendance of witnesses and the production of books, papers, correspondence, memoranda, and other records deemed necessary as evidence in connection with a disputed claim or the administration of this chapter.

I. Protection Against Self-Incrimination. No person shall be excused from attending and testifying or from producing books, papers, correspondence, memoranda, and other records before the commissioner, the chairman of an appeal tribunal, or any duly authorized representative of either of them, or a court of this state, or in obedience to the subpoena of any of them in any cause or proceeding before the commissioner, or an appeal tribunal, on the ground that the testimony or evidence, documentary or otherwise, required of him may tend to incriminate him or subject him to a penalty or forfeiture; but no individual shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter, or thing concerning which he is compelled, after having claimed his privilege against self-incrimination, to testify or produce evidence, documentary or otherwise, except that such individual so testifying shall not be exempt from prosecution and punishment for perjury committed in so testifying.

J. Subpoenas. In case of contumacy by, or refusal to obey a subpoena issued to, any person, any court of this state within the jurisdiction of which the inquiry is carried on or within the jurisdiction of which said person guilty of contumacy or refusal to obey is found or resides or transacts business, upon application by the commissioner, the chairman of an appeal tribunal, or any duly authorized representative of either of them shall have jurisdiction to issue to such person an order requiring such person to appear before the commissioner, the chairman of an appeal tribunal or any duly authorized representative of either of them, there to produce evidence if so ordered or there to give testimony touching the matter under investigation or in question; and any failure to obey such order of the court may be punished by said court as a contempt thereof. Any person who shall without just cause fail or refuse to attend and testify or to answer any lawful inquiry or to produce books, papers, correspondence, memoranda, and other records, if it is in his power so to do, in obedience to a subpoena of the commissioner, the chairman of an appeal

tribunal, or any duly authorized representative of either of them, shall be fined not more than two hundred dollars or imprisoned for not more than sixty days, or by both such fine and imprisonment, and each day such violation continues shall be deemed to be a separate offense.

K. State-Federal Co-operation. In the administration of this chapter, the commissioner shall co-operate, to the fullest extent consistent with the provisions of this chapter, with the social security board, created by the Social Security Act, approved August 14, 1935, as amended; shall make such reports in such form and containing such information as the social security board may from time to time require, and shall comply with such provisions as the social security board may from time to time find necessary to assure the correctness and verification of such reports; and shall comply with regulations prescribed by the social security board governing the expenditures of such sums as may be allotted and paid to this state under title III of the Social Security Act for the purpose of assisting in the administration of this chapter.

Upon request therefor the commissioner shall furnish to any agency of the United States charged with the administration of public works or assistance through public employment, the name, address, ordinary occupation, and employment status of each recipient of benefits and such recipient's rights to further benefits under this chapter.

10. Unemployment Compensation Administration Account.

A. Special Fund. There is hereby created in the state treasury a special fund to be known as the Unemployment Compensation Administration Account. All moneys which are deposited or paid into this account are hereby appropriated and made available to the commissioner. All moneys in this account shall be expended solely for the purpose of defraying the cost of the administration of this chapter and for no other purpose whatsoever. The account shall consist of all moneys appropriated by this state, and all moneys received from the United States of America, or any agency thereof, including the social security board and the United States employment service, or from any other source, for such purpose. All moneys in this account shall be deposited, administered, and disbursed, in the same manner and under the same conditions and requirements as is provided by law for other special funds in the

state treasury. Any balances in this account shall not lapse at any time, but shall be continuously available to the commissioner for expenditures consistent with this chapter. The state treasurer shall give a separate and additional bond conditioned upon the faithful performance of his duties in connection with the unemployment compensation administration fund in an amount to be fixed by the commissioner and in a form approved by the attorney-general. The premiums for such bond and the premiums for the bond given by the treasurer of the unemployment compensation fund under section 8 of this chapter shall be paid from the moneys in the unemployment compensation administration account.

B. Employment Service Account. A special Employment Service Account shall be maintained as a part of the unemployment compensation administration account for the purpose of maintaining public employment offices established pursuant to chapter 146 of the Laws of 1935 and for the purpose of cooperating with the United States employment service. There shall be paid into such account the moneys apportioned for the purposes of this account from any moneys received by this state under title III of the Social Security Act, as amended.

11. Collection of Contributions.

A. Interest on Past-Due Contributions. Contributions unpaid on the date on which they are due and payable, as prescribed by the commissioner, shall bear interest at the rate of one per centum per month from and after such date until payment plus accrued interest is received by the commissioner. Interest collected pursuant to this subsection shall be paid into the unemployment compensation fund.

B. Collection. If, after due notice, any employer defaults in any payment of contributions or interest thereon, the amount due shall be collected by civil action in the name of the commissioner and the employer adjudged in default shall pay the costs of such action. Civil actions brought under this section to collect contributions or interest thereon from an employer shall be heard by the court at the earliest possible date and shall be entitled to preference upon the calendar of the court over all other civil actions except petitions for judicial review under this chapter and cases arising under the workmen's compensation law of this state.

C. Priorities Under Legal Dissolution or Distributions. In

the event of any distribution of an employer's assets pursuant to an order of any court under the laws of this state, including any receivership, assignment for benefit of creditors, adjudicated insolvency, composition, or similar proceeding, contributions then or thereafter due shall be paid in full prior to all other claims except taxes and claims for wages of not more than two hundred and fifty dollars to each claimant, earned within six months of the commencement of the proceeding. In the event of an employer's adjudication in bankruptcy, judicially confirmed extension proposal, or composition, under the Federal Bankruptcy Act of 1898, as amended, contributions then or thereafter due shall be entitled to such priority as is provided in section 64 (b) of that act, U. S. C., title 11, section 104 (b), as amended.

D. Adjustments and Refunds. If not later than one year after the date on which any contributions or interest thereon became due, an employer or worker who has paid such contributions or interest thereon shall make application for an adjustment thereof in connection with subsequent contribution payments, or for a refund thereof because such adjustment cannot be made, and the commissioner shall determine that such contributions or interest or any portion thereof was erroneously collected, the commissioner shall allow such employer or worker to make an adjustment thereof, without interest, in connection with subsequent contribution payments by him, or if such adjustment cannot be made the commissioner shall refund said amount, without interest, from the fund. For like cause and within the same period, adjustment or refund may be so made on the commissioner's own initiative.

12. Protection of Rights and Benefits.

A. Waiver of Rights Void. Any agreement by an individual to waive, release, or commute his rights to benefits or any other rights under this chapter shall be void. Any agreement by any individual in the employ of any person or concern to pay all or any portion of an employer's contributions, required under this chapter from such employer, shall be void. No employer shall directly or indirectly make or require or accept any deduction from wages to finance the employer's contributions required from him, or require or accept any waiver of any right hereunder by any individual in his em-

ploy. Any employer or officer or agent of an employer who violates any provision of this subsection shall, for each offense, be fined not less than one hundred dollars nor more than one thousand dollars or be imprisoned for not more than six months, or both.

B. Limitation of Fees. No individual claiming benefits shall be charged fees of any kind in any proceeding under this chapter by the commissioner, or his representatives or any court or any officer thereof. Any individual claiming benefits before the commissioner or his representatives may be represented by counsel or other duly authorized agent; but no such counsel or agents shall either charge or receive for such services more than an amount approved by the commissioner. Any person who violates any provision of this subsection shall, for each such offense, be fined not less than fifty dollars nor more than five hundred dollars, or imprisoned for not more than six months, or both.

C. No Assignment or Garnishment of Benefits. Any assignment, pledge, or encumbrance of any right to benefits which are or may become due or payable under this chapter shall be void; and such rights to benefits shall be exempt from levy, execution, attachment, or any other remedy whatsoever provided for the collection of debt; and benefits received by any individual, so long as they are not mingled with other funds of the recipient, shall be exempt from any remedy whatsoever for the collection of all debts except debts incurred for necessities furnished to such individual or his spouse or dependents during the time when such individual was unemployed. Any waiver of any exemption provided for in this subsection shall be void.

13. Penalties.

A. Whoever wilfully makes a false statement or representation or knowingly fails to disclose a material fact to obtain or increase any benefit or other payment under this chapter, either for himself, or for any other person, shall, upon conviction, be fined not less than twenty nor more than one hundred dollars, or imprisoned not more than sixty days, or both; and each such false statement or representation or failure to disclose a material fact shall constitute a separate and distinct offense.

B. Any employing unit or any officer or agent of an em-

ploying unit, who wilfully makes a false statement or representation or who knowingly fails to disclose a material fact to avoid becoming or remaining subject hereto or to avoid or prevent or reduce any contribution or other payment required of such employing unit under this chapter, or to deny or reduce payments of benefits to any individual, or who wilfully fails or refuses to make any such contribution, or other payment or to furnish any reports required hereunder or to testify or to permit inspection of records or produce records as required hereunder, or who makes, permits or requires any deduction from wages to pay all or any portion of the contributions required from employers, or who attempts to induce any individual to waive any right under this chapter, shall, upon conviction, be fined not less than fifty nor more than five hundred dollars, or imprisoned not more than six months, or both; and each such violation shall constitute a separate and distinct offense.

C. Any violator of any provision of this chapter, or of any order, rule or regulation thereunder for which a penalty is neither prescribed above nor provided by any other applicable statute, shall be fined not less than twenty nor more than one hundred dollars, or be imprisoned for not longer than thirty days, or by both such fine and imprisonment, and each such violation shall be deemed to be a separate and distinct offense.

D. Any person who, by reason of the nondisclosure or misrepresentation by him or by another, of a material fact (irrespective of whether such nondisclosure or misrepresentation was known or fraudulent) has received any sum as benefits under this chapter while any conditions for the receipt of benefits imposed by this chapter were not fulfilled in his case, or while he was disqualified from receiving benefits, shall, in the discretion of the commissioner, either be liable to have such sum deducted from any future benefits payable to him under this chapter or shall be liable to repay to the commissioner for the unemployment compensation fund a sum equal to the amount so received by him, and such sum shall be collectible in the manner provided in section 11 B of this chapter for the collection of past due contributions.

14. Representation in Court.

A. In any civil action to enforce the provisions of this chapter the commissioner and the state may be represented

by any qualified attorney who is employed by the commissioner and is designated by him for this purpose or at the commissioner's request by the attorney-general.

B. All criminal actions for violation of any provision of this chapter, or of any rule or regulation issued pursuant thereto, shall be prosecuted by the attorney-general of the state or, at his request and under his direction, by the county solicitor of any county in which the employer has a place of business or the violator resides.

15. Reciprocal Arrangements. The commissioner is hereby authorized to enter into arrangements with the appropriate agencies of other states or the federal government whereby individuals performing services in this and other states for a single employing unit under circumstances not specifically provided for in section 1 of this chapter or under similar provisions in the unemployment compensation laws of such other states, shall be deemed to be engaged in employment performed entirely within this state or within one of such other states and whereby potential rights to benefits accumulated under the unemployment compensation laws of several states or under such a law of the federal government, or both, may constitute the basis for the payment of benefits through a single appropriate agency under terms which the commissioner finds will be fair and reasonable as to all affected interests and will not result in any substantial loss to the fund.

16. Saving Clause. The legislature reserves the right to amend or repeal all or any part of this chapter at any time; and there shall be no vested private right of any kind against such amendment or repeal. All the rights, privileges, or immunities conferred by this chapter or by acts done pursuant thereto shall exist subject to the power of the legislature to amend or repeal this chapter at any time.

17. Separability of Provisions. If any provision of this chapter or the application thereof to any person or circumstance, is held invalid, the remainder of this chapter and the application of such provision to other persons or circumstances shall not be affected thereby.

18. Suspension and Termination. If at any time the governor shall find (1) that the provisions of this chapter requiring the payment of contributions and benefits have been held

invalid under the constitution of this state by the supreme court of this state or under the United States constitution by the supreme court of the United States in such manner that any person or concern required to pay contributions under this chapter might secure a similar decision, or (2) that the tax imposed by title IX of the Social Security Act, as amended, or any other federal tax against which contributions under this chapter may be credited, has been amended or repealed by Congress or has been held unconstitutional by the supreme court of the United States with the result that no portion of the contributions required by this chapter may be credited against such federal tax, the governor shall publicly so proclaim, and upon the date of such proclamation the provision of this chapter requiring the payment of contributions and benefits shall be suspended. The commissioner shall thereupon requisition from the unemployment trust fund all moneys therein standing to its credit and shall direct the state treasurer to deposit such moneys, together with any other moneys, in the fund, as a special fund in any banks or public depositories in this state in which general funds of the state may be deposited, and to hold such moneys for such disposition as the legislature may prescribe.

2. Takes Effect. This act shall take effect September 30, 1937.

and the date upon which assistance shall begin. The commissioner shall, however, in all cases, first consult with the proper officials of counties or towns hereby required to contribute to the cost thereof. The commissioner shall notify the applicant of his decision and send a copy thereof to the proper town and county officials.

17. Funeral Expenses. On the death of the recipient reasonable funeral expenses may be paid subject to the rules and regulations of the department, if the estate of the deceased is insufficient to pay the same.

The board, upon its own motion, or upon receipt of an appeal, shall give the applicant or recipient reasonable notice and opportunity for a fair hearing.

19. Recovery. If at any time during the continuance of assistance the recipient thereof or the husband or wife of the recipient becomes possessed of any property or income in excess of the amount stated in the application, it shall be the duty of the recipient immediately to notify the commissioner of the receipt or possession of such property or income. On the death of a recipient of old age assistance, the total amount of assistance paid under this subdivision shall be allowed as a claim against the estate of such person after reasonable funeral expenses and the expenses of administering the estate have been paid. No claim shall be imposed against the real estate of a recipient of old age assistance while it is occupied as a home by a surviving spouse, or against any personal property of less than one hundred dollars in value. The federal government shall be entitled, as long as required as a condition to federal financial participation, to not more than one half of the net amount collected from the estate of a recipient of old age assistance.

20. Fraudulent Acts. Whoever knowingly obtains or attempts to obtain, or aids or abets any person to obtain assistance, to which he is not entitled, shall be fined not more than five hundred dollars or be imprisoned not more than three

24. Appropriation. Amend chapter 167 of the Laws of

1937, the act making appropriations for the state for the year ending June 30, 1939, by striking out the paragraph making appropriations for welfare and relief and inserting in place thereof the following: For department of public welfare \$637,310.

25. Equalization. Should a county or town find that it is impossible to pay the amounts required under this subdivision, it may file a petition with the department, requesting financial aid. The department shall cause an investigation to be made of all pertinent factors relating to the financial circumstances of the petitioning county or town. The department may, with the approval of the governor and council, loan or grant to such county or town such amount as may be necessary.

26. Agencies Abolished. The state board of welfare and relief, established by chapter 20, Laws of 1935, and the state board of public welfare, established by chapter 108, Public Laws, as amended by chapter 177, Laws of 1929, are hereby abolished and all properties and records of such boards shall be transferred immediately to the department herein created. Any balance of funds or appropriations heretofore made available to the state board of welfare and relief under chapter 20, Laws of 1935, or any other act, shall be available to the department. Any provision of law not expressly repealed hereby referring to the state board of public welfare or the state board of welfare and relief shall be construed as referring to the department of public welfare.

The commissioner shall, with the approval of the governor and council, appoint and fix the salary of a state veterans' service officer, who shall be an honorably discharged veteran of a war in which the United States was engaged. He shall serve during the pleasure of the commissioner. The duties of the state veterans' service officer shall be to assist veterans who are residents of this state or their dependents to secure all benefits or preferences to which they may be entitled under any state or federal laws or regulations, and such other duties as may be delegated to him by the commissioner.

29. Summons of Witnesses. The commissioner or his duly authorized agent shall have the power to issue subpoenas for witnesses and compel their attendance and the production of papers and writings.

30. Acceptance of Funds. The governor and council are hereby authorized on behalf of the state to accept and to apply to the carrying out of the purposes of this subdivision all moneys that may be advanced to, or otherwise placed at the disposal of, the state by the federal government or any of its agencies for the purposes of this subdivision. Said funds shall be disbursed by the commissioner.

31. Assignability of Assistance. All assistance given hereunder shall be inalienable by any assignment or transfer and shall be exempt from levy or execution under the laws of this state.

32. Guardian. If the person receiving old age assistance is, on the testimony of reputable witnesses, found incapable of taking care of himself or his money, the commissioner may make the payments of such assistance to any responsible person, guardian or corporation for his benefit.

33. Assistance, Exclusive. No person receiving old age assistance under this subdivision shall at the same time receive any other relief from the state, or from any political subdivision thereof, except for medical and surgical assistance, and the acceptance of such relief shall operate as a revocation of old age assistance. The names of persons receiving old age assistance under the provisions of this subdivision shall not be printed in any report of the county commissioners or of the board of public welfare nor published in any state, county or town report.

34. Claims and Liens Against Estates. The total amount paid to the recipient of old age assistance under this subdivision shall be a lien upon the estate of such recipient. The commissioner shall require as a condition to granting old age assistance in any case that the applicant submit a properly acknowledged agreement to reimburse the federal government, the state and the county or town for all assistance granted. In such agreement such applicant shall assign as collateral security for such assistance such part of his personal property

At any time the commissioner may execute and file with the proper registers of deeds and town clerks a certificate showing the amount of assistance paid to said person, and when so filed each such certificate shall be a legal claim against the said person and his estate and shall have the same force and effect as a judgment at law. The registers of deeds and town clerks shall keep a suitable record of such certificates without charging any fee therefor and enter thereon an acknowledgment of satisfaction upon receipt of notice thereof from the commissioner. All funds recovered under these provisions, after any necessary reimbursement to the federal government as provided in section 19, shall be allocated to the county or town and to the state in the same proportion as the assistance paid by each.

If such disabled member shall die before receiving in the form of an annuity all of the accumulations up to the time of his disability from his own and the state's annual payments into his account, the balance shall be paid to his legal representative, or to such person as he may elect, subject to such rules and regulations as may be prescribed by the retirement board.

CHAPTER 321.

AN ACT IN RELATION TO THE KEENE SHOPS OF THE BOSTON & MAINE RAILROAD.

SECTION

1. Repeal.
2. Amendment.

SECTION

3. Conditions.
4. Takes effect.

WHEREAS it was provided by section 5 of chapter 257 of the Laws of 1887 that any lease or union of the Cheshire Railroad Company to or with another railroad corporation should be subject to the condition that its repair and construction shops in this state should not be discontinued or the work done thereat materially diminished; and it was further provided by section 12 of chapter 367 of the Laws of 1917, as amended by chapter 278 of the Laws of 1931, that the repair and construction shops within this state maintained by the Boston & Maine Railroad or any of its subsidiaries as of July 1, 1931, should not be discontinued and that a designated proportion of the shop repair and construction work of the Boston & Maine Railroad system should be done in this state; and

WHEREAS the Boston & Maine Railroad desires to transfer to its shops at Concord in this state the repair and construction work heretofore done at the shops maintained by it as successor to the Cheshire Railroad Company in Keene, and negotiations are in progress between it and representatives of the city of Keene relative to such proposed transfer; now therefore

Be it enacted by the Senate and House of Representatives in General Court convened:

1. Repeal. Section 5 of chapter 257 of the Laws of 1887 is hereby repealed.

2. Amendment. Section 12 of chapter 367 of the Laws of 1917, as amended by section 1 of chapter 278 of the Laws of 1931, is hereby further amended by inserting the words, except the shops at Keene, before the words "maintained as of July 1, 1931," so that said section as amended shall read as follows:

Sect. 12. It will be a condition to the exercise of the rights, privileges and franchises granted herein that the repair and construction shops within this state except the shops at Keene, maintained as of July 1, 1931, by the Boston & Maine Railroad or any of the subsidiary companies shall not be discontinued and that a proportionate part of the shop repair and construc-

tion work of the reorganized Boston & Maine Railroad shall be done within this state; such proportionate part shall be to the repair and construction work for the system as a whole as the combined locomotive and car miles operated within New Hampshire are to the combined locomotive and car miles operated on the system as a whole; and to determine whether such proportionate part of the shop repair and construction work is being done within the state, the compensation paid to employees engaged in such work within the state shall be compared with the compensation paid to employees engaged in such work for the system as a whole.

3. Conditions. The foregoing repeal and amendment are subject to the following conditions:

(a) That in the event of a discontinuance of its Keene shops the classes and kinds of repair and construction work done by the Boston & Maine Railroad at said shops since July 1, 1931, shall forthwith be transferred to, and shall thereafter be done at, its shops in Concord in this state.

(b) That prior to such discontinuance the Boston & Maine Railroad shall, by contract with its present employees at said Keene shops or with their authorized representatives under the federal railway labor act, assure to all of such employees who are willing to accept the same, subject to existing seniority rules, employment at its Concord shops or elsewhere on its system, at mechanical work similar to their present work so far as practicable, and at wages not inferior to their present wages.

(c) That prior to such discontinuance the Boston & Maine Railroad shall, without expense to the city of Keene, procure the establishment in said city of some other acceptable industry or industries having an expectant average annual pay roll at least equal to the pay roll of its Keene shops during the calendar year 1936, and that it shall not curtail the classes of work now done at said shops pending the establishment of such substitute industry.

(d) That prior to such discontinuance the Boston & Maine Railroad and the city of Keene shall enter into a written contract, duly approved by the board of directors of said railroad, by the city councils of said city, and by a majority of the legal voters of said city present and voting at a regular municipal election or at a special election called by the city councils for

that purpose, by the terms whereof the city shall agree to the proposed discontinuance of the existing Keene shops and the railroad shall agree to protect and indemnify the city for the term of not less than ten nor more than twenty years, as may be provided by said contract, against loss of tax revenue, and against loss from diminution of average annual pay roll, in consequence of such discontinuance and the substitution of another industry or industries as aforesaid. The amount of indemnity payable to or recoverable by the city on account of diminution of pay roll for any year shall be the sum by which (a) the gross pay roll of the substituted industry or industries for such year, plus the gross pay roll of the Keene shops for such year in case the work thereat is discontinued only in part or restored in part, shall be less than (b) the gross pay roll of said shops for 1936; but any excess of item (a) over item (b) for any year or years shall be credited against any deficiency in subsequent years. Said contract shall, when approved as aforesaid, be binding upon the Boston & Maine Railroad and its successors and assigns, and the city of Keene is hereby authorized to sue in its corporate capacity for any breach thereof. Any judgment obtained against the railroad in an action for loss of tax revenue shall be a preferred claim, having the same priority as taxes; but a judgment obtained for pay roll loss shall not have such priority except in case of receivership or bankruptcy. Any sum paid to or recovered by the city for pay roll or tax loss shall become a part of its general unappropriated fund.

4. Takes Effect. This act shall take effect whenever the public service commission shall certify in writing to the secretary of state that the foregoing conditions (b), (c) and (d) have been duly complied with, and said commission is hereby authorized to make any investigation necessary to determine such question of compliance.

2. State Highway System. In constructing, repairing, relocating and reconstructing the highways, bridges and culverts in the state highway, state-aided highway and trunk line systems and the state-aided highway bridges which were damaged or destroyed during the said floods, the highway commissioner, with the approval of the governor and council, may expend such portion of the said two million dollars as is necessary and the towns and cities shall not be liable for any expense in connection with such construction, repair, relocation and reconstruction.

3. Town Highways. In cases of serious damage during said floods to town or city highways, bridges and culverts, other than those included in state highway, state-aided highway and trunk line systems, and state-aided highway bridges, the several towns and cities, upon application to the governor, shall receive from the state in aid of the necessary construction and repair, relocation and reconstruction of the same or

any part thereof, and the providing of such temporary highway facilities as the public convenience requires, such sums of money as the governor, with the advice and consent of the council, may approve. In determining the amounts to be approved for payment hereunder to any town or city the amount of damage to its highways, bridges and culverts, its financial condition in consequence of said damage, the reasonable requirements of service to the public, and any aid available from the federal government for such flood damage shall be taken into consideration and no town or city shall be required to expend therefor upon its own account a sum greater than one-eighth of one per cent of its assessed valuation for the year 1936, or a sum which together with its present indebtedness equals an amount in excess of its debt limit. Construction and repair, relocation and reconstruction made by towns or cities from such funds shall be under the supervision of the state highway commissioner.

4. Bonds Authorized. The state treasurer is hereby authorized, under the direction of the governor and council, to borrow upon the credit of the state, for the purpose of carrying into effect the provisions of this act, sums not to exceed two million dollars in all and for that purpose may issue bonds and notes in the name of and on behalf of the state of New Hampshire at a rate of interest to be determined by the governor and council at the time of approval of the issue, said interest to be payable semi-annually. The maturity dates of such bonds and notes shall be not later than December 31, 1952. Such bonds and notes shall be in such form and such denominations and with such provisions for call or redemption as the governor and council may determine, may be registerable as to both principal and interest, and shall be countersigned by the governor and shall be deemed a pledge of the faith and credit of the state. The secretary of state shall keep an account of all such bonds and notes as countersigned by the governor, showing the number and amount of each bond and note, the time of countersigning, the date of delivery to the treasurer and the date of maturity. The state treasurer shall keep an account of each bond and note, showing the number thereof, the name of the persons to whom sold, the amount received for the same, the date of the sale and the date of maturity.

The treasurer may negotiate and sell such bonds and notes by direction of, and in such manner as, the governor and council deem most advantageous to the state. The proceeds of the sale of such bonds and notes shall be held by the treasurer and paid by him upon warrants drawn by the governor for the purposes of this act alone. The governor, with the advice and consent of the council, shall draw his warrant for the payment, from the funds provided for by this act, of all sums expended or due for the purposes herein authorized.

6. Motor Vehicle Road Toll. Beginning with the final payment of the bonds provided for by chapter 41 of the Laws of 1929, as amended by chapter 151 of the Laws of 1933, the additional road toll of one cent per gallon, provided for in section 8 of said chapter 41, shall be continued in full force and effect until the final payment of the bonds and notes provided for by this act. Such additional motor vehicle road toll shall be collected in the manner now provided. A separate account of such additional motor vehicle road toll shall be kept by the state treasurer to which he shall add from time to time, at the direction of the governor acting with the advice and consent of the council, such sums from the separate account provided for by said chapter 41 as are not reasonably necessary for the payment of the bonds provided for by said chapter. The funds so held shall be used at the discretion of the governor, with the approval of the council, to pay the interest and principal of the bonds and notes provided for by this act. To the extent that said funds are insufficient, at any time, to pay the interest and principal due on any bonds and notes provided for by this act the governor shall draw his warrant upon the general highway fund for the payment thereof. Upon the final payment of the bonds and notes which may be issued under the authority of this act the governor and council shall forthwith by proclamation terminate the further collection of the additional motor vehicle road toll hereby provided.

Be it enacted by the Senate and House of Representatives in General Court convened:

1. Compact. The governor, with the advice and consent of the council, shall appoint three persons resident in this state, as commissioners upon the part of the state of New Hampshire to enter into, with the state of Maine, by and through the commissioners who may be appointed under or by virtue of the laws of the state of Maine, an agreement or compact in the form following, that is to say:

Compact

WHEREAS, the single highway bridge serving as the sole facility for vehicular traffic over and across the Piscataqua river between the state of New Hampshire and the state of Maine is wholly inadequate to care for and accommodate such traffic over said river between the said two states and therefore causes such traffic congestion in and upon the streets and highways of the city of Portsmouth, New Hampshire, and the town of Kittery, Maine, that the lives and property of the citizens of said communities and the travelers on said streets and highways are constantly endangered; and

WHEREAS, the antiquated and obsolete wooden pile bridge serving as the sole facility for railroad traffic over and across the Piscataqua river between the state of New Hampshire and state of Maine is wholly inadequate to care for and accommodate the railroad traffic between the said two states; and

WHEREAS, the narrow draw-span of said wooden pile rail-

road bridge the sole facility permitting passage of water traffic up and down said river is wholly inadequate to permit the passage of steamers and vessels of broad beam from the sea inland to serve the large industrial plants now situate on the banks of said river and therefore constitutes an obstacle to further enlargement of these industries and the development of numerous other industrial sites located so that passage through said bridge is absolutely necessary; and

WHEREAS, the only remedy for the conditions now existing is the construction of a bridge across said river which by coordinating the facilities required by vehicular and railroad traffic will remove the obstacle to water traffic; and

WHEREAS, the solution of this problem will result in great economy and benefit not only to the states of Maine and New Hampshire but to the nation and will require the cordial cooperation of the states of New Hampshire and Maine in the encouragement of the investment of capital as well as the formulation and execution of the necessary plans and such result can best be accomplished through the joining of the two states of Maine and New Hampshire by and through a common agency.

Now therefore, the said states of New Hampshire and Maine do hereby agree and pledge each to the other as follows:

ARTICLE I.

Said states agree to and pledge, each to the other, faithful co-operation in the planning, execution and construction of a suitable vehicular and railroad bridge with suitable highway approaches thereto and draw-span therein; holding the same in high trust for the benefit of the nation and of the said two states.

ARTICLE II.

There is hereby created "The Maine-New Hampshire Interstate Bridge Authority" which shall be a body corporate and politic having the powers and jurisdiction hereinafter enumerated and such other and additional powers as shall be conferred upon it by the legislature of either state concurred in by the legislature of the other state or by act or acts of Congress as hereinafter provided.

ARTICLE III.

The Authority shall consist of six members, three residents of the state of New Hampshire and three residents of the state of Maine. The New Hampshire members to be chosen by the state of New Hampshire and the Maine members to be chosen by the state of Maine in the manner and for the term fixed and determined from time to time by the legislatures of either state respectively. Any member may be removed or suspended from office as provided by the law of the state from which he shall be appointed.

ARTICLE IV.

The members of the Authority shall, for the purposes of doing business, constitute a board and may adopt suitable rules and regulations for its management.

ARTICLE V.

The Authority is hereby authorized to provide by resolution from time to time for the issuance of bonds for the purpose of paying the costs of such bridge and its highway approaches and the location and equipment thereof. Any provision of any law to the contrary notwithstanding any bonds issued pursuant to this act shall be fully negotiable. In

case any of the members of the Authority whose signatures appear on the bonds or coupons shall cease to be such members before the delivery of such bonds, such signatures shall nevertheless be valid and sufficient for all purposes the same as if such members had remained in office until such delivery. erty and the maintenance and replacement thereof and the insurance to be carried thereon and the use and disposition of the insurance money; (20) for limitations upon the exercise of the powers conveyed upon the Authority by this act; (21) for the issuance of such bonds in series thereof and, (22) the performance by the Authority of any and all such acts and things as may be necessary or convenient or desirable in order to secure its bonds or in the absolute discretion of the Authority as will tend to make the bonds more marketable, notwithstanding that such acts or things may not be enumerated therein.

8. Limitations of Bondholders. In the event that the Authority shall make default in the payment of principal or interest on any of the bonds after the same shall fall due and such default shall continue for a period of sixty days, or default in any agreement with the bondholders, the holders of twenty-five per cent in aggregate principal amount of the bonds then outstanding by instrument filed in the office of the secretary of state duly acknowledged, may appoint a trustee to represent the bondholders for the purpose herein provided. Such trustee may, upon the written request of the holders of twenty-five per cent in principal amount of the bonds then outstanding; (1) by mandamus or other suit, action or proceeding at law or in equity enforce the rights of the bondholders; (2) bring suit upon the bonds; (3) enjoin any acts or other things which may be unlawful or in violation of the rights of the bondholders; (4) by notice in writing to the Authority declare all bonds due and payable and if all defaults shall be made good, to annul such declaration and its consequences; (5) by action or suit in equity require the Authority to account as if it were trustee of an expressed trust for the stockholders. Such trustee shall be entitled as a right to the appointment of a receiver who may to the extent that the Authority could itself do, enter and take possession of the facilities of the Authority or any part thereof, the revenue or receipts from which are or may be applicable to the payment of the bonds so in default, and operate and maintain the same and collect and receive all revenue thereafter arising therefrom in the same manner as the Authority might do, and shall deposit all such monies in a separate account and apply the same in such manner as the court shall direct. In any suit, action or proceeding by the trustee, the fees, counsel fees and expenses of the trustee and the receiver,

if any; and all costs and disbursements allowed by the court shall be a first charge on any revenues and receipts derived by the Authority, the revenues and receipts from which are or may be applicable to the payment of the bonds so in default. Such trustee shall in addition to the foregoing have and possess all the powers necessary and appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of the bondholders in the enforcement and protection of their rights. In addition to other rights and limitations, any bondholder shall have the right by mandamus or other suit, action or proceeding in law or in equity to enforce his rights against the Authority, including the right to require the Authority to carry out any agreement or covenant and to perform its duties under this act.

9. Interim Certificates. Prior to the issuance of the bonds hereunder the Authority may issue interim certificates in such manner and with such conditions as the Authority may determine to be exchanged for such bonds when issued.

10. Revenue. Subject to any agreement with the bondholder, all revenue received from the operation of said bridge after deducting the expenses of operation and maintenance, the expenses of the Authority, and the sums necessary to provide for the payment of the principal and the interest on the bonds of the Authority in accordance with the provisions thereof shall be held and invested by the Authority to establish trust funds for purpose of maintaining and operating said bridge and approaches thereto so that said bridge shall not be a charge upon either state or the United States.

11. Interim Expenses. All expenses incurred by the Authority in the interim between the execution of the compact or agreement and the date money received from grants, bonds or revenue, whichever shall be first, shall be available shall be a charge upon the highway funds in an amount not exceeding twenty-five hundred dollars.

12. Federal Permit. No sum shall be expended by the Authority unless and until the Authority shall have received a license or permit satisfactory to the Authority from the United States government to construct, operate and maintain said bridge and its highway approaches in, on and over the Piscataqua river. Said license shall be for a period of not less than twenty years. The Authority shall have power to secure

an extension or renewal of such license or permit. Provided, however, that the failure of the Authority to receive a permit complying with the requirements of this act shall not in any way affect the validity of any bonds of the Authority or the security therefor.

13. Agreement of the State. The state of New Hampshire does pledge to and agree with the holders of the bonds issued by the Authority that the state will not limit or alter the rights hereby vested in the Authority to establish and collect such charges and tolls as may be convenient or necessary to produce sufficient revenue to meet the expenses of the maintenance and operation of the bridge and its highway approaches and to fulfill the terms of any agreements made with the holders of the bonds issued by the Authority or in any way impair the rights or remedies of the holders of such bonds until such bonds, together with the interest thereon, with interest on any unpaid installments of interest and all costs and expenses in connection with any actions or proceedings by or in behalf of the bondholders are fully made and discharged.

14. Limitations. No person, partnership, association or corporation, private or public, and no political subdivision of the state shall be authorized, and it shall be unlawful for them to construct or operate, and the state of New Hampshire hereby agrees that it will not construct or operate any bridge for purposes similar to those contemplated hereby which will be competitive with the bridge to be erected pursuant to this act, until the bonds issued by the Authority together with the interest thereon with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceedings by or on behalf of the holders of such bonds are fully met and discharged.

15. Separability Clause. If any provision of this act or the application thereof to any person or circumstance, is held invalid the remainder of the act and the application of such provision to other persons or circumstances shall not be affected thereby.

16. Declaration of Purpose. It is hereby declared that the purposes of this act are public and that the Authority shall be regarded as performing a governmental function in the carrying out of the provisions of this act.

17. Penalties. Any violation of published rules and regu-

lations relating to the bridge, its use or services or any failure or neglect to pay tolls, fares or charges, for use of the bridge or other services, made available in connection with said bridge shall be deemed a misdemeanor and shall be punishable by a fine not exceeding ten dollars providing, however, that nothing herein contained shall prevent the Authority from collecting payment for use of the bridge or any other service by action at law or in equity.

18. Takes Effect. This act shall take effect upon its passage.
